GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

**City of Stockton
California**

For the Fiscal Year Beginning

July 1, 2017

Christopher P. Morrell

Executive Director

Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to City of Stockton, California, for its Annual Budget for the fiscal year beginning July 1, 2017. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications device.

This award is valid for a period of one year only, 2017. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

TAB 1 INTRODUCTION

STOCKTON CITY COUNCIL

RESOLUTION OF THE CITY OF STOCKTON APPROVING THE FISCAL YEAR 2018-19 ANNUAL BUDGET; APPROVING THE 2018-2023 CAPITAL IMPROVEMENT PLAN; APPROVING THE FISCAL YEAR 2018-19 FEE SCHEDULE; AUTHORIZING VARIOUS FUND TRANSFERS, AND ADMINISTRATIVE ACTIONS

On May 15, 2018, in accordance with City Charter, Article XIX, Section 1905, the City Manager provided City Council the Proposed Fiscal Year (FY) 2018-19 Annual Budget, Proposed 2018-23 Capital Improvement Plan, and Proposed FY 2018-19 Fee Schedule; and

On April 12, 2018, the Planning Commission determined that the 2018-2023 Capital Improvement Plan conforms to the 2035 General Plan; and

On May 1, 2018, the City Council conducted a special meeting to review updates to the City's Long-Range Financial Plan; and.

The City Council scheduled and conducted a budget study session on May 23, 2018, to review projections, allow for public discussion, and provide direction in the preparation of the annual budget. This study session included the proposed documents: FY 2018-19 Annual Budget, 2018-2023 Capital Improvement Plan, and FY 2018-19 Fee Schedule; and

On June 5, 2018, the City Council conducted a duly noticed public hearing on the Proposed FY 2018-19 Annual Budget, the Proposed 2018-23 Capital Improvement Plan, and the Proposed FY 2018-19 Fee Schedule; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF STOCKTON, AS FOLLOWS:

1. The FY 2018-19 Annual Budget with expenditure appropriations of \$709,419,235, as submitted by the City Manager, is adopted.
2. The number of full-time positions authorized under the FY 2018-19 Annual Budget is 1,705.
3. The 2018-2023 Capital Improvement Plan with a 5-year CIP project total of \$1,122,808,000 is adopted, which includes \$70,334,513 appropriations for the FY 2018-19 capital projects.
4. The 2018-2023 Capital Improvement Plan conforms to the City of Stockton 2035 General Plan.

5. The effective date of the FY 2018-19 Fee Schedule is July 1, 2018. Any fee changes that are not effective July 1, 2018 are noted in the document.
6. The fees on development projects will take effect 60 days following the final action on the increases in the FY 2018-19 Fee Schedule, where Government Code section 66017(a) applies.
7. The Parking Bail schedule is amended with adjustments to maintain consistency with similar fees and the California Vehicle Code; effective July 1, 2018.
8. An appropriation limit is established in the amount of \$390,274,143 for FY 2018-19 pursuant to the requirements of the California Government Code. The City of Stockton selected the “change in California per capita personal income” for the “change in cost of living” component and the change in annual population for the County of San Joaquin as of January 1, 2018, component in the calculation of the appropriation limit.
9. The City Attorney is authorized to enter into contracts for services and supplies where the total cost is: below the expenditure limit established in section 3.68.040 of the Stockton Municipal Code, within existing budget appropriation, and consistent with established administrative processes.
10. The City Manager is authorized to execute a one-year extension to the existing contract with Moss Adams, LLC to provide Internal Audit Services.
11. The City Manager or his designee is authorized to adjust appropriations from the General Fund Contingency account to General Fund Departments, subsidized programs and Internal Service Funds as needed for unexpected expenditures or emergencies that are unanticipated at the time of the budget adoption. The City Manager or his designee will report Contingency uses with each quarterly budget status report.
12. The remaining balances on all capital projects and grant funds are authorized to continue beyond the fiscal year in which they are originally appropriated until project cancellation or completion, grant expiration, or funds are fully expended.
13. Upon completion of a capital project, the City Manager, or his designee, is authorized to distribute any remaining unencumbered unrestricted appropriation balances up to \$75,000 to incomplete projects previously authorized in a Five-Year Capital Improvement Plan as allowed by funding source.

14. The remaining appropriations in capital projects related to City Hall relocation activities may be consolidated. These projects include but are not limited to: PW 1614, PW1615, ED2015, ED7001, and ED7002.
15. Revenues from the Waterfront Office Towers operations in excess of the buildings operating costs may be transferred to the New City Hall Renovation and Relocation Project in the General Capital fund and the City Manager or his designee is authorized to adjust the budget appropriation of the transfer and the capital project based on revenues greater than the budget estimate for FY 2017-18 and FY 2018-19.
16. The FY 2018-19 Information Technology Capital Plan with a total of \$11,063,144 is adopted and remaining appropriations in the technology projects are authorized to continue to future fiscal years until project is fully expended, completed, or cancelled.
17. Appropriate \$50,000 from available fund balance in the Street Improvement Public Facility Fee Fund 910 for costs associated with planning, grant applications, and indirect costs for eligible street projects.
18. The continuation of FY 2017-18 appropriations to FY 2018-19 is authorized for the completion of specific programs as listed in the following table:

Description	Department	Fund	Not to Exceed Carryover Amount
Summer Youth Employment program	Non-Departmental	General Fund	\$100,000
Stockton is Home	Non-Departmental	General Fund	25,000
Audit Findings Response	Administrative Services	General Fund	40,000
Council District Project Funds	City Council	General Fund	70,000
Mayor Special Project Funds	City Council - Mayor	General Fund	22,000
Capital Purchases	Fire Department	General Fund	60,000
FirstWatch Software	Fire Department	General Fund	25,000
Fire Administration Strategic Plan	Fire Department	General Fund	50,000
TOTAL			\$392,000

19. The following administrative actions required to implement the FY 2018-19 Annual Budget are authorized:
 - a) Level of Budgetary Control – Budgetary control is established at the following levels: a) General Fund - Department Level; b) Other Funds - Fund level; and c) Capital Fund - Project level. The City

Manager or his designee may authorize line item budget transfers within a General Fund department, or within a fund other than the General Fund.

- b) The City Manager or his designee is authorized to make administrative or technical corrections to the FY 2018-19 Annual Budget with a subsequent report to Council on any corrections greater than \$75,000.
- c) The City Manager or his designee is authorized to establish and amend revenue estimates and expenditure appropriations corresponding to receipt or award of grant funding, donations, and reimbursements where these special monies and any matching City funds are under the expenditure limit of \$75,000 as established by Ordinance 2015-01-27-1501-01, which amended Section 3.68.040 of the Stockton Municipal Code.
- d) The City Manager or his designee is authorized to establish revenue estimates and corresponding budget appropriations in General Fund Fire Department accounts as needed during FY 2018-19 to recognize the costs, and the associated reimbursement revenue for providing wild-land firefighting and other disaster response services requested by state or federal governments.
- e) The City Manager or his designee is authorized to abolish positions and/or reduce and reorganize personnel, programs, services, departments, offices, or agencies and take such other action as is necessary to maintain a balanced budget.
- f) The City Manager is authorized to adjustment classifications, including salary and benefit adjustments, to ensure comparability with similar classifications to maintain equity in the City's salary schedules as recommended by the Human Resources Department classification studies and reviews, and to incorporate changes into the Salary Schedule, as appropriate.
- g) The City Manager or his designee is authorized to fill additional Special Revenue Fund positions, such as grant funded, Measure W, and contract reimbursement positions, if additional funding becomes available.
- h) The indirect cost rate, as detailed in the City of Stockton Full Cost Allocation Plan and Cost Recovery Allocation Plan, shall be charged to departments and capital projects as project funding and regulations permit. The City Manager or his designee is authorized

to modify appropriations for changes that result from an independently prepared indirect cost allocation plan.

- i) The City Manager or his designee is authorized to prepay the City's annual CalPERS payments in a lump sum consistent with FY 2018-19 budget.
- j) The City Manager or his designee is authorized to approve temporary interfund borrowing within the fiscal year, and at the June 30 fiscal year end, to finance the collection period for tax, grant, and other accounts receivable. Any new interfund loans extending beyond these terms must be approved by the City Council. The City Manager is authorized to repay interfund loans when funding becomes available.
- k) The City Council delegates investment authority to the Chief Financial Officer, acting in capacity of Treasurer, for the period of July 1, 2018 through June 30, 2019 pursuant to Section 53601 and 53607 of the California Government Code.
- l) The City Manager or his designee is authorized to move appropriations and transfer between funds within a single budget unit, such as the water utility, Federal grant funds, and other funds where multiple funds have been established in the general ledger for purposes other than legal restrictions and the fund relationship has been identified in the FY 2018-19 Annual Budget, or established by subsequent City Council action.
- m) The City Manager or his designee is authorized to make the Contingent General Fund Payment to Assured Guaranty per the terms of the Reimbursement Agreement. Should the amount exceed the FY 2018-19 budget estimate, the City Manager or designee is authorized to increase the budget appropriation and transfer from the General Fund.
- n) The City Manager or his designee is authorized to close out inactive Area of Benefit project accounts and transfer all residual or surplus account balances to the General Fund in FY 2018-19 in accordance with section 16.72.050 of the Stockton Municipal Code.
- o) The City Manager or his designee is authorized and directed to take such other actions as are necessary and appropriate to carry out the purpose and intent of this resolution including adjusting appropriations from the General Fund Non-Departmental accounts to General Fund Departments, subsidized programs and Internal

Service Funds as needed to implement budget revisions authorized
by Council.

PASSED, APPROVED, and ADOPTED June 5, 2018.

MICHAEL D. TUBBS
Mayor of the City of Stockton

ATTEST:

BRET HUNTER, CMC
City Clerk of the City of Stockton

City of Stockton

Legislation Text

File #: 18-4632, Version: 1

PUBLIC HEARING TO ADOPT THE FISCAL YEAR (FY) 2018-19 ANNUAL BUDGET; APPROVE THE 2018-2023 CAPITAL IMPROVEMENT PLAN; APPROVE THE FY 2018-19 FEE SCHEDULE; APPROVE THE FY 2018-19 CALIFORNIA CONSTITUTIONAL APPROPRIATIONS LIMIT; APPROVE INTERFUND LOANS; ADOPT THE FY 2018-19 ANNUAL BUDGET FOR THE PARKING AUTHORITY OF THE CITY OF STOCKTON; AND ADOPT THE FY 2018-19 ANNUAL BUDGET FOR THE SUCCESSOR AGENCY TO THE FORMER STOCKTON REDEVELOPMENT AGENCY

RECOMMENDATION

It is recommended that the City Council approve two resolutions that:

1. Adopt the Fiscal Year (FY) 2018-19 Annual Budget, the 2018-2023 Capital Improvement Plan, the FY 2018-19 Fee Schedule, the FY 2018-19 California Constitutional (Gann) Appropriations Limit and other administrative, financial actions.
2. Approve two interfund loans including a loan in the amount of \$8,915,000 from the Workers' Compensation Internal Service Fund to the Parking Authority and a loan in the amount of \$3,482,423 from the Workers' Compensation Internal Service Fund to the Fleet Internal Service Fund with associate lease documents.

And it is recommended that the Stockton Public Finance Authority approve a resolution that:

1. Authorize a lease in the amount of \$12,397,422.39 with the City of Stockton in connection with the refinancing of the Stewart-Eberhardt Building (including adjacent parking structure) and 2007, 2015, and 2017 Fire Truck Leases and approves related assignment agreement and subleases.

And it is recommended that the Parking Authority of the City of Stockton (Parking Authority) approve two resolutions that:

1. Adopt the FY 2018-19 Annual Budget for the Parking Authority (Exhibit 1 to the Parking Authority resolution).
2. Approve an interfund loan in the amount of \$8,915,000 from the Workers' Compensation Internal Service Fund to the Parking Authority.

And it is recommended that the Successor Agency to the former Stockton Redevelopment Agency (Successor Agency) approve a resolution that:

1. Adopt the FY 2018-19 Annual Budget for the Successor Agency to the former Stockton

Redevelopment Agency (Exhibit 1 to the Successor Agency resolution).

It is further recommended that the City Manager be authorized to take appropriate and necessary actions to carry out the purpose and intent of the resolutions.

Summary

The City Manager submitted the Proposed Annual Budget, Capital Improvement Plan and Fee Schedule to Council on May 15, 2018. These documents include an annual financial plan for all City funds, the key elements of which are summarized below and described in much greater detail in the documents which are available on the City's website. The City Council held a Special Meeting on May 23, 2018, to review the budget in detail and receive public comment.

The FY 2018-19 annual budgets for the City of Stockton Parking Authority and the Successor Agency to the former Stockton Redevelopment Agency are also provided for approval and adoption.

The proposed financial plans are balanced in both the short- and long-term, address Council priorities and maintain Council's commitment to financial sustainability. The Proposed Budget totals \$709.4 million for the operations, capital, debt, transfers and internal service fund operations for all programs of the City. This amount represents an increase of \$83.1 million from the FY 2017-18 Annual Budget. The largest elements of the increase are operations cost increases in programs funded by the voter-approved Strong Communities initiative, a \$35.1 million increase in capital purchases for projects and equipment, primarily funded through an infusion of roadway and transportation funding from federal, state and local governments, and the initial phase of the wastewater treatment plant modifications project. Approximately \$34.9 million of the increase can be attributed to the refunding of debt that will result in close to \$2.0 million in savings. Interfund loans with related lease documents are included for approval action by the City, the Stockton Public Finance Authority and the Parking Authority to complete the proposed refunding.

Citywide estimated revenues are budgeted at \$630.9 million for FY 2018-19 excluding transfers between City funds. With transfers between City Funds, total sources of funding for the City are \$678.5 million. The balance of funding for the FY 2018-19 expenditures (\$30.9 million) is from available balances in the various City Funds primarily for capital project expenses. The FY 2018-19 budget supports 1,705 full-time positions as detailed in the Personnel Listing found in the budget document.

Staff recommends that Council conduct a public hearing to receive input regarding the proposed budgets and after the hearing, approve resolutions to enact the FY 2018-19 budgets.

DISCUSSION

Background

The City is poised to begin the sixth year of fiscal stewardship and discipline established upon resolution of the bankruptcy process. In recent years, the Council has balanced its short- and long-term demands by keeping a watchful eye on the City's long-term financial position. The Mayor and Council continue to proactively adjust the City's finances as needed and establish reserves to ensure

the ongoing delivery of services. Stockton's voters greatly enhanced the City's fiscal stability by approving sales tax increases for public safety, libraries, and recreation services. The City's adherence to prudent financial policies required discipline in the face of internal and external need-based pressures and has resulted in Stockton traveling from bankruptcy to being ranked one of the most financially stable large cities in the United States.

The City Council held a workshop on January 29, 2018, to establish priorities for the year. The priorities and targets developed by the City Council informed the development of the FY 2018-19 Proposed Annual Budget. The City Council also conducted a special meeting on May 1, 2018, to review updates to the City's Long-Range Financial Plan (L-RFP). This update of available resources and long-term financial constraints set the stage for the FY 2018-19 budget discussions. The City Manager provided the FY 2018-19 Proposed Annual Budget, along with the 2018-2023 Proposed Capital Improvement Plan and the FY 2018-19 Proposed Fee Schedule to Council on May 15, 2018. Council held a public study session on May 23, 2018, to review the budget in detail and to receive public comment.

Present Situation

The City Manager's proposed budget is balanced both in the near-term and long-term and is consistent in its commitment to long-term solvency. General Fund projected revenues net of transfers and internal charges are expected to exceed expenditures by approximately \$9.0 million in FY 2018-19. The revenue estimates and expenditure appropriations in the budget are for all funds and include operations, capital, debt and internal transfers for all programs and support functions of the City. Fund summaries and financial schedules showing prior year actual results, FY 2017-18 projections, and FY 2018-19 budget, are included for each City budget unit in the budget document.

In addition to the proposed budget, a number of related items are presented for Council approval.

FY 2018-19 Annual Budget

Citywide Budget

Citywide revenues are budgeted at \$630.9 million, which represents a 4.2 percent increase from the prior year total budgeted revenue of \$605.4 million. The primary components of this increase include:

- \$5.8 million in increased tax revenues
- \$5.6 million in increased street and capital project funding
- \$4.9 million in increased utility fees
- \$3.9 million for development and fire permits, fees and inspections

Total City expenditures of \$709.4 million reflect a 13.3 percent increase from the prior year total appropriation of \$626.4 million. The components of the increase are \$35.9 million more for operations, \$35.1 million in capital purchases for projects and equipment, and \$12.1 million for debt service.

The proposed FY 2018-19 Annual Budget funds 1,705 full-time positions, an increase of 14 positions

compared to the adopted FY 2017-18 Annual Budget. The large majority of the position increases were in two non-General Fund areas: Development Services (to deal with a large increase in development activity in the City), and in the Street Maintenance and Gas Tax Funds (to deliver the capital projects associated with increased funding).

This Annual Budget was developed using certain assumptions for baseline costs, such as approved positions and salary and benefit increments in line with approved labor agreements and ongoing expenditure increases no greater than ongoing revenue increases. Staff recommends one-time expenditures for equipment purchases, professional services, facility repairs and capital improvements. To ensure long-term sustainability, staff continue to utilize the Long-Range Financial Plan (L-RFP) as part of budget development, an overview of which is included in the Proposed FY 2018-19 Annual Budget General Fund section.

General Fund Operating Budget

General Fund revenues are expected to increase by \$8.5 million (4 percent) from the FY 2017-18 Adopted Budget and \$4.6 million from the current projected year-end budget (2 percent) to \$229.6 million. The increases from the FY 2017-18 Adopted Budget primarily reflect growth from property taxes (\$2.0 million), sales taxes (\$1.5 million) utility taxes (\$0.9 million), and fire contracts (\$0.3 million).

As part of its bankruptcy settlement agreement, the City agreed to compensate Assured Guaranty if actual revenues rebounded more than projected in the Plan of Adjustment. Revenues returned to the level required to trigger this provision, and in FY 2018-19, the City expects to pay \$1.8 million to Assured Guaranty. The costs related to this “contingent payment” provision were already incorporated into the L-RFP and are estimated to be a draw on General Fund resources annually for the next 34 years.

The General Fund expenditure budget is \$220.6 million and reflects a \$3.6 million increase from the FY 2017-18 Adopted Budget. This 1.6 percent increase is primarily related to increased CalPERS costs, parks maintenance operating costs and Animal Shelter costs.

The General Fund is projected to end FY 2018-19 with a positive net annual activity of approximately \$9.0 million, when combined with FY 2017-18 projections, would result in an available fund balance of approximately \$56.2 million.

General Fund Reserves

In accordance with the General Fund - Reserve and Fund Balance Policy, updates to the General Fund reserve targets are proposed as follows:

Category	Amount (millions)
Working Capital	\$36.7
Known Contingencies	\$59.8
Risk-Based	\$80.5
Total	\$177.0

With the increase in budgeted expenditures from the prior year, the Working Capital Reserve target will also increase from \$36.2 million to \$36.7 million. The Known Contingency reserve target has been reduced because of the City's purchase of the Waterfront Office Towers. However, other significant infrastructure needs have been added to the Known Contingencies list. The target for the Priority II Risk-Based Reserve in the Fiscal Sustainability Fund increased by \$70.2 million to \$80.5 million based on updated revenues and infrastructure values.

At the end of FY 2018-19, the General Fund projected available balance of \$56.2 million would first be used to fund the update Working Capital reserve level of \$36.7 million consistent with the Council's reserve policy. Per the policy, the balance will then be recommended to continue to fund the remainder of the Known Contingencies. With insufficient funding to meet the Known Contingencies reserve target, no additional resources will be available for the Risk-Based Reserves, leaving the \$5.0 million funding level established at the close of FY 2015-16 unchanged.

Citizens' Advisory Committees

The FY 2018-19 Proposed Annual Budget is also reviewed by three citizen oversight committees. On May 29, 2018, the Measure A Citizens' Advisory Committee reviewed the Measure A FY 2018-19 Proposed Budget (page C-7) along with supporting documents. The committee made no recommendations regarding the Measure A budget. The Measure W Oversight Committee reviewed the plan for use of Measure W proceeds by the Police and Fire Departments as presented in the FY 2018-19 Proposed Budget at its meeting on May 30, 2018. The committee made no recommendations regarding the proposed Measure W revenues and expenditures. The Strong Communities Advisory Committee is scheduled to review the FY 2018-19 Proposed Annual Budget on June 1, 2018 after the printing of this report. Any actions or recommendations from the Strong Communities meeting will be communicated at the public hearing.

2018-2023 Capital Improvement Plan (CIP)

The CIP is a five-year plan that lists the facility and infrastructure needs for the City. On April 12, 2018, the Planning Commission determined that the proposed 2018-2023 CIP conforms to the City of Stockton 2035 General Plan as required by Government Code Section 65401. The five-year Capital Improvement Plan (CIP) covering fiscal years 2018-19 through 2022-23 totals \$1.1 billion, including Municipal Utility projects of \$327 million, transportation projects of \$328 million, and other Citywide projects of \$468 million. The first four years of the CIP are financially constrained and reflect only projects where the City has identified funding. The fifth year of the CIP reflects \$568 million in facility and transportation projects that do not have identified funding sources in addition to \$98.2 million in projects with identified funding. The five-year CIP is a planning document that does not appropriate funds for projects. Only the \$70.3 million proposed for the first year of the CIP is appropriated from being incorporated into the City of Stockton's FY 2018-19 Annual Budget.

FY 2018-19 Fee Schedule

The FY 2018-19 Fee Schedule reflects new and proposed changes to existing fees in many City departments, including a 2 percent inflationary adjustment to all fees intended to recover the cost of providing services. Proposed new and changed fees are listed in Section I of the document, with the proposed new amounts, along with reasons for each change. Proposed new fees are proposed for

Administrative Services, Community Development, Economic Development, Library, the Municipal Utilities Department, and Parking. Proposed fee changes include revisions to Stockton Marina fees, Fire Department Plan Checks, Water and Stormwater fees, Parking bail schedules, Public Facility Fees, Library Fees, and Police Department Code Enforcement and Animal Services Fees.

Parking Authority of the City of Stockton

The Parking Authority of the City of Stockton is a public body established by the City Council in Resolution 2013-12-17-1209, pursuant to the Streets and Highways Code, to oversee the parking garages, lots, meters and enforcement activities within the boundaries of the City of Stockton CFD 2001-1 Downtown Parking District.

Revenues derived from fees paid for parking within the district and proceeds from enforcement of parking violations are pledged to first pay the 2004 Parking Bond debt service, then to fund operations and maintenance and any other obligations of the Parking Authority. Taxes assessed on property owners and businesses in the downtown parking district are also recorded in this fund and used for parking management and operations of parking facilities and programs within the district.

Due to ongoing parking meter theft, the Authority experienced a drastic reduction in parking revenues in FY 2017-18. Nearly 1,400 parking meters were stolen, resulting in an approximate \$700,000 shortfall in revenues. Significant capital investment is therefore included in the FY 2018-19 budget to purchase and install new parking technology. The Parking Authority will see minimal changes to the parking administrative and operating budgets in the proposed budget. FY 2018-19 revenues are budgeted to increase by approximately 8 percent, and expenses by 5 percent. A significant portion of the operating expense increase reflects the new state-mandated increase in the minimum wage.

Successor Agency to the former Stockton Redevelopment Agency

The Successor Agency depends on the receipt of property tax increment revenues to pay the obligations of the former Stockton Redevelopment Agency. To receive tax increment funds, the Successor Agency submits a Recognized Obligation Payment Schedule annually to an Oversight Board and the State Department of Finance. After approval by the Oversight Board, the San Joaquin County Auditor Controller's Office distributes tax increment funds to the Successor Agency. The Agency's use of tax increment is restricted by state law, and the Successor Agency does not receive excess tax increment. Excess tax increment after payment of debt and administrative costs is distributed to other taxing entities such as the City of Stockton, San Joaquin County, the State of California (for schools), and special districts.

Successor Agency revenue of \$14.5 million is expected to be sufficient for all debt and enforceable obligations in FY 2018-19. The total FY 2018-19 Successor Agency budget, including transfers and loan repayments, is \$12.9 million. As property values increase and more tax increment becomes available, there is sufficient funding for administration and loan repayments to City funds as approved by the State Department of Finance. Due to a larger amount of available revenues, the FY 2018-19 Budget includes approximately \$5.1 million in loan repayments to the General Fund, the CIP, and Community Development Block Grant, and Parking Authority funds. This compares to \$1.8 million in repayments in FY 2017-18. The ending available balance in the Administration and Project Area budgets will be retained by the San Joaquin County Auditor-Controller for distribution to other taxing entities including the City of Stockton.

Other Budget Actions

FY 2018-19 Gann Appropriation Limit

The California Constitution requires the establishment of a maximum limit for expenditures from general taxes. This requirement, commonly known as the Gann Limit, requires that the limit is recalculated and approved annually by the City Council at the beginning of each fiscal year. The Gann Limit is also indexed to specified growth factors approved by the Legislature and applied to revenue appropriations. The City's FY 2018-19 Gann Limit is \$390,274,143 while the appropriations the City is making that are subject to the Gann Limit are \$189,849,182. Therefore, the City's appropriations remain well within the Constitutional appropriations limit.

Refunding of External Debt

The FY 2018-19 Annual Budget proposes to refund one bond and multiple capital leases through inter-fund borrowing between the Workers' Compensation Internal Service Fund and the two City funds responsible for debt repayments. The Workers' Compensation Fund has cash reserves for workers whose compensation claims are projected to be paid more than ten years in the future. The refunding will use some of those reserves to pay off existing debt which carry interest rates at, or in excess of 4 percent on the remaining maturities, will save approximately \$2.0 million, and will not compromise the City's ability to pay claims.

Lease Revenue Bond Refunding - Staff recommends an interfund loan in the amount of \$8,915,000 between the Workers' Compensation Internal Service Fund and the Parking Authority Fund. The 2006 Lease Revenue Refunding Bonds Series A were issued in the amount of \$13,965,000 in March 2006. The Bonds were issued to finance the acquisition and construction of the Stewart-Eberhardt Building and the adjacent parking structure. The current source for repayment is from Parking Authority Fund revenues. If the interfund loan is approved, the Parking Authority would then make scheduled payments to the Workers' Compensation Fund at a 2 percent rate consistent with the City's historically return on investments, resulting in an annual savings of \$123,000 through FY 2031-32.

Fire Vehicle Capital Leases - Staff recommends an interfund loan in the amount of \$3,482,423 between the Workers' Compensation Internal Service Fund and the Fleet Internal Service Fund to refund three capital leases.

1. On April 17, 2007, the City Council approved the execution of a Master Equipment Lease agreement with Banc of America Leasing and Capital, LLC to provide a tax-exempt funding mechanism for designated capital projects and equipment purchases. The City authorized the purchase of an aerial fire truck and water rescue vehicle for the Fire Department amounting to \$1,000,000. This refunding is estimated to save over \$3,800 annually through FY 2022-23.
2. On May 19, 2015, the City Council authorized the purchase of three Fire Engines and one Ladder Truck partially financed by entering a purchase lease agreement with Western Alliance Bank. This action is expected to save over \$15,500 annually through FY 2025-26.
3. On February 7, 2017, the City Council authorized the purchase of two Fire Engines and one Ladder Truck, partially financed by entering into a purchase lease agreement with Western Alliance Bank. The annual savings from this refunding is estimated to be approximately

\$19,750 through FY 2026-27.

It is also recommended that a lease transaction with the Stockton Public Financing Authority be authorized to comply with Section 18 of Article XVI of the California State Constitution. The interfund loans and the associated documents need to be approved by the City Council, the Stockton Public Finance Authority, and the Parking Authority.

Area of Benefit Funds

State code allows for cities to adopt an area of benefit for the construction of public improvements which benefit surrounding development. City staff has reviewed the various established Areas of Benefit to confirm completion of improvements and assess balances. Some established Areas of Benefit were found that are more than 20 years old and had remaining funds after the completion of the improvements for which the fees were collected. Under the Stockton Municipal Code, these funds are eligible to be transferred to the General Fund. In FY 2018-19, a total of \$1.2 million is being proposed to be transferred to the General Fund.

Public Facility Fee Loan Repayments

The Public Facilities Fee (PFF) program has been in effect in Stockton since FY 1988-89. These fees are collected at the time of issuing building permits, to mitigate impacts of new development on public facilities. The revenues are used to finance the acquisition, construction, and improvement of public facilities to provide service to new development. The PFF program allows for the transfer of funds between the PFFs. However, these transfers should be treated as interfund loans, and a pre-determined repayment plan is required.

There are several recorded interfund loans that exist in the PFF funds that do not have an established plan. The loan balances were as follows on June 30, 2017:

Loan From	Loan To	Unpaid Balance
Street Improvement PFF Fund	Community Recreation Centers Fund	\$2,906,770
Street Improvement PFF Fund	Police Stations PFF Fund	\$1,248,169
Street Improvement PFF Fund	Fire Stations PFF Fund	\$589,504
Library PFF Fund	Fire Stations PFF Fund	\$1,966,866
Capital Improvement Fund	Community Recreation Center Fund	\$991,737

Staff recommends establishing a payment plan to repay these loans in a realistic timeframe. While the FY 2018-19 Proposed Annual Budget includes projected annual repayments toward the loan balances, adoption of this plan is contingent on review and approval by the Development Oversight Commission (DOC) as outlined in the Settlement Agreement between the Building Association of the Delta (BIA) and the City dated July 13, 2009. After the City presents the plan to the DOC, the plan will be brought to City Council for formal adoption.

The conditions of this proposed repayment plan are outlined below in accordance with the PFF program guidelines:

1. The loans will be settled in 20 years or earlier based on available balances.
2. Available fund balances as of June 30, 2017, will be used to make the first loan re-payment in FY 2017-18.

Fund	Available Fund Balance
Community Recreation Centers Fund	\$308,442
Police Stations PFF Fund	\$234,284
Fire Stations PFF Fund	\$703.899

3. In subsequent years, all fees and revenues collected by these three funds will be used to make the annual payments until the loans are paid off in full.
4. Police Stations PFF and Fire Stations PFF loans will incur the same rate of interest at the City's pooled interest rate.
5. Community Recreation Center PFF fund will incur interest at 1 percent flat rate due to the fund's limited capacity for repayment.
6. Revenues in the Community Recreation Center PFF are projected to be insufficient to complete the loan pay-off in 20 years. The unpaid balance on Community Recreation Center PFF fund loan will be paid off by another funding source, potentially the General Fund, at the end of 20 years (FY 2037-38).
7. The loan from the General Capital Improvement Fund be written off due to the Community Recreation Center PFF fund's lack of capacity for repayment.

The repayment plan will be reviewed annually and revised as needed through the City's annual budget process. All loan repayments will be reported through the PFF Annual Report.

Internal Auditor Contract Extension

In early 2013, Stockton contracted with Moss Adams to complete a risk assessment and internal control review. The recommendations from this work were translated into a three-year Internal Audit Plan designed to strengthen internal controls and processes for the City, as well as make improvements to priority programs and initiatives of the City Council. The City entered into a five-year contract with Moss Adams to carry out the initial Internal Audit Plan and continue to provide City Auditor services in subsequent years. The Moss Adams five-year contract expires in October 2018. The City has anticipated issuing a Request for Proposals (RFP) at the end of the term of the current internal audit contract as is the practice with external financial audit contract. Each fiscal year, the City Auditor presents an annual Internal Audit Plan to be completed by June 30, 2018. Rather than contemplate a change in internal auditor in the middle of an internal plan, in October 2018, staff recommends that Council extend the Moss Adams contract through the end of FY 2018-19. This will allow Moss Adams to complete the Internal Audit Plan for the coming fiscal year and allow staff to conduct a well-designed Request for Proposals for City Auditor Services in future years. The Proposed Resolution includes authorization for the City Manager to execute a one-year extension to

the contract with Moss Adams.

Continuation of FY 2017-18 Appropriations

Pursuant to Section 1908 of the City Charter, budget appropriations lapse at the end of each fiscal year if not expended or encumbered. With this requirement in place, projects lose funding at year-end unless Council takes action to continue the appropriation into a following fiscal year. A review of approved FY 2017-18 budgets resulted in eight recommendations to continue appropriation balances into FY 2018-19:

Description	Department	Fund	Not to Exceed Carryover Amount
Summer Youth Employment program	Non-Departmental	General Fund	\$100,000
Stockton is Home	Non-Departmental	General Fund	25,000
Audit Findings Response	Administrative Services	General Fund	40,000
Council District Project Funds	City Council	General Fund	70,000
Mayor Special Project Funds	City Council - Mayor	General Fund	22,000
Capital Purchases	Fire Department	General Fund	60,000
FirstWatch Software	Fire Department	General Fund	25,000
Fire Administration Strategic Plan	Fire Department	General Fund	50,000
TOTAL			\$392,000

FINANCIAL SUMMARY

The proposed FY 2018-19 Annual Budget appropriates expenditures of \$709,419,235 for all City funds, \$16,042,914 for the Parking Authority, and \$12,909,775 for the Successor Agency.

The complete documents of the City's Proposed FY 2018-19 Annual Budget, the Proposed 2018-2023 Capital Improvement Plan, and the Proposed FY 2018-19 Fee Schedule are available for review on the City's website www.stocktonca.gov <<http://www.stocktonca.gov>> or in the City Clerk's Office.

May 15, 2018

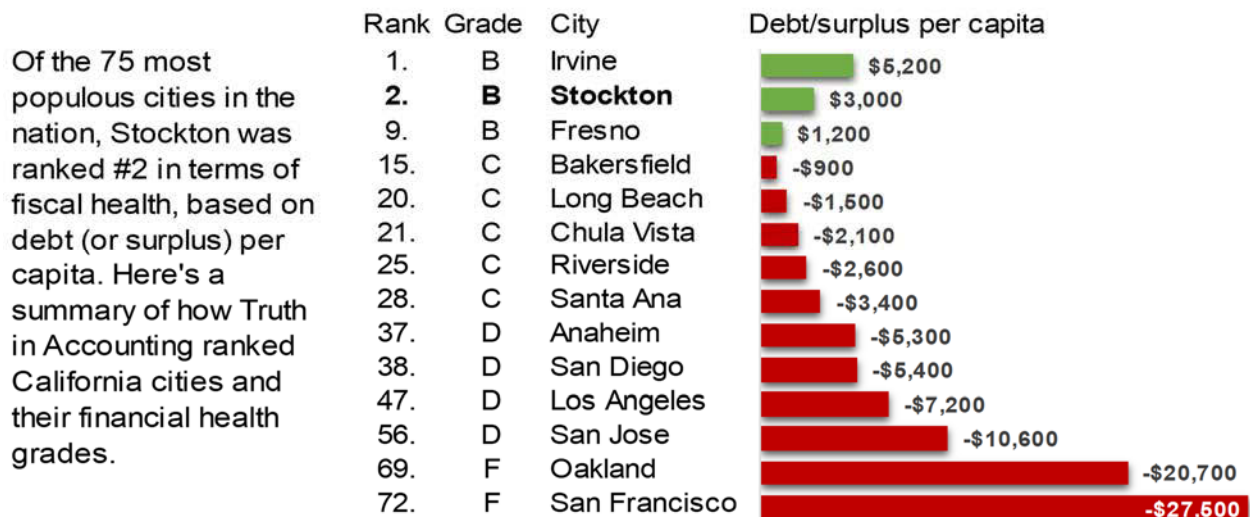

Honorable Mayor and Council:

BUDGET MESSAGE

On behalf of a dedicated team of municipal finance professionals, I am pleased to present the City of Stockton proposed budget for Fiscal Year (FY) 2018-19. As the costs of doing business continue to rise, even maintaining existing levels of service is becoming much more expensive. Beyond the legal obligations for the budget to be balanced for the proposed 12-month period, Stockton's history imposes an additional, ethical obligation for the budget to be balanced in the long-term as a testament to having learned valuable lessons from the past. In addition to the probability of a future market correction, this is particularly important because we have a series of anticipated cost increases that will cause expenditures to temporarily exceed revenues in the future. I'm pleased that this budget meets both the legal and ethical standards that have redefined our budgeting process and reflects both the lessons and frustrations of the past.

The global foresight and fiscal discipline demonstrated by the Mayor and City Council in recent years have situated the City in a strong financial position. By making so many tough spending decisions in recent years, the City has traded short-term discomfort for the long-term stability that ensures against ever returning to the unbearable consequences of myopic budgeting. The non-profit *Truth in Accounting* acknowledged these practices when it evaluated the fiscal health of the largest (by population) 75 cities in the United States and ranked Stockton as #2, beating out every major city in the country with the exception of one.

FISCAL HEALTH OF CALIFORNIA CITIES

"Financial State of the Cities: an annual report by Truth in Accounting" Truth in Accounting. www.statedatalab.org

Sforza, Teri. "Irvine is ranked the No. 1 city in the nation for good fiscal health, report says." The Orange County Register 23 January 2018, <https://www.ocregister.com/2018/01/23/ca-city-finances-many-are-broke-and-not-telling-you-about-it/>

CITY OF STOCKTON

In recognition of the constrained nature of this budget, the Mayor and City Council conducted a strategic planning session to establish priorities for the year. This process, combined with additional input collected throughout the year from public hearings, citizen boards and commissions, neighborhood meetings, and public comments provided guidance for the compilation of this document. The proposed budget is aligned with those priorities to the extent possible.

Solvency can be measured a number of ways. Budget, cash flow, and long-term solvency are measurements that received the highest priority as Stockton recovered. Service-level solvency, however, remains an issue worthy of time and attention. Finding ways to increase the level of service for Stockton citizens, while not compromising the other solvency measurements, is a constant struggle. Not only have we not recovered the workforce losses of the Great Recession (up to 43% for non-public safety workers), the population we serve has grown since that time. This places strenuous demands on front-line staff who provide basic services. This struggle to balance different types of solvency is the reason so many pressing needs remain unfunded in this proposed budget. The Mayor and Council's commitment to in-depth consideration of the long-term fiscal implications of decisions can sometimes be unpopular but is necessary if the City intends to keep its fiscal promises. Budgets are statements of values, and this budget says Stockton values fiscal discipline with measured growth in service-levels for Stockton citizens.

BUDGET OVERVIEW

The proposed expense budget totals \$709.4 million for all programs, funds, and departments of the City, which is an increase of \$83.1 million or 13% from the FY 2017-18 adopted budget. The components of the increase are \$35.9 million more for operations, \$12.1 million for debt service, and \$35.1 million more in capital purchases for projects and equipment. The \$35.9 million increase for operations is primarily due to public safety and utilities cost increases, debt, and the additional recreation and library services funding provided by the voter-approved Strong Communities initiative.

An infusion of roadway and transportation funding by federal, state and local governments and the initial phase of the wastewater plant modification project are the primary drivers of increased appropriations for capital projects. The City is taking advantage of every opportunity to maintain and improve its facilities and infrastructure and is vigilant in identifying alternatives to general purpose funding.

The table below summarizes the proposed FY 2018-19 Annual Budget by major fund or program:

City-wide Expenditure Budget All Funds	2017-18 Budget	2018-19 Proposed	Change
General Fund	\$ 217,054,403	\$ 220,615,124	\$ 3,560,721
Utilities	126,973,490	135,684,217	8,710,727
Other Community Programs	70,384,477	90,367,015	19,982,538
Capital/Street Maintenance	37,530,287	60,712,662	23,182,375
Debt Service	13,798,456	22,429,736	8,631,280
Housing Grant Funds	9,510,653	8,992,934	(517,719)
Special Districts/Special Funds	6,182,566	6,879,067	696,501
Low & Mod. Income Housing	2,673,620	3,427,242	753,622
Internal Services	142,246,030	160,311,238	18,065,208
	<u>\$ 626,353,982</u>	<u>\$ 709,419,235</u>	<u>\$ 83,065,253</u>

CITY OF STOCKTON

Citywide estimated revenues, including internal service fund charges, are \$630.9 million for FY 2018-19 for all City programs, funds and departments, which is an increase of \$25.5 million. The major operating components of that revenue increase are comprised of \$5.8 million from increased tax revenues, \$4.9 million in utility fees, \$5.6 million for street and capital project funding, and \$3.9 million for development and fire permits, fees, and inspections. With transfers between City funds, total sources of funding are \$678.5 million. The balance of funding for the FY 2018-19 expenditures of \$30.9 million is from available balances in the various city funds.

The overall health of the City's various funds is promising as progress is being made toward reserve targets, liabilities for claims are nearly fully funded, and our comprehensive financial planning efforts continue to use realistic and fiscally conservative projections. Each budget cycle is a balance between maintaining the City's financial health and addressing needs for services, equipment, and facility upkeep. While Stockton has become more financially healthy, there continue to be needs in excess of \$1.3 billion for facility and infrastructure projects throughout the City.

Citywide workload demands continue to exceed available resources. Labor and materials costs continue to rise, calls for Police and Fire service have grown, Public Works is challenged to deliver projects made possible by new transportation revenues, and the value of permits already processed by the Community Development Department this year surpassed total activity for FY 2016-17. The FY 2018-19 budget incorporates 17 additional full-time positions (5 Community Development, 6 Public Works, 4 Fire Prevention and 2 Fire Emergency Communications), fifteen of which will have no impact on the General Fund, with the remaining two fire telecommunicator positions partially funded by contracts with surrounding communities.

Pension costs are increasing in a manner consistent with what we expected and have planned for in the Long-Range Financial Plan (L-RFP). The City contracts with the CalPERS to administer retirement benefits of City employees. As the largest fund of its kind, CalPERS enlists a legion of actuaries and investment professionals to manage over \$350 billion worth of assets for 1.9 million state, county, and local government employees. The CalPERS Board of Trustees recently adopted a change in the expected investment rate of return (discount rate) because the most recent recession was deeper and more prolonged than the historical norm. The CalPERS Board reduced the assumed long-term discount rate from 7.5% to 7.0% which strengthens the fund in the long-term but raises our costs in the short-term.

To further reduce risk and improve its ability to provide promised benefits, the CalPERS Board also reduced the unfunded liability amortization period from 30 years to 20 years. The reduced period further increases the City's pension costs. To put this change into perspective, the City's unfunded liability portion of our CalPERS payment was \$25 million in FY 2017-18 and will increase to \$30 million in FY 2018-19. The payment continues to increase approximately \$5 million each year, topping out at \$60 million per year between 2030 and 2036. This unfunded liability payment is separate from the normal cost that is paid by the City and our employees. In 2018, the Mayor and City Council took action to save for these annual increases by setting aside over \$21.2 million in a separate IRS Section 115 plan to improve earnings and maintain flexibility to meet these increasing costs. This is precisely the type of prudent planning that is securing our financial future amid a changing fiscal environment.

Influencing Factors and Significant Trends

Four constraining factors significantly influence the decisions made in this budget: cost increases to existing service levels, deferred maintenance and aging equipment, revenue shifts, and the City's optimization of its resources.

Cost Increases to Existing Service Levels

The cost of doing business continues to increase and the regulatory environment in which we provide services continues to demand more resources. The City incorporated long-range cost increase assumptions in its Long-Range Financial Plan (L-RFP), which also assumes a consistent service output. While these assumptions have largely proven to be accurate, the increase in some areas have exceeded expectations. The assumptions have mitigated the impacts, but the impacts still need to be addressed.

Parks maintenance – Costs increased by approximately \$1.0 million to maintain turf, restrooms and parking lots at parks throughout the City. These areas are utilized by many residents for recreation and leisure and would be very expensive to rehabilitate if allowed to deteriorate. Traditionally, cost increases in providing a service are addressed by decreasing the level of service in order to match the cost with the available funding. In this case, the item is complicated by the passage of the Strong Communities Initiative by Stockton voters. Without the initiative, the service-level would be decreased to match available resources. Instead, the passage of the measure is creating a new General Fund burden in order to meet expectations.

Utility costs – The City provides water service to the majority of Stockton, however, a separate company provides service to a portion of the Stockton area. Water rate increases from the California Water Service Company, which provides water at several of the larger parks increased 24% in 2017 and 7% in 2018, which exceed previous long-term expectations. The parks utility budget has also been impacted by the City's utility increases in the last two years to a lesser extent.

Animal shelter – Following a period of underperforming live-release rates at the animal shelter, the San Francisco SPCA donated major resources to assist us in improving outcomes for animals while living within our financial means. The six-year partnership with the current provider of animal shelter medical services ends on June 30, 2018, and another service provider is prepared to continue the same work but at a much higher cost. Maintaining some level of improved outcomes for the animals in the absence of assistance from the San Francisco SPCA will require substantially more money. Additionally, those better outcomes correspond to increases in costs for medicine and supplies for the treatment of the animals.

General liability claims costs – As a result of exiting bankruptcy protection, more general liability claims are being filed against the City. The City has implemented procedures to manage claims, and even though many claims may not result in settlements against the City, the costs to manage and administer the increased volume are increasing significantly.

Prevailing wage law changes – Separate from the City's Community Workforce Training Agreement, contract costs for construction, maintenance, and repair services increased significantly as a result of Senate Bill 7 (SB7). Passed in 2013 by the California Legislature, SB7 requires prevailing wages be paid in many more situations than previously required. The effect on local governments has been a significant drop in the number of bidders, a significant increase in the cost of services for construction, maintenance and repair work, and delays to acquire

qualified contractors. The economic upturn also made the construction market more competitive, resulting in higher costs.

Deferred Maintenance and Aging Equipment

Deferred facility maintenance, aging equipment, and obsolete technologies are citywide concerns, whether funded by general government taxes or user fees.

Public safety facilities – Renovations are needed for existing police and fire facilities, and as a result of the City's expanded police workforce, new police facilities are desperately needed.

Wastewater facility – As previously approved by the Mayor and City Council, the Municipal Utilities Department is embarking on a multi-year energy management modification project of its wastewater control facility estimated to cost more than \$150 million. Upgrades are necessary for the City to meet stricter treated wastewater discharge limits required by the State of California. The project's size and scope may influence the wastewater utility rates in the future.

Infrastructure projects – In 2017, the State legislature passed Senate Bill 1 - The Roadway Repair and Accountability Act (SB1) for local area roadway maintenance and repair projects. Current information from the State indicates SB1 will provide between \$5 million and \$7 million per year to the City for the next ten years. This infusion constitutes a 25% increase in funding for transportation-related capital projects.

Revenue Shifts

Revenues could be affected by both local and national trends, making the City's forecasting very important for the future. Locally, recent improvements in revenue also triggered a bankruptcy settlement provision that increases a creditor payment. The payment will share the General Fund revenue increase until the settlement provision is no longer in effect. Across the nation, changes in technologies and consumer spending have eroded traditional government utility and franchise fee revenues that telephone and cable companies historically provided. Furthermore, retail establishments are experiencing an overall decline in in-store revenue as online revenues correspondingly increase leading to a reduction in local sales tax. The changing revenue environment will require increased vigilance to ensure accurate forecasting in the future.

Leverage Resources

In FY 2017-18, the City took advantage of an opportunity to invest some of its cash in an IRS Section 115 plan that maximizes earnings and maintains greater flexibility to meet future pension obligations. This separate plan designates dollars specifically for retirement while allowing flexibility in how much, when, and what (normal cost payments or unfunded liability) the City pays to CalPERS. The plan's investments are subject to different rules than the City's operating cash, which is governed by State law, and are expected to yield more than the City's traditional investments.

In FY 2018-19, another opportunity exists for the City to pay off debt owed to third parties and save approximately \$2.0 million. Internal service fund cash reserves for claims projected to be paid more than ten years in the future could be borrowed by other City funds and used to pay off existing debt. The Parking Authority and Fleet funds would then make scheduled loan payments to the Workers' Compensation internal service fund at amounts lower than they were obligated to pay the third parties based on a 2% interest rate, which is what the City's investments have historically yielded. The FY 2018-19 budget also pays off the Civic Auditorium HVAC lease one year early to save approximately \$25,000 in interest payments. These debt restructurings provide additional operating funds in FY 2018-19 and future fiscal years.

City Council's Strategic Targets, Priorities & Goals

Over the past three years, the City has made significant progress toward fulfilling a sound strategic vision. In February 2018, Council conducted a planning workshop which culminated in an updated list of strategic targets and tiered priorities for 2018. Highlighted below, and included in the department narratives, are some of the recent accomplishments as well as plans for FY 2018-19 to keep the City on the path toward achieving your goals.

Strategic Target - Fiscal Sustainability

Accomplishments

- Set \$21.2 million aside in an IRS Section 115 retirement trust for pension funding demands, and utilize higher earning potential while maintaining control and flexibility of our investments.
- Received responses for an Enterprise Resource Planning (ERP) system, which is the start of a multi-year financial and human resources system migration project.
- Bond ratings for general obligation indebtedness improved.
- Purchased a site for a future City Hall (Waterfront Office Towers) without incurring additional debt.
- Reduced the unfunded liabilities in the Workers' Compensation internal service fund faster than anticipated.

Goals

- Adopt annual budget consistent with the L-RFP.
- Leverage resources to maximize cash efficiency.
- Provide financial updates to rating agencies for review of bond ratings.
- Develop a Community Facilities District policy for new development to pay for related services.
- Develop a long-range financial plan for the Municipal Utilities Department enterprise funds.

Strategic Target - Public Safety

Accomplishments

- Received a Homeland Security Platinum Award for best crime prevention program.
- Received grant funding for firefighting equipment.
- Received an award from the U.S. Department of Justice for officer wellness.
- Replaced many pieces of capital equipment vital for safety and medical response.

Goals

- Evaluate and improve service delivery
- Implement advanced technologies
- Develop and retain safety personnel
- Strengthen community relationships

Strategic Target – Economic Development

Accomplishments

- Hosted events to address food insecurity and to connect businesses with funding, exporting and marketing resources.
- Served 4,578 homeless people with Emergency Solutions funding.
- Received and administered Federal funding for affordable housing programs and projects.
- 11% increase in downtown venue attendance.
- Received a \$600,000 brownfields grant to assist in pollution remediation.
- Rehabilitated 176 rental units and rented to low-income households.

Goals

- Provide business programs with tools for the underserved neighborhoods.

Strategic Target - Infrastructure

Accomplishments

- Successful roll-out of electronic plan checking.
- Processed 7,097 permits, an increase of 5% from the previous year.

Goals

- Coordinate the management and relocation of City offices to the Waterfront Office Towers property.
- Complete the 24-month General Plan update project.
- Complete the document digitizing project for greater efficiency in processing plans.

Recap of Major Funds

General Fund – Summary

General Fund expenditures decrease \$7.5 million in FY 2018-19 compared to FY 2017-18 year-end projections due to the one-time \$8.8 million Waterfront Office Tower purchase. Expenditures increased nearly \$3.5 million (2%) from \$217.1 million originally adopted in FY 2017-18 to \$220.6 million proposed in FY 2018-19. The most significant cost increases are related to the rise in pension costs, but increases for water to irrigate parkland, contracts for park maintenance and the service level at the animal shelter comprise \$1.4 million alone.

Operations in the General Fund in FY 2016-17 left the City with the ability to meet three of its reserve targets; \$36.2 million for working capital, \$5.0 million for risk-based events, and \$48.2 million for anticipated cost increases such as pensions, City Hall relocation, and ERP.

As shown in the table below, the General Fund is projected to end FY 2017-18 with \$47.2 million of which \$36.8 million will be allocated to the working capital reserve based on FY 2018-19 expenditures.

CITY OF STOCKTON

<u>General Fund Budget</u>	<u>FY 2017-18 Projected</u>	<u>FY 2018-19 Proposed</u>	<u>Change</u>
Beginning Available Balance	\$ 36,183,616	\$ 47,175,313	
Revenues	225,001,691	229,605,124	4,603,433
Expenditures			
Police	116,962,807	123,460,656	6,497,849
Fire	43,954,948	44,217,062	262,114
Other Programs	67,231,381	52,937,406	(14,293,975)
	228,149,136	220,615,124	(7,534,012)
Prior Year Commitments*	14,139,142	-	
Ending Available Balance	\$ 47,175,313	\$ 56,165,313	

*Adjustments include encumbrance and Council approved program carryover from prior year.

The L-RFP is modified on an on-going basis to incorporate actual results and changes in expectations or events. From using this powerful tool, staff can determine that these savings will be best utilized for one-time, rather than on-going costs because the evidence does not support the ability of the General Fund to sustain on-going increases. Large-scale demands for facilities and infrastructure looming for the General Fund include the ERP project, emergency communication infrastructure, and facility repairs and remodel projects in the police station, animal shelter, and ice rink.

General Fund – Revenues

General Fund revenues in FY 2018-19 are estimated to total \$229.6 million, an increase of \$4.6 million over the current FY 2017-18 anticipated receipts.

Sales taxes, including the Measure A transaction and use tax, make up the largest segment of General Fund revenue and are estimated to be \$79.8 million in FY 2018-19. This amount is a \$1.5 million (+2%) increase from the current year. We anticipate the highest sales tax growth rates to be in the restaurant, hotel, food, pharmacy, and fuel service station categories. Retail sales based taxes for Measures A, W, and Strong Communities are also projected to increase by 1%.

Property tax revenues continue to grow due to increases in assessed values as Stockton's economic rebound trailed many other California communities. The estimated overall growth in real and personal property tax receipts is expected to be \$2.0 million (+4%).

Utility Users Taxes (UUT) makeup 15% of General Fund revenue and are projected to experience a 3% increase or \$0.9 million from rate increases in water, electricity, and gas. Cable TV tax is expected to rebound slightly while telecommunications proceeds continue to drop. It should be noted that each sector of the UUT revenues continues to be vulnerable to market conditions and industry advancements such as conservation efforts, solar energy usage, cable video alternatives, and federal laws regulating taxation of internet usage.

Franchise Tax revenues are estimated to increase 5% from increases in rates for electricity, gas and refuse removal, whereas other City revenues for licenses, taxes, fees, and investment are expected to grow by only 1%. Business license revenue from cannabis businesses is not increasing as expected for FY 2017-18. The revised current year revenue estimate is 6% lower

CITY OF STOCKTON

than anticipated and FY 2018-19 revenues are expected to yield \$300,000 more than FY 2017-18 projections.

California wildfire mutual aid response by the Stockton Fire Department resulted in Federal and State reimbursement revenue of over \$1.0 million in the current year. No wildland fire mutual aid reimbursements are assumed in the FY 2018-19 budget, as they can fluctuate and are not readily estimable, so the City records them as they are incurred. Regular annual contracts for fire services to surrounding communities will increase 7%, which forms the basis for the change from the prior year.

General Fund – Expenditures

Proposed General Fund expenditures in FY 2018-19 are \$220.6 million. The FY 2018-19 Budget includes almost \$407,000 in one-time funding for Council priorities compared to \$2.0 million in FY 2017-18 and \$3.3 million in FY 2016-17.

In addition to operating cost increases, Departments requested an additional \$26.5 million for expanded programs and services, of which the City could afford to fund \$2.2 million. These increases are summarized below.

Public Safety

General Fund public safety expenditures are increased \$1.5 million for both items with ongoing costs and one-time expenditures.

<u>Ongoing</u>	<u>One-time</u>	<u>Description</u>
	68,336	Backup generator for emergency communications and equipment for reserve engines
	23,403	Replace emergency reporting software
	45,213	Replace breathing apparatus fill station
	100,000	Animal shelter medical services contract start up
27,500		Equipment replacement, tactical medical training
345,000		Increased cost of fiber optic access for camera systems
758,485		Animal shelter contract service & medicine cost increase
100,000		Code enforcement claims litigation
<u>8,000</u>	<u> </u>	Develop a database for the Ceasefire Program
<u>\$1,238,985</u>	<u>\$236,952</u>	Total

Economic Development

A total of \$75,000 in one-time funds is proposed for incentive programs to assist businesses with repairs and in hiring local residents.

CITY OF STOCKTON

Infrastructure

Stockton has over 625 acres of parkland to irrigate and maintain. On-going cost increases in water, power, turf maintenance and restroom janitorial services exceed \$800,000 to maintain the same level of service and preserve the urban landscape. Two other one-time items for infrastructure are \$45,000 to bring the Stewart Eberhardt Building into compliance with fuel storage regulations and \$50,000 for emergency tree removals.

Long-Range Financial Plan

The General Fund L-RFP has been updated to reflect current expectations for revenue, expenditures and economic conditions as presented to Council on May 1, 2018. The L-RFP incorporates the recently approved CalPERS rate adjustments, the impact of the Strong Communities Initiative, labor agreement terms effective through June 30, 2019, and the same long-term labor rate assumptions used during the bankruptcy process. General Fund contributions to library and recreation activities are limited to the maintenance of effort (MOE) requirement contained in the Strong Communities ordinance during the years when the tax is in effect. Because the Strong Communities revenues will be used to increase services, the financial model includes a \$14.2 million General Fund increase beginning FY 2034-35 under the assumption the transaction and use tax is not renewed.

The following graph illustrates the short and long-term General Fund available balance forecast compared to the target 17% Working Capital Reserve and a 5% warning level.

The graph reflects how the General Fund available balance is anticipated to drop below the goal for a 10-year period between 2026 and 2035 before stabilizing again at or above 17% target required for normal operations. The green bars represent reserves at June 30, 2017, which have been approved by Council and would be utilized as needs within these categories occur. More information on the L-RFP can be found in the General Fund section of this document.

Utility Funds – Summary

The Municipal Utilities Department (MUD) water, wastewater, and stormwater funds present unique long-term challenges. Maintaining and improving capital facilities is an important part of the utilities' ability to comply with regulations and operate efficiently. Capital project cost of \$22.5 million are budgeted to begin in FY 2018-19. Each utility will require close observation and careful analysis to maintain the appropriate level of fiscal health and meet debt coverage ratio requirements.

The City did not increase wastewater rates in FY 2017-18 and does not plan to increase rates in FY 2018-19. A comprehensive independent rate study will be conducted in FY 2018-19 to determine the appropriate rate structure going forward.

Water consumption rebounded 12% from the 28% decline that occurred during the drought. This increase allows the City to recommend suspending the drought surcharge in FY 2018-19. Base water rates will increase 3% on July 1, 2018, consistent with the 5-year water rate plan that Council adopted in 2016.

Stormwater fund deficits are so severe that the City has delayed important capital projects for years. The City's prior attempts to increase the rates through ballot measures have all been unsuccessful. More recently, new State regulatory requirements have also increased cost pressures on the utility. The combined need to ensure adequate storm drainage and meet heightened regulatory requirements will likely necessitate a future rate increase.

Capital Improvement Program

The FY 2018-19 budget for the Capital Improvement Program is \$70.3 million, an increase of \$33.6 million or 92% from the prior year. The increase is attributed to \$7.0 million for utility projects, \$5.3 million for recreation and library facilities funded by Strong Communities, \$5.9 million from land-based district funds, and \$7.7 million of transportation and roadway projects funded by federal, state and local resources, including \$5.4 million from SB1.

General government project appropriations of \$10.2 million reflected in the Capital section of the document include \$5.3 million from the Strong Communities Initiative to make major repairs to the aquatic, soccer and softball complexes, as well as fund a Troke Library remodel. The other general government projects include curb-gutter-sidewalk repairs in open spaces, a fire station roof replacement and repairs to the very popular interactive fountain at Weber Point Events Center.

The availability of federal and state grants for transportation and roadway projects increased markedly. Stockton applied for and was awarded nearly \$13 million to accomplish safe routes to school improvements, Miner Avenue street improvements, Weston Ranch pedestrian safety improvements, bridge rehabilitations, and other repairs to local streets. The City also benefits from increased sales tax revenue at the state and local levels by receiving appropriations specifically for transportation from the general sales taxes and the special taxes levied on gasoline and fuels. To deliver projects associated with the increased funding, the budget provides for six new positions in the Public Works Department.

The Municipal Utilities Department is continuing to budget new projects in the water utility to improve systems and treatment capacity; accommodate growth in demand; and manage water well acquisitions, rehabilitations, and abandonments. The wastewater utility is preparing for the

first phase of a large modification project of the 60-year old Regional Wastewater Control Facility, while projects in the stormwater utility remain greatly constrained due to the lack of revenue generating authority. Projects are limited to the funding available and with no fee increase since 1992, very little can occur beyond annual upkeep.

CONCLUSION

The responsible approach of delayed gratification will continue to create short-term service-delivery pressures as residents seek the higher levels of service they deserve. It will also position us to withstand the impacts of the next recession without the associated loss of jobs and services that we endured the last time. As our economy benefits from being in a mature phase of the fiscal cycle, we are taking advantage of new opportunities while, simultaneously, planning for the inevitable recession that will change the availability of those opportunities and revenues. With an eyes-wide-open approach to acknowledging and tackling upcoming fiscal challenges, we are well-prepared to maintain current service-levels and make limited strategic investments to continually improve the quality of life of Stockton residents.

Respectfully submitted,

KURT O. WILSON
CITY MANAGER

CITY COUNCIL TARGETS AND GOALS

CITY COUNCIL TARGETS AND GOALS

CITY COUNCIL 2018 STRATEGIC WORK PLAN DEVELOPED IN THE PLANNING WORKSHOP

Guiding Principles

- Follow our long term financial plan to ensure financial stability and sustainability.
- Operate in a transparent and open manner to earn and keep trust of our community.
- Create a long-term vision while focusing on meeting day-to-day challenges and taking care of the “small things” that matter to the community.
- Maintain and expand relationships with partner agencies, private sector and organizations to extend capacity in carrying out and funding priority projects.
- Support the professional development of our employees with a focus on continuous improvement in all that we do.
- Measure successes and communicate them to the community.
- Implement voter-approved decisions on taxes and other laws fully with integrity: *honor voter intent*.

The Council established guiding principles, reaffirmed its strategic targets, and updated its Tier 1 and 2 priority goals. While these are the focus of the Council, the ongoing day-to-day operations of the City must be carried out in an efficient and effective way, requiring sound systems and talented people.

CITY COUNCIL TARGETS AND GOALS

2018 Strategic Targets

2018 Strategic Targets	
<p>Public Safety: To reduce violent crime and increase public safety, the Stockton City Council adopted the Marshall Plan on Crime. Since the initiative began in 2012, overall crime in Stockton has dropped significantly. Public safety enables the City's economy and communities to thrive.</p>	<p>Fiscal Sustainability: Since filing for Protection under Chapter 9 of the federal bankruptcy code in 2012, the City has maintained its strategic focus on improving fiscal sustainability.</p>
<p>The performance indicators for public safety are:</p> <ul style="list-style-type: none"> • Serious crime rate (UCR Part 1) • Crime rate: Other crimes • Juvenile crime rate • Violence Prevention Program Statistics • Police Department turnover rate 	<p>The performance indicators for fiscal sustainability are:</p> <ul style="list-style-type: none"> • Bond rating • Reserve balance • Accuracy of budgeted expenses
<p>Economic Development: To increase core economic development and quality of life within the City, officials have been working to expand employment and investment in core local businesses and industries.</p>	<p>Infrastructure: Infrastructure maintenance and development enables the city to address deficiencies and accommodate future growth.</p>
<p>The performance indicators for economic development are:</p> <ul style="list-style-type: none"> • Jobs created • Net business license increase/decrease • Valuation of permits issued • Turnaround time in development process 	<p>The performance indicators for infrastructure are:</p> <ul style="list-style-type: none"> • Pavement condition index rating • Net investment in capital assets • Capital Improvement Program cost projections • Number of units of affordable housing built • New industrial space brought online

Tier 1 Priority Goals

The Council reached consensus on five Tier 1 priority goals, determined through dot voting and discussion, as listed in Table 1.

Table 1. Tier 1 Priority Goals

These are priorities which will receive the greatest attention from staff and Council.	
1.1	Focus on crime reduction, including group gun violence, blight reduction, and outreach for "hot zones" and "hot people."
1.2	Develop solutions that address homelessness.
1.3	Develop solutions to increase housing supply that local residents can afford.
1.4	Develop business incentives, including incentive tools for underserved neighborhoods.
1.5	Council and staff to work with education partners to help create better quality of life, increase literacy, funding scholarships for college, workforce development, and retaining employees.

CITY COUNCIL TARGETS AND GOALS

Tier 2 Priority Goals

The Council reached consensus on three Tier 2 priorities, determined through dot voting and discussion, as shown in Table 2.

Table 2. Tier 2 Priority Goals

These are projects that will be focused on as resources permit.	
2.1	Prioritize resource allocation to “hot zones” within Council districts.
2.2	Engage private employers and the business community in workforce development and job placement (including people with criminal records); develop an employment pipeline for Stockton residents to Stockton employers.
2.3	Develop our core downtown.

COMMUNITY PROFILE

STOCKTON, CA. COMMUNITY PROFILE

Government

Date of Incorporation: July 23, 1850
Form of Government: City Council/City Manager
City Charter Adopted: November 1922
Full-time Positions (authorized): 1,705
Per 1,000 population: 5.3
Sworn Police Officers (authorized): 485
Sworn Firefighters (authorized): 182

Area

Size: 64.75 square miles
Elevation: 13 feet above sea level
Stockton is the 13th largest city in California
Population: Stockton has experienced positive population growth for the last nine years, averaging 1.11% per year.

Stockton, CA Population Growth

STOCKTON, CA. COMMUNITY PROFILE

Percentage of population broken down by age group.

Stockton has a diverse population, with more than 40% of the population derived from Hispanic origin.

STOCKTON, CA. COMMUNITY PROFILE

27% of Stockton's population has a college degree, with another 23% with some college education.

Households in Stockton earned a median yearly household income of \$44,797 during 2017. Per capita personal income was \$38,770.

STOCKTON, CA. COMMUNITY PROFILE

Stockton has a labor force of 136,637 with an unemployment rate of 6.7%. Out of this labor force, 36% of jobs are comprised of the following top five career groups.

Assessed values have rebounded since the Great Recession and is currently at healthy levels.

HOUSING (OWNERSHIP VS. RENTAL)

STOCKTON, CA. COMMUNITY PROFILE

Stockton has experienced a decrease in serious crimes year over year.

FISCAL YEAR 2018-19 REVENUES

GENERAL FUND

The total General Fund revenue budget for FY 2018-19 is \$229.6 million, a 2.0% increase from FY 2017-18 year-end projections.

General Tax Revenues

The "Tax" revenue category comprises the majority of the City's General Fund revenues. This category comprises 88.7% of total estimated General Fund Revenue in FY 2018-19. The estimated FY 2018-19 tax revenue of \$203.6 million is an increase of approximately 2.0% from the estimate in the FY 2017-18 Budget.

Property Taxes are a significant source of funds for most California municipalities. Under Proposition 13, the assessed valuation of properties held by the same owner from year-to-year is adjusted each year by the lesser of 2% or the percent change in the California Consumer Price Index. Property tax revenue has increased due to the higher assessed valuation of residential and commercial properties. Property tax revenues are based, in part, on assessed valuation from new construction, resale of existing properties, and property improvement projects. The FY 2018-19 Budget predicts a \$1.7 million (3.0%) increase in overall property taxes over the FY 2017-18 projection.

Sales Taxes are the largest revenue source in the Tax category, as well as overall General Fund revenues, comprising 39.2% of the Tax category and 34.8% of all General Fund revenue. Sales tax revenue budgeted for FY 2018-19 reflects a 1.2% increase over the revised FY 2017-18 estimate and an increase of 1.9% over the original FY 2017-18 budget.

The sales tax rate in Stockton is 9.0%. For every dollar spent on taxable goods in the City, sales tax revenue is distributed as follows:

FISCAL YEAR 2018-19 REVENUES

The Utility Users Tax (UUT) revenue estimate for FY 2018-19 is 1.6% higher than the revised FY 2017-18 estimates. The City levies a 6% tax on water, electricity, gas, communications technology, and video services. Multiple factors influence UUT revenue, including population growth, utility rate fluctuations, weather conditions affecting power usage, conservation, and legislation affecting the telecommunications industry.

Franchise Taxes are projected to grow 1.7%. The City assesses Pacific Gas and Electric Company 2% of the gross receipts representing its sale of electricity and natural gas for a calendar year within the City limits for the use of City streets in the distribution of natural gas and electricity.

The City collects a Cable Television Franchise Tax from any company that provides cable television. The current fee requires each State video franchise holder to pay the City a franchise fee that is 5% of gross revenues derived from subscriptions.

Waste Haulers Franchise Taxes are collected from Waste Management and Allied Waste for residential, commercial and industrial waste collection services.

Business License Tax revenue is projected to increase by 2.9%. Included in this category are the Medical Cannabis businesses which pay an annual business license tax to the City.

Revenue from the Hotel/Motel Room Tax is estimated to increase in FY 2018-19. The City levies a 12% tax on hotel and motel rentals within the City limits. The City experienced growth in the category in over the past fiscal years due to increased occupancy demand.

Based on actual year-to-date numbers and the housing market, revenue from the Document (Real Property) Transfer Tax is estimated to increase 4% from FY 2017-18. A tax is collected every time a real property exchanges hands or is sold through public records. The documentary transfer tax rate is a 55 cents per one thousand dollars of property value transferred.

The Interest revenue category is comprised of investment proceeds and CalPERS prepayment credits.

Program Revenues

Fire Contracts revenues include payments to the City for fire protection service agreements with four Rural Fire Protection Districts. District assessment rates are initially determined each year based on a formula that factors in the Fire Department annual adopted budget and gross taxable property valuation of the City and the Districts. A true-up calculation is made at the end of each fiscal year to adjust the District's payment based on actual costs as reflected in the City's final audited financial statements.

Code Enforcement revenue includes fines and fees collected from property owners for code violations. If fines and fees are not paid, the City places a lien on the property and collects the amount due through the property tax bill.

Charges for Services includes revenues from City fees to cover all or part of the cost of providing a wide variety of City services. The main revenue sources in this category continue to be related to public safety services. The FY 2018-19 estimate for Charges for Services is

FISCAL YEAR 2018-19 REVENUES

approximately 11.6% higher than the amount projected for FY 2017-18.

Fines and Forfeitures include police vehicle, traffic, and parking citations, as well as a small amount from criminal fines. Due to State law, a large portion of fine revenues goes to the State of California and San Joaquin County.

Revenues from Other Agencies includes property taxes passed through to the City from the former Redevelopment project areas, excess tax increment from the Successor Agency, Homeowners' Property Tax Exemption, and Peace Officer Standards & Training (POST) reimbursements. The Homeowners' Property Tax Exemption allocation estimate is based on information from San Joaquin County concerning the current year allocation amount. The POST reimbursement for police officer training varies from year to year by the number of officers trained and the State reimbursement formula.

Licenses and Permits include fees such as animal licenses, certain police permits, and cannabis business application and permit fees. Revenue is projected to decrease from \$496,000 to \$491,000 for FY 2018-19, based on actual year-to-date collections, and projections made by the Police Department for police-related permits.

Sale of Fixed Assets revenue is projected to decrease to \$375,000 in FY 2018-19 from the \$583,000 projected in FY 2017-18 as a result of a reduction in the number of City surplus properties for sale.

The Misc. Other Revenues category is used to record those revenues that are miscellaneous in nature and the government fund allowance for uncollectible accounts receivable.

Interfund Reimbursements

The Indirect Cost Allocation category includes the cost recovery allocations for General Fund services provided to all other City funds. Allocations are based on annual Full Cost Allocation Plan updates.

Refunds & Reimbursements are comprised of costs incurred in the City's General Fund that are the legal responsibility of a private party or other separate entity.

Rents/Leases/Concessions are comprised mainly of property rentals including rent paid to the General Fund by other City funds. The City purchased the Waterfront Towers located at 501 and 509 West Weber Avenue during FY 2017-18 and negotiated lease agreements with the existing tenants. The lease revenue is estimated to be \$847,974 in FY 2018-19.

Loan Repayments and Transfers In

For FY 2018-19, the General Fund expects a Successor Agency loan repayment of \$147,919. Also, a transfer from the Parking Authority of \$714,547 is being processed to pay for the annual debt service payment and fees. In addition, some Areas of Benefit had remaining funds after completion of improvement. A total of \$1,158,162 from the Areas of Benefit are being proposed to be transferred to the General Fund.

FISCAL YEAR 2018-19 REVENUES

SPECIAL REVENUE FUNDS

Gas Tax Funds

Stockton receives gas taxes as specified by Sections 2104-2107 of the California Streets and Highways Code. State law specifically designates this money for the research, planning, construction, improvement, maintenance, and operation of public streets and highways. California Revenue and Taxation Code (Section 7360) sets the statewide gas tax rate at \$0.18 per gallon. This amount is static, and does not increase or decrease with the price per gallon of gasoline; rather, fluctuations in revenue are tied to the volume of fuel purchased in any given year. The City's gas tax apportionment increased 104.1% in FY 2018-19 compared to FY 2017-18 due to the passage of Senate Bill 1 (SB1), which authorized additional transportation funding to fix roads, freeways and bridges in communities across California. SB1 funding is anticipated to provide a significant positive impact on the City's street maintenance program moving forward.

Library Fund

The City-County library system receives funding from the City's General Fund, San Joaquin County property tax revenues, State library funds, service contracts, fines, and fees for service. In FY 2018-19, revenue from the County and other cities are anticipated to decrease by 3.1% from the original FY 2017-18 estimate of \$6.7 million to \$6.4 million. The County's contribution for FY 2018-19 is adjusted to utilize prior year County fund balance. The City's General Fund subsidy of \$4.0 million is expected to remain the same.

Emergency Communications Fund

The San Joaquin County Regional Fire Dispatch Authority (Authority) was established on August 17, 2015. The purpose of the Authority is to provide emergency and non-emergency dispatch and related services to the general public within the service areas of the cities of Stockton, Lodi, Manteca, Tracy and the Lathrop-Manteca Fire Protection District.

On July 1, 2016, the Authority contracted with the City to provide regional dispatch and administrative services to the Authority. The Emergency Communications Fund was created to account for the revenue and expenditures associated with the contracted dispatch and administrative services. The Authority fully reimburses the City for the costs of the services it provides.

Recreation Services Fund

The Recreation Services Fund is comprised of the recreation sections of the Community Services Department. Revenue is from fees for recreation programs such as sports and instruction, after-school and summer camp programs, rental of facilities such as community centers. Recreation Services is not expected to be self-sustaining and receives an annual subsidy from the General Fund. The General Fund subsidy of approximately \$3.4 million in FY 2018-19 is down 0.3% from the FY 2017-18 subsidy which included some one-time funding.

Solid Waste and Recycling Fund

This fund is supplied by 3.5% of the waste haulers gross rate revenues and is called the AB 939 fee because it was created to fund compliance with the recycling and diversion programs required by State legislation (AB 939). The City uses this fund for franchise oversight in addition

FISCAL YEAR 2018-19 REVENUES

to various recycling and compliance initiatives. Several new state requirements (AB 341, AB 1826, and SB 1383) will impact this fund going forward. The revenue estimates assume no growth in FY 2018-19, based on current revenue trends from waste hauler fees.

Development Services

Development Services is mostly self-sustaining with full cost recovery fees for development and General Fund support for general planning activities. Development revenues are subject to wide fluctuations based upon planning and building activity. The FY 2018-19 revenue estimates reflect the robust growth in construction and the housing market.

CDBG / Emergency Solutions Grant / HOME Funds

Community Development Block Grant (CDBG), HOME Program, and Emergency Solutions Grant are grant programs managed by the Federal Housing and Urban Development Department (HUD). The City's annual entitlement amounts are unknown at this time, so the FY 2017-18 amounts have been used for FY 2018-19. The revenue budgets for these grant programs also include funds received from repayments of housing program loans.

Measure K Fund

In 1990, San Joaquin County voters passed a one-half percent sales tax increase dedicated to transportation projects. This original sales tax increase was set to expire in 2011; however, in 2006, voters passed a 30-year extension of the sales tax increase. The San Joaquin Council of Governments (SJCOG) administers the Measure K program.

35% of the sales tax revenue is dedicated to maintenance activities and is distributed by SJCOG to its members which include San Joaquin County and cities of Stockton, Lodi, Manteca, Tracy, Ripon, Escalon, and Lathrop. Stockton receives Measure K maintenance funding on a quarterly basis and historically used this funding for maintenance, local capital projects, and to provide matching funds to leverage state and federal grant programs.

Measure W Fund

Stockton voters approved Measure W in November 2004, which authorized a one-quarter percent transaction and use tax to be used for police and fire protection services. The Measure W tax proceeds are split evenly between the Police and Fire Departments. Measure W revenues are expected to increase by 1.6% in FY 2018-19 for total receipts of \$10.6 million.

Measure M - Strong Communities Fund

Passed by Stockton voters in 2016, the Strong Communities initiative (Measure M) levies a one-quarter percent transactions and use tax for Library and Recreation services. The initiative went into effect on April 1, 2017, and will be in effect for 16 years. It is estimated to generate an average of between \$9.4 and \$11.8 million per year. In its first year, the measure has brought in revenues in line with estimates. Measure W revenues are expected to increase by 1.6% in FY 2018-19 for total receipts of \$10.6 million.

Entertainment Venues Fund

The Entertainment Venues Fund accounts for the revenues associated with the City's

FISCAL YEAR 2018-19 REVENUES

entertainment venues that are managed by SMG. The FY 2018-19 budget estimates those revenues at \$5.3 million, a 6.7% increase from the \$5.0 million projected for FY 2017-18. This fund is not expected to be self-sustaining and receives a subsidy from the General Fund. The subsidy for FY 2018-19 is estimated to be \$3.3 million, representing a 4.6% decrease compared to FY 2017-18.

ENTERPRISE FUNDS

Parking Authority Fund

The Parking Authority receives revenue from parking lots, parking meters, parking enforcement citations and district assessments. Based on fee increases and updated usage data, the City anticipates total FY 2018-19 parking revenue will be 8.4% more than FY 2017-18.

Water, Wastewater and Stormwater Utilities

The FY 2018-19 budget assumes a water rate increase of 3% based on the Proposition 218 rate study passed in June 2016. At fiscal year's end for FY 2017-18, water consumption levels are projected to be 12% higher than in FY 2016-17. The consumption trend is expected to remain constant in FY 2018-19. The revenue associated with the proposed 3% water rate increase and projected water consumption levels in FY 2018-19 will alleviate the need for the Stage 1 Drought Surcharge in FY 2018-19.

Wastewater rates will remain the same in FY 2018-19. The Wastewater Utility has commenced a comprehensive rate study to evaluate the level of revenue necessary to fully support the Utility and expects to complete the study in FY 2018-19.

The Stormwater Utility is funded by a fee that has not changed since 1992. As a result, the Stormwater Enterprise Fund has been under-funded for a number of years. The City attempted a Proposition 218 ballot measure in 2010 to approve a new Clean Water fee that would supplement the current fee. The rate study prepared determined the Utility was under-funded by approximately \$9 million a year. The ballot measure failed, and the new user fee was not imposed. The possibility of advancing another ballot measure in FY 2018-19 to provide needed funding for this Utility is currently under review.

PUBLIC FACILITY FEES FUNDS

Public Facility Fees are development fees the City established to mitigate the impacts of new development that create the need for public facilities such as libraries, parks, fire stations and transportation infrastructure.

PERMANENT / AGENCY FUNDS

Permanent and Special Purpose funds include money given to the City from individuals or corporate donors, or through program revenues, to fund a specific activity or purpose. The revenue estimates are based on historical revenue and current year estimates.

LONG-RANGE FINANCIAL PLAN

Introduction

The City of Stockton continues to focus on the City Council's strategic goals including fiscal sustainability. As part of that effort, the City maintains a comprehensive and detailed long-term forecast for the City's General Fund, referred to as the Long-Range Financial Plan (L-RFP). The L-RFP serves as a tool for sound decisions, accurate projections and financial management of the City's General Fund and supported other funds. This financial planning tool was developed during the City's bankruptcy process to demonstrate that the City could achieve financial recovery with restructured debt. The L-RFP was reviewed by the judge and creditors as the foundation for the Plan of Adjustment. The Plan of Adjustment is the City's plan, filed with the court, for emerging from bankruptcy. The L-RFP withstood challenges by the City's creditors and was approved by the bankruptcy court. Since 2012, Fiscal Sustainability has been one of the City Council's main strategic goals, and all financial actions are evaluated in the light of future implications. The L-RFP is an integral part of maintaining and evaluating the City's success in addressing this goal.

The L-RFP calculates, predicts, and offers a visual snapshot of the City's General Fund financial position for the next two decades. It is dynamic and City staff make adjustments as new revenue, or expense data becomes available. More importantly, the L-RFP is used to evaluate the impact of hypothetical changes that can cause short or long-term problems. The model enables informed decision making by showing the long-term affordability of those decisions.

The City continues to revise and update the L-RFP model for inclusion in the FY 2018-19 Annual Budget. Predicting future budgets is challenging because of the wide number of variables, including economic, demographic and policy, that can shape the City's financial future. Many of these variables are beyond the City's control and inherently unpredictable. However, it is possible to make reasonable assumptions based on historical trends, knowledge of our specific environment, and fiscal maturity.

Forecasting is predicated on reasonable and relevant assumptions. Applying these assumptions of the future to financial data at a point in time creates the L-RFP model. The model is a living tool which is updated as necessary to account for inevitable future changes. This guiding document is the backbone of the financial decision-making process for the City. Key attributes of the L-RFP are:

- Transparency - clear assumptions based on realistic rather than overly conservative or overly optimistic trends relative to revenues and expenditures.
- Fiscal Discipline - precludes wishful thinking about the City's capacity for revenue growth.
- Forward-Thinking - measuring significant financial decisions against the assumptions in the model avoids the perils of short-term focus without identifying and taking into consideration long-term impacts of policy decisions.
- Modeling "what if" scenarios - tests the long-term impact of fiscal decisions on the long-term fiscal position of the City.

Most city forecasts utilize a 5 to 10-year time span while Stockton's L-RFP measures a 20-year span. The much longer and more intricate model developed by Stockton proved its value through the toughest of tests: examination by all parties to a bankruptcy proceeding. Using the L-RFP, the City strengthened its financial condition and is now recognized as being one of the most financially-solvent cities in the country.

LONG-RANGE FINANCIAL PLAN

Long-Range Financial Plan Update

Chart 1.1 shows the current General Fund Balance and Reserve in the L-RFP incorporating the proposed FY 2018-19 Budget. The displayed years include ending balances for FY 2016-17 actuals, FY 2017-18 projections, FY 2018-19 Budget and projected revenues and expenses from FY 2019-20 through FY 2035-36.

Chart 1.1

The essence of a forecast picture is the fund balance status. Because city budgets cannot operate with fund balance deficits, when compiled the L-RFP must consistently result in a positive fund balance over time. The size of the fund balance chosen by a city can vary, but must be large enough to sustain the organization through unexpected negative conditions. The Government Finance Officers Association recommends a minimum reserve level of 17% just to support operations and account for fluctuations in cash flow. Additional reserves are recommended if conditions warrant, and examples include deferred maintenance, significant future cost increases, or anticipated changes.

As the chart indicates, the City is currently generating a General Fund balance more than the 17% goal, and will continue to exceed the goal for the next several years. This conclusion is based on the various assumptions utilized in the model. These assumptions reflect several factors, including projected economic slowdowns and the significant impact of pension costs that are predicted to be assessed by the CalPERS system. As shown above, the model predicts the City's General Fund balance will begin to decrease in FY 2018-19 and will reach its lowest level in FY 2030-31 before beginning to increase again. The fund balance is projected to be at or slightly above 5% in FY 2030-31. The 5% reserve level is the minimum acceptable level and a warning that cost cutting measures may be necessary. A slow improvement each year is projected to return the fund balance to the City Council's Working Capital goal level of 17% by FY 2035-36.

LONG-RANGE FINANCIAL PLAN

General Fund Reserves

In 2016, the City Council approved revisions to the Reserve and Fund Balance Policy – General Fund to set guidelines for funding reserves and plan for future years. The reserve policy sets a working capital reserve level at 16.67% of the annual expenditures (or 2 months of expenditures) in any given year. The policy also requires evaluation of known contingencies and future pressures, and Council has reserved funds for future priorities when implementing the policy. In prior years, Council reserved funds to achieve goals related to a new City Hall, the recruitment and retention of staff, improved financial and human capital management systems, and infrastructure maintenance. The reserves established by the policy will enable the City to maintain service levels during economic downturns.

The L-RFP incorporates the reserve policy. The current version of the L-RFP includes the working capital reserve, and establishes reserve goals for known contingencies and risk-based reserves. The known contingency reserves include funding for crucial projects and expenses the City is anticipating:

- CalPERS costs
- Employee recruitment and retention
- Replacement of legacy financial system
- Permanent City Hall (now Waterfront Office Towers)

In any given year, the City reserves funds for known contingencies after meeting the working capital goal. Although \$48.2 million was designated for the known contingency reserve at the close of FY 2016-17, the identified need for known contingencies is far greater. For example, unfunded infrastructure plans are nearly \$600 million.

The third component of the reserve policy is planning for unknown risks such as a severe economic downturn or catastrophic infrastructure failure. The City reserved approximately \$5 million for these uncertain risks. Once the known contingency target is met, the City will allocate additional funds to this portion of the reserves.

Recession Cycles

Economic downturns in the United States and the world economies are simply a fact of life that the City needs to consider in its long-term forecast. Later in this section, Chart 1.3 illustrates the history of economic slowdowns going back to the 1927 depression. From this data, the City can make some reasonable assumptions about the intervals between slowdowns. What is not as predictable is the severity and length of time of any given economic downturn.

Chart 1.2 displays twenty years of history of actual and projected revenues for the average of Stockton and 16 comparable California cities. What is clear in viewing this data is that cities do not recover immediately from economic downturns and that without expenditure reductions and the use of reserves, the line labeled “pre-recession trends” would have led all of the cities to the type of financial peril, and finally insolvency that Stockton experienced. It is also exceedingly clear that the downturn which began in approximately 2007 and 2008, now generally labeled the “the Great Recession”, still negatively affects the cities in this survey. In fact, most cities including Stockton have not seen revenues return to pre-recession levels even though it has been ten years since the recession first began. Stockton closed the gap faster than other cities during the last

LONG-RANGE FINANCIAL PLAN

four years due to the solid support of the electorate who passed two large revenue-generating ballot measures, which allowed the City to address critical services to citizens including public safety, libraries, and recreation. In general, however, there are large gaps between past expectations and current reality in all the cities surveyed.

Chart 1.2

Using the history of economic downturn data displayed in Chart 1.3, recessions have occurred in the United States on an average of every 5.7 years since 1933 and every 6.6 years since 1961. The L-RFP assumes recessions every five years starting in FY 2019-20, with an associated 5% reduction in most revenue categories. As to the severity and time lag in revenue recovery, the model assumes the City to recover 90% of the past reduction in revenue within three years.

Chart 1.3

LONG-RANGE FINANCIAL PLAN

General Fund Revenue vs. Expenses

As illustrated in Chart 1.4, General Fund expenditures are projected to exceed General Fund revenues for seven years, beginning in FY 2019-20 and continuing until FY 2026-27. For the remaining years of the forecast, revenues are projected to meet or exceed estimated expenses. The largest gap between revenues and expenditures is expected in FY 2024-25 when the L-RFP anticipates an imbalance of approximately \$12 million. The primary cause of this imbalance is anticipated increases in retirement liability costs as CalPERS implements its multi-year strategy to close the current unfunded liability gap and establish a set of actuarial assumptions that are designed to keep the pension system in a long-term stable and sustainable position. It is a necessary but painful fact that implementing this strategy can only be done by increasing the costs paid by the governmental organizations who comprise the pension system. CalPERS is doing all it can to minimize and stretch out the cost increases to lessen the financial strain on member organizations. In fact, there are critics of CalPERS that believe the changes are not being made as fast as necessary to keep the system from falling farther into unfunded liability levels.

The value of the L-RFP is that it enables the City to model the impact of significant financial and economic changes and City decisions on the fund balance and reserve over time. Based on the assumptions applied and illustrated in the General Fund Balance and Reserve graph (Chart 1.1), the City has reached a position where its General Fund balance and reserves can adequately withstand the coming cost increases. The City demonstrates its commitment to being fiscally sustainable by keeping its reserves levels above the 5% warning level at all times.

LONG-RANGE FINANCIAL PLAN

Revenues

General revenue assumptions included in the model are:

- Property tax growth rates: 4.2% plus some new construction
- Sales tax growth rates: 2.3%
- Utility users tax growth rates: ranges from -1.0% to 2.0%
- Other revenue growth rates: 1.5% to 2.0%
- Investment earnings of 1.5%
- Assumes continuation of the Measure A sales tax
- Assumes the Strong Communities sales tax will expire in FY 2032-33
- Assumes a revenue decline due to recession every five years

The following charts and discussion are intended to illustrate the assumed status of the General Fund's top three major revenue sources.

Sales Tax

The General Fund's largest funding source is sales and transactions taxes. The FY 2018-19 Annual Budget assumes sales tax proceeds to be approximately \$79.8 million and constitute 35% of total General Fund revenue. As can be seen in Chart 1.5, a review of actual and projected sales taxes when compared to a trend calculation of the actual collections seen from FY 1999-2000 through FY 2016-17 shows the City recovered from the significant revenue dip suffered during the Great Recession. This recovery reflects a significant increase of approximately \$31 million gained through the passage of Measure A and is projected to significantly exceed the old trend line for the duration of the forecast. The model also assumes that Measure A will remain intact through the entire period of the forecast. The assumptions used in the sales tax forecast include the first three years of growth projections from the City's sales tax consultant and an assumption of 2.3% growth for the subsequent years.

LONG-RANGE FINANCIAL PLAN

Property Tax

The second largest source of General Fund revenue is property tax. The FY 2017-18 Annual Budget assumes property tax collections of approximately \$55.6 million, which is 25% of General Fund revenue. Chart 1.6 compares forecasted growth against the same FY 2000-17 period used for the sales tax chart (Chart 1.5) and indicates growth for the period of the L-RFP will exceed the collection trend. The assumption used is for property tax growth include the first three years of growth projections from the City's property tax consultant and increases of approximately 4.2% annually including growth from new construction.

Chart 1.6

Utility Users Tax

Utility Users Tax (UUT) proceeds (see Chart 1.7) are the third largest General Fund revenue source. The FY 2017-18 Annual Budget assumes the City will receive approximately \$34.3 million in proceeds from this tax, which constitutes 16% of the General Fund. Presumed out year growth rates for the four taxed utilities are: Water 2% annually, Energy (gas and electricity) 2% annually, Cable 0.5% annually, and Telecommunications negative 1% annually.

Chart 1.7

LONG-RANGE FINANCIAL PLAN

Expenses

General expenditure assumptions included in the model are:

- No service increases
- No part-time or new position growth
- No growth in capital improvement funding
- Employee compensation increases (includes health contribution) based on current employee agreements and 2% after that
- CalPERS discount rate of 7.375% in 2018-19, 7.25% in 2019-20, and 7% thereafter
- Other expenditure growth at 2%
- Resources available above reserve levels are spent on one-time needs

The City's primary expenses are employee costs, which are approximately 70% of total General Fund expenses. In addition to the L-RFP's assumed 2% compensation increases, the model assumes the following employee related cost factors:

- Merit Increases – an average of 0.25% annually
- Vacancy rates – a five year phased down decrease from current 5% rate to an annual average of 3%
- Health benefits increases – 2% annually
- Employee pension costs – based on actuarial reports (see pension section below)

All other general expenses are also projected to increase at a 2% annual growth, except the annual capital improvement contribution of \$1.1 million and the annual contingency reserve which the L-RFP holds at \$2 million annually with no increases.

The L-RFP also incorporates General Fund debt obligations including a settlement agreement that provides a revenue contingent payment to one of the City's bankruptcy creditors. These payments vary depending on projected revenues.

The General Fund also supports several programs whose finances are tracked outside the City's General Fund. The City broadly classifies these programs into the following categories:

1. Program Support – Libraries, Recreation, and Venues

The General Fund supports the Library and Recreation Funds with approximately \$7.4 million annually. The L-RFP holds the subsidy at this level during the 16-year life of the Strong Communities initiative (Measure M). Beyond this point, the L-RFP projects that the loss of the Measure M revenue will result in the need to replace it with General Fund support for the Library and Recreation Funds in the approximate amount of \$14.2 million annually.

The Golf Course Fund continues to require a General Fund transfer since revenues do not cover the costs to operate and maintain the courses. The L-RFP presumes that golf revenues will continue to decline and that some unavoidable repairs will need to be

LONG-RANGE FINANCIAL PLAN

performed, increasing the subsidy to that fund from the current \$700,000 to approximately \$1 million per year in the future years.

The General Fund also continues to support venues like the Stockton Arena, Ballpark, Bob Hope Theatre, Marina and Ice Arena. These venues, due to new contracts and improved management, are not creating higher demands on the General Fund. The L- RFP continues to fund these contracts at the current subsidy level (approximately \$3.5 million annually) with approximately 2% annual increases in the future years.

2. *Program Support - Public Safety*

The model assumes that the cost of the 49 Police and Fire positions currently funded by the Measure W transaction and use tax will exceed the available tax resources in future years. As a result, the model assumes that a General Fund subsidy of approximately \$8.3 million over 14 years will be required. The model also assumes that the General Fund continues to fund grant-funded Police sworn positions upon grant expiration.

3. *Program Support – Other*

Other items supported by the General Fund include annual subsidies to the Development Services fund at \$925,000, Capital Improvement Plan at \$1.1 million, and Grant Match at \$250,000.

Pension Costs

Some of the City's largest General Fund cost increases over the next several years will come from the actions being implemented by the CalPERS as it attempts to eliminate its unfunded liability and establish actuarial assumptions that better reflect current reality. Some changes, such as a phased-in lowering of the assumed discount rate and changes to actuarial life expectancy assumptions are already underway. Annual rate increases are included in the model through 2023 due to CalPERS lowering its discount rate from the current 7.5% to 7% over a seven-year period. Amortization assessments are intended to lower and eventually eliminate the current unfunded liability. In the model, these assessments are evident in the 2030s and 2040s, and after the unfunded liability is paid off, only the City's normal costs remain. These additional costs will be slightly offset (although will grow over time) with PEPRAs savings as new employees receiving lower benefits are added to City retirement plans.

One significant risk that all CalPERS agencies will need to assess is that the CalPERS Board could reduce the discount rate below the planned 7%. There are more than a few advocates and actuarial experts who believe the CalPERS needs to reduce the rate to 6%. A reduction of this size would significantly impact the costs assessed to the City and other member agencies. Included below is a depiction of the impact on rates for both the Safety and Miscellaneous Plans under the planned reduction to 7% and potential decreases to 6.5% or 6%. As can be seen, at 6%, the rates as a percentage of payroll could double from that currently being experienced. In 2028, the City would have to contribute nearly \$1 to CalPERS for every \$1 paid to safety employees.

LONG-RANGE FINANCIAL PLAN

Chart 1.8a

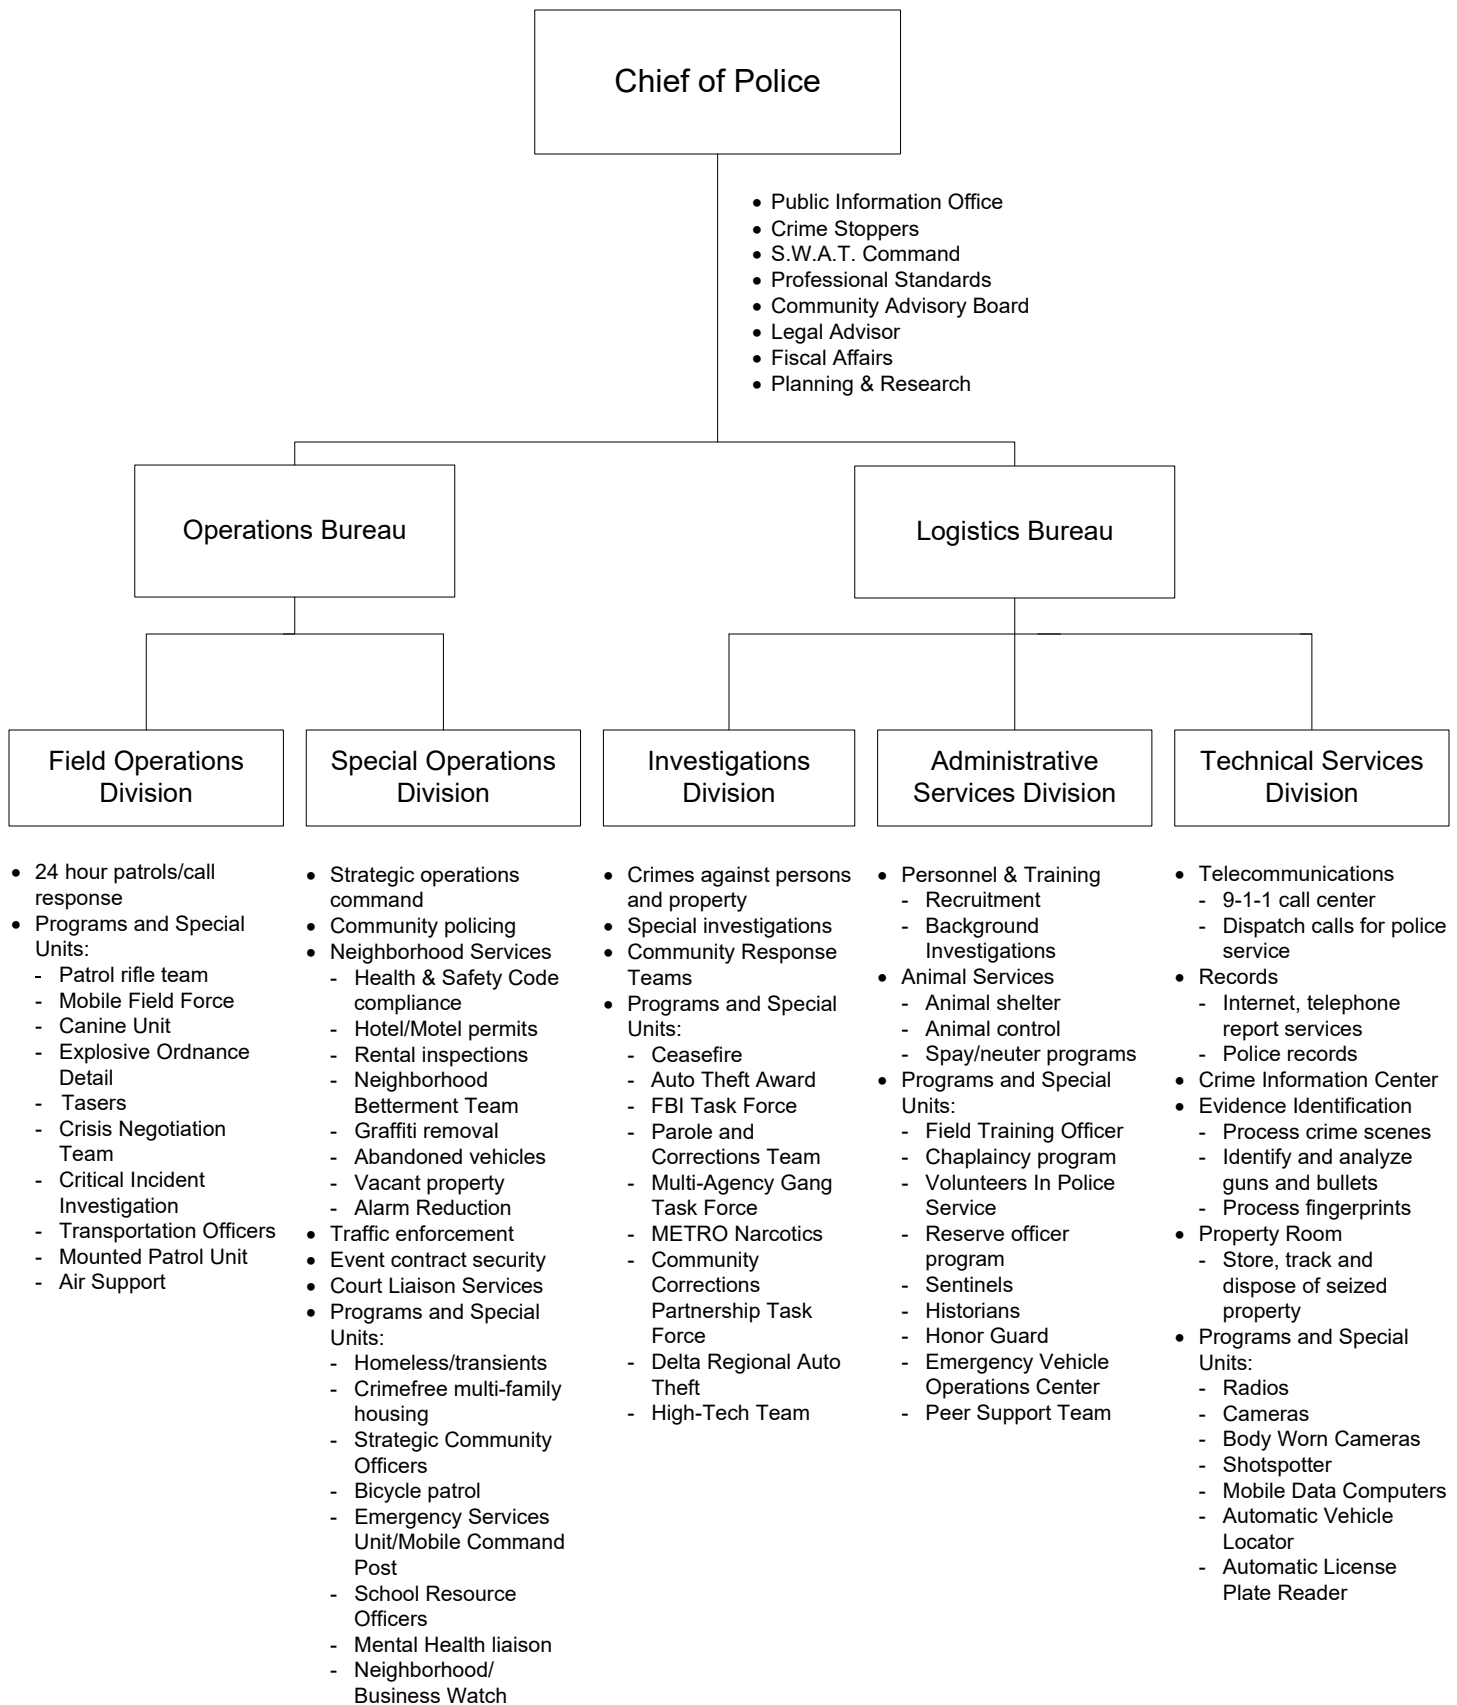

Chart 1.8b

Looking Forward

The City's prudent financial practices and utilization of the L-RFP provided stability to the services delivered to the public and will protect those services against future downturns. Continuing to update the model and maintaining realistic assumptions about future growth are essential to keeping the L-RFP a reliable decision-making tool. The model has been an important factor in the many positive financial outcomes in recent years including the buildup of reserves for known cost pressures and the cash purchase of Waterfront Office Towers, high rankings in various financial publications, and the restructuring of available resources for long-term savings. These encouraging results reinforce the City's commitment to fiscal sustainability and consistent long-term financial forecasting.

TAB 4 POLICE

POLICE DEPARTMENT

POLICE DEPARTMENT

MISSION STATEMENT

To work in partnership with our community, to build and maintain relationships founded on trust and mutual respect, while reducing crime and improving the quality of life.

Budget at a Glance:

Total Revenues	\$14,264,159
Total Expenditures	\$130,394,165
Total Net Cost	\$116,130,006
Total Staff	711

DEPARTMENT DESCRIPTION

The Chief of Police is appointed by the City Manager and under state law, is responsible for the delivery of law enforcement and related emergency services within the City of Stockton. The Chief of Police provides direction over all Police operations including:

- Field Operations Division, commonly known as Patrol.
- Special Operations Division, including Neighborhood Services and Neighborhood Betterment Team, Traffic and Events, and Strategic Operations sections.
- Investigations Division, including Crimes Against Persons and Property, Special Investigations and Ceasefire sections as well as the Community Response Team.
- Technical Services Division, including Telecommunications, Records Management, Evidence/Identification, Property Room and Crime Analysis sections.
- Administrative Services Division, including Personnel, Training, and Animal Services sections.
- Professional Standards section; Fiscal Affairs and Planning section; and Public Information Office.

There are also programs and specialized units that operate under the Divisions such as Special Weapons and Tactics (SWAT), Crisis Negotiations, Explosive Ordnance Disposal, Mobile Field Force, and the Canine Unit, among others.

DEPARTMENT STRATEGIC WORK PLAN

The Stockton Police Department has continued to focus its activities on meeting the goals outlined in its FY 2017-2019 Three-Year Strategic Plan. The plan components, which includes the above Mission Statement, discussion of the Department's policing philosophy, core values, and identified goals and objectives, are intended to focus the Department's work over the term of the plan. Each of the Strategic Plan goals is tied to the City Council's Priority Goals for increasing officer diversity, improving customer service and response times, increasing the number of officers, and further implementation of the Marshall Plan.

The policing philosophy of the Department is founded upon the pillars of Smarter Policing and Principled Policing. Smarter Policing refers to intelligence-led policing, an approach which includes evidence-based, data-driven, strategic, and innovative use of technology to inform and support real-time-policing and improved service delivery. Principled Policing refers to the underlying ethics, values, and principles of accountability, transparency, training, evaluation, listening, dialogue, community outreach and relationship-based problem solving which guide the actions of the Department.

POLICE DEPARTMENT

The Department's core values include integrity, professionalism, sensitivity, cooperation, and innovation. The core values define who we are and what we as an organization hold as paramount. Combined, the mission statement, policing philosophy, and core values establish a strong foundation for accomplishing the following four goals over the life of the plan:

1. Reduce crime and blight. A primary focus of the Department's resources and manpower is to reduce violent crime, property crime, traffic collisions, and other quality of life impacts such as neighborhood blight. The framework to achieve this goal remains the "Four P's" of Partnership, Prediction, Prevention, and Pursuit.

2. Increase trust between the community and police. Identifying trust as a key component to a sustainable and collaborative approach to improving public safety in Stockton has led the Department to implement several innovative strategies for increasing trust between the community and police. Building upon these initial efforts with the assistance of the National Initiative research effort, procedural justice and implicit bias training, and participating at local, regional, state and national levels of this important dialog furthers Stockton's ability to increase trust.

3. Recruit and hire a qualified diverse workforce. Rebuilding the Police Department while maintaining a commitment to high quality standards for hiring and by valuing all forms of diversity, including ethnicity, gender, culture, education, and experience will ensure Stockton builds a department that is representative of the community it serves. The Department is looking for those who see police service as a calling and not just an occupation. The Department is also focused on a long term recruitment strategy which includes supporting the Public Safety Academy and increasing participation in our Cadet and Sentinel volunteer programs.

4. Employ staff that are highly trained, knowledgeable and prepared. The Department's extensive turnover and hiring of new staff over the last few years requires a renewed focus on training, both in-house and industry specific. Police Officers have to meet specific mandates related to training to maintain Police Officer Standards and Training certification through the State. This goal includes implementation of a comprehensive training plan by developing professional training staff, a succession and career plan, and providing adequate training facilities and equipment for staff.

PRIOR YEAR ACCOMPLISHMENTS

Highlights of the accomplishments in FY 2017-18 include:

- Goal One – Reduce crime and blight:
 - Reinstated the Mounted Patrol Unit to provide enhanced patrol during special events.
 - Neighborhood Blitz Team completed work in all six of the Police Reporting Districts. Future work will be done under the Neighborhood Betterment Team.
- Goal Two – Increase trust between the community and police:
 - Deployment of over 350 upgraded body-worn cameras and the successful migration of over 100 terabytes of historic data.
 - Led by the Department's Special Operations Division, Stockton's participation in National Night Out ranked 9th in the nation out of cities with populations over 300,000.

POLICE DEPARTMENT

- The Virtual Crime Center received the 2017 ASTORS Homeland Security Platinum Award for Best Crime Prevention Program.
- Completed upgrades to the Animal Shelter's electrical panel, allowing for the installation of a donated portable x-ray machine and subsequent reduction in operating costs.
- Goal Three – Recruit and hire a qualified diverse workforce:
 - Hiring goals were achieved for the third year in a row and improvements to diversity numbers in underrepresented categories were made.
- Goal Four – Employ staff that are highly trained, knowledgeable and prepared:
 - Completion of the upgrade to the Computer Aided Dispatch/Records Management System and received the 2017 Best in California award for Demonstrated Excellence in Project Management from the Center for Digital Government.
 - The Department's Wellness Unit was recognized as the national winner for the category of Officer Wellness by the Department of Justice, Bureau of Justice Assistance, and the National Law Enforcement Officers Memorial Fund as part of the Destination Zero Program.
 - The expansion of the Stewart Eberhardt Building's east side of the fourth floor was completed which freed up space at the Operations facility to improve locker room space and accommodate increased staff.

KEY CONSIDERATIONS

The Police Department FY 2018-19 Budget includes funding for 711 full-time staff, part-time staffing, academy costs for new hires, and funds to cover the cost of enhanced recruiting and training strategies. The key considerations fulfill the Council's strategic work plan by increasing officer diversity, improving customer service and response times, increasing the number of officers, and further implementation of the Marshall Plan. Two full-time non-sworn positions funded with grant dollars in FY 2017-18 will be eliminated as the grants are closed out. A third grant funded police officer position will be absorbed in the General Fund part way through FY 2018-19. Highlights of the General Fund budget include:

- The employee services budget has increased reflecting progress made in filling authorized police positions, an increase in pension rates for safety employees, and reduced grant dollars for staffing. Police vacancy savings are budgeted at five percent across the board with no additional savings budgeted for Marshall Plan positions.
- Funding for part-time staff has been retained in key areas to enhance police services, improve revenue collections, and increase hiring capacity.
- Police service contracts with two school districts, the Housing Authority of San Joaquin and San Joaquin Regional Transit District continue, reflecting approximately \$1 million in both revenues and employee expenses.
- The budget increased to fund costs associated with expansion of the body worn cameras to other field units such as Neighborhood Services and Investigations, service costs for the fiber optic network connectivity critical to the Department's camera system and a contract with the City's new Animal Services partner; the Animal Protection League. Other Expenses increased to support a higher level of ballistic safety vest for sworn officers, fund medical needs, food and other basic items to ensure adequate care of animals at the Animal Shelter.

See summary of Public Safety Measure A funded Marshall Plan expenditures on page C-7.

POLICE DEPARTMENT

MEASURE W FUND (081)

PROGRAM DESCRIPTION

Stockton voters approved Measure W in November 2004, which authorized a one-quarter percent Transaction and Use Tax to provide public safety services with the proceeds being split equally between the Police and Fire Departments. The program guidelines include an Economic Uncertainty fund provision to be funded at 25% of annually-budgeted revenues. This reserve is currently fully funded.

The Police Department uses 50% of the Measure W tax proceeds. These funds primarily pay for Police Officer salaries and benefits. Some Measure W dollars have also been used to purchase equipment, vehicles, and radios for Measure W-funded Police Officers.

KEY CONSIDERATIONS

- Measure W will continue to pay for salaries, benefits, and equipment for 24 Police Officer positions in FY 2018-19 assigned to Field Operations Division for street patrol.
- Measure W proceeds are anticipated to increase 2% from prior year projections.
- The State of California charges a quarterly administration fee for services associated with the collection of the Measure W Public Safety Sales Tax. A sales tax audit contract provides auditing/compliance services to ensure sales tax is properly collected and distributed.
- Revenues continue to be monitored closely to ensure they are sufficient to cover expenditures and maintain an adequate fund balance.
- In FY 2018-19 the recommended Economic Uncertainty reserve would be approximately \$1,320,000. The overall budget projection indicate that the balance in the Measure W Economic Uncertainty Fund will meet or exceed the program guidelines.

POLICE DEPARTMENT

ASSET SEIZURE FUND (023)

PROGRAM DESCRIPTION

The City established asset seizure accounts to allow the Police Department to properly manage the proceeds of the sale of seized property under State and Federal forfeiture laws.

There are three sources of asset seizure funding. One source is properties from cases adjudicated by the San Joaquin County District Attorney's Office. The other two sources are from cases adjudicated by the Federal government. Each agency allocates a share of the proceeds from their case to the City. State and Federal law restricts use of these funds for expenditures that enhance law enforcement and drug/crime prevention and cannot be used to supplant existing General Fund programs or operations.

To comply with state and federal asset seizure laws, the Police Department established the following priority and program expenditures for asset forfeiture proceeds:

- SWAT Team surveillance and safety equipment, and related services and supplies.
- Explosive Ordnance Detail specialized equipment unique to this unit that does not depend on internal service fund support for replacement.
- Firearms Training System equipment for computer training program scenarios, equipment, and accessories used to train sworn staff in use-of-force decision making to improve officer and citizen safety and reduce liability to the City.

KEY CONSIDERATIONS

Federal seizure amounts remained low while local seizure amounts increased compared to recent years. In FY 2017-18, the Department purchased ammunition and SWAT equipment such as protective vests and sniper rifle replacement.

Revenues are not expected to vary from FY 2017-18 based on actual amounts received in prior years and known activity throughout the year. Projected staffing increases in the Special Investigations section should contribute to a higher volume of asset seizure cases; however, payments are largely tied to court proceedings and can take several years to materialize.

The level of safety equipment and supply purchases is in line with the availability of cash in the fund. Planned purchases in FY 2018-19 include ammunition and equipment for the SWAT Team, Explosive Ordnance Disposal and Special Investigations, as well as some replacement of specialized investigative software.

POLICE DEPARTMENT

STATE CITIZENS OPTIONS FOR PUBLIC SAFETY FUND (024)

PROGRAM DESCRIPTION

The State of California established the Citizens Options for Public Safety program to assist in funding frontline law enforcement activities. The Department uses these funds for equipment and public safety programs. During the years of fiscal uncertainty, the City began funding Community Service Officer personnel from this source.

KEY CONSIDERATIONS

- The Police Department purchased various equipment, materials, and supplies to support surveillance, communications, safety and specialized investigations in FY 2017-18.
- The FY 2017-18 equipment expenses included the partial funding of a replacement bomb robot to be used on incidents requiring Explosive Ordnance Detail response.
- Revenue projections remain stable as staff continues to monitor any available information from the State of California on potential changes to funding allocations.
- Two Community Service Officer positions remain funded through this source in FY 2018-19.
- Funds will be used to purchase equipment and supplies that are one-time in nature and do not require ongoing financial support. Purchases slated for this fiscal year include rifles, hand guns, mobile command post equipment, firing range improvements, and various items for special teams. Additionally, undercover vehicles and maintenance of the automated vehicle locator equipment will be purchased.

POLICE DEPARTMENT

SPECIAL REVENUE GRANTS FUND (025)

PROGRAM DESCRIPTION

Police Department activities supported by special revenues including Federal and State Grants, donations, and Supplemental Police Services event contracts are tracked in this fund. The separate tracking provides accountability for restricted sources of revenue. Major programs currently active in this fund include: the Community Corrections Partnership Taskforce, 2014 Federal COPS Hiring Grant and Police Supplemental Services Contracts.

KEY CONSIDERATIONS

Expenditures in this fund vary year to year based on the grants awarded and the associated performance periods.

New grants awarded in FY 2017-18 include:

- State of California Department of Alcoholic Beverage Control – funding for staff costs, training and equipment dedicated to reduction and eradication of alcohol-related crimes including the sale of alcohol to minors.
- Office of Traffic Safety's DUI Enforcement, Distracted Driving, and Checkpoints – funding for various overtime missions and equipment to improve traffic safety.
- United States Department of Justice Office of Community Oriented Policing, Community Police Development – funding for the Safety, Health, Resilience, Endurance, and Development program costs including contractual services and supplies.
- State of California Department of Boating and Waterways- funding for Surrendered and Abandoned Vessel Exchange contract services for the abatement, removal, and disposal of wrecked and abandoned vessels.
- PetSmart Charities, Inc. – funding for items associated with spaying and neutering adoptable animals at the Stockton Animal Shelter. Additional funding provides for medical costs, adoption preparation, and the purchase of a pet transport vehicle to relocate shelter pets for adoption.

The Community Corrections Partnership Taskforce, funded through San Joaquin County AB 109 funds and residual State funds from prior year allocations to local law enforcement, proactively addresses violent crimes and early-release offenders. Funds cover salaries, overtime, and equipment for Task Force. Participation on the Task Force is from Police Departments of Stockton, Lodi, and Manteca, and Tracy, as well as the San Joaquin County Sheriff. In FY 2018-19, the funds will continue to support the full cost of the core team. The special revenue fund balance cannot continue to support expanded operations funded in prior years due to the elimination of state revenue allocations in FY 2016-17. As a result, the Crime Analyst position supporting the Task Force was eliminated.

Partial funding of 15 entry-level Police Officer positions continues with the 2014 Federal COPS Hiring Grant. The use of these funds coincides with the fulfillment of the 120 Police Officers in support of the Marshall Plan.

POLICE DEPARTMENT

The State of California Board of State and Community Corrections Strengthening Grant funding supports the evidence-based ceasefire initiative. The Police Department continues to partner with community organizations to strengthen the relationship with the community and reduce shootings and recidivism among those at highest risk of violence. The grant ended in FY 2017-18, eliminating the provisional Administrative Analyst II position which provided grant support.

Firearms Reduction Consortium funding from Edward J. Byrne Memorial Justice Assistance provides upgrades for the Integrated Ballistics Identification System, a full-time Firearms Examiner position, training, and overtime for Police, Sheriff, and Probation to conduct firearms missions. The grant is expected to provide continued funding, however uncertainty with the Federal budget has delayed FY 2017-18 funding agreements and may also impact FY 2018-19 activity.

The California Office of Emergency Services Law Enforcement Specialized Unit Program provides funding for a collaborative program between the Stockton Police Department and the Women's Center Youth & Family Services of San Joaquin County. The focus of these funds is on investigating sexual assault crimes and providing victim assistance. The grant ends mid FY 2018-19 and the Police Officer assigned will be funded from the General Fund for the remainder of the year.

Several local businesses and organizations requested additional police services for special events via Supplemental Services Contracts. During FY 2017-18, six organizations are estimated to pay approximately \$110,000 for these services. Contract services anticipated in the FY 2018-19 budget include:

- Stockton Ports – Thursday, Friday, and Saturday home baseball games
- High School Football – Bear Creek, Lincoln, Lodi, and McNair
- Stone Brothers, Sherwood Mall and Weberstown Mall – Holiday shopping
- SMG Stockton Arena and the Bob Hope Theatre – Hockey, concerts, and other community events as needed.
- San Joaquin County Fairgrounds – special events

POLICE DEPARTMENT

POLICE SPECIAL REVENUE FUND (645)

PROGRAM DESCRIPTION

The Police Department maintains a variety of special revenue programs in this fund. These programs historically provided accounting and management support for activities that are specific to the funding sources, but do not require the same level of oversight as a grant or contract.

Revenues in this fund are derived from donations or charges for services from programs. The Geraldine Schmidt Trust was established to provide a direct benefit to the Stockton Animal Shelter and accounts for the majority of the Police Special Revenue fund balance.

KEY CONSIDERATIONS

Donations for the Volunteers in Police Service, miscellaneous equipment, and community events increased in FY 2017-18 compared to prior years.

Funds from the Geraldine Schmidt Trust as well as additional grants and donations are allocated for capital improvements at the Animal Shelter. With an upgrade completed to the electrical panel and the installation of a portable x-ray machine, injured animals are now triaged on-site, which has contributed to a faster recovery process for countless animals.

Staff continue to review available balances and expend funds for their intended purposes including community events, equipment, and special programs such as Cadets, Sentinels, and Volunteers in Police Service.

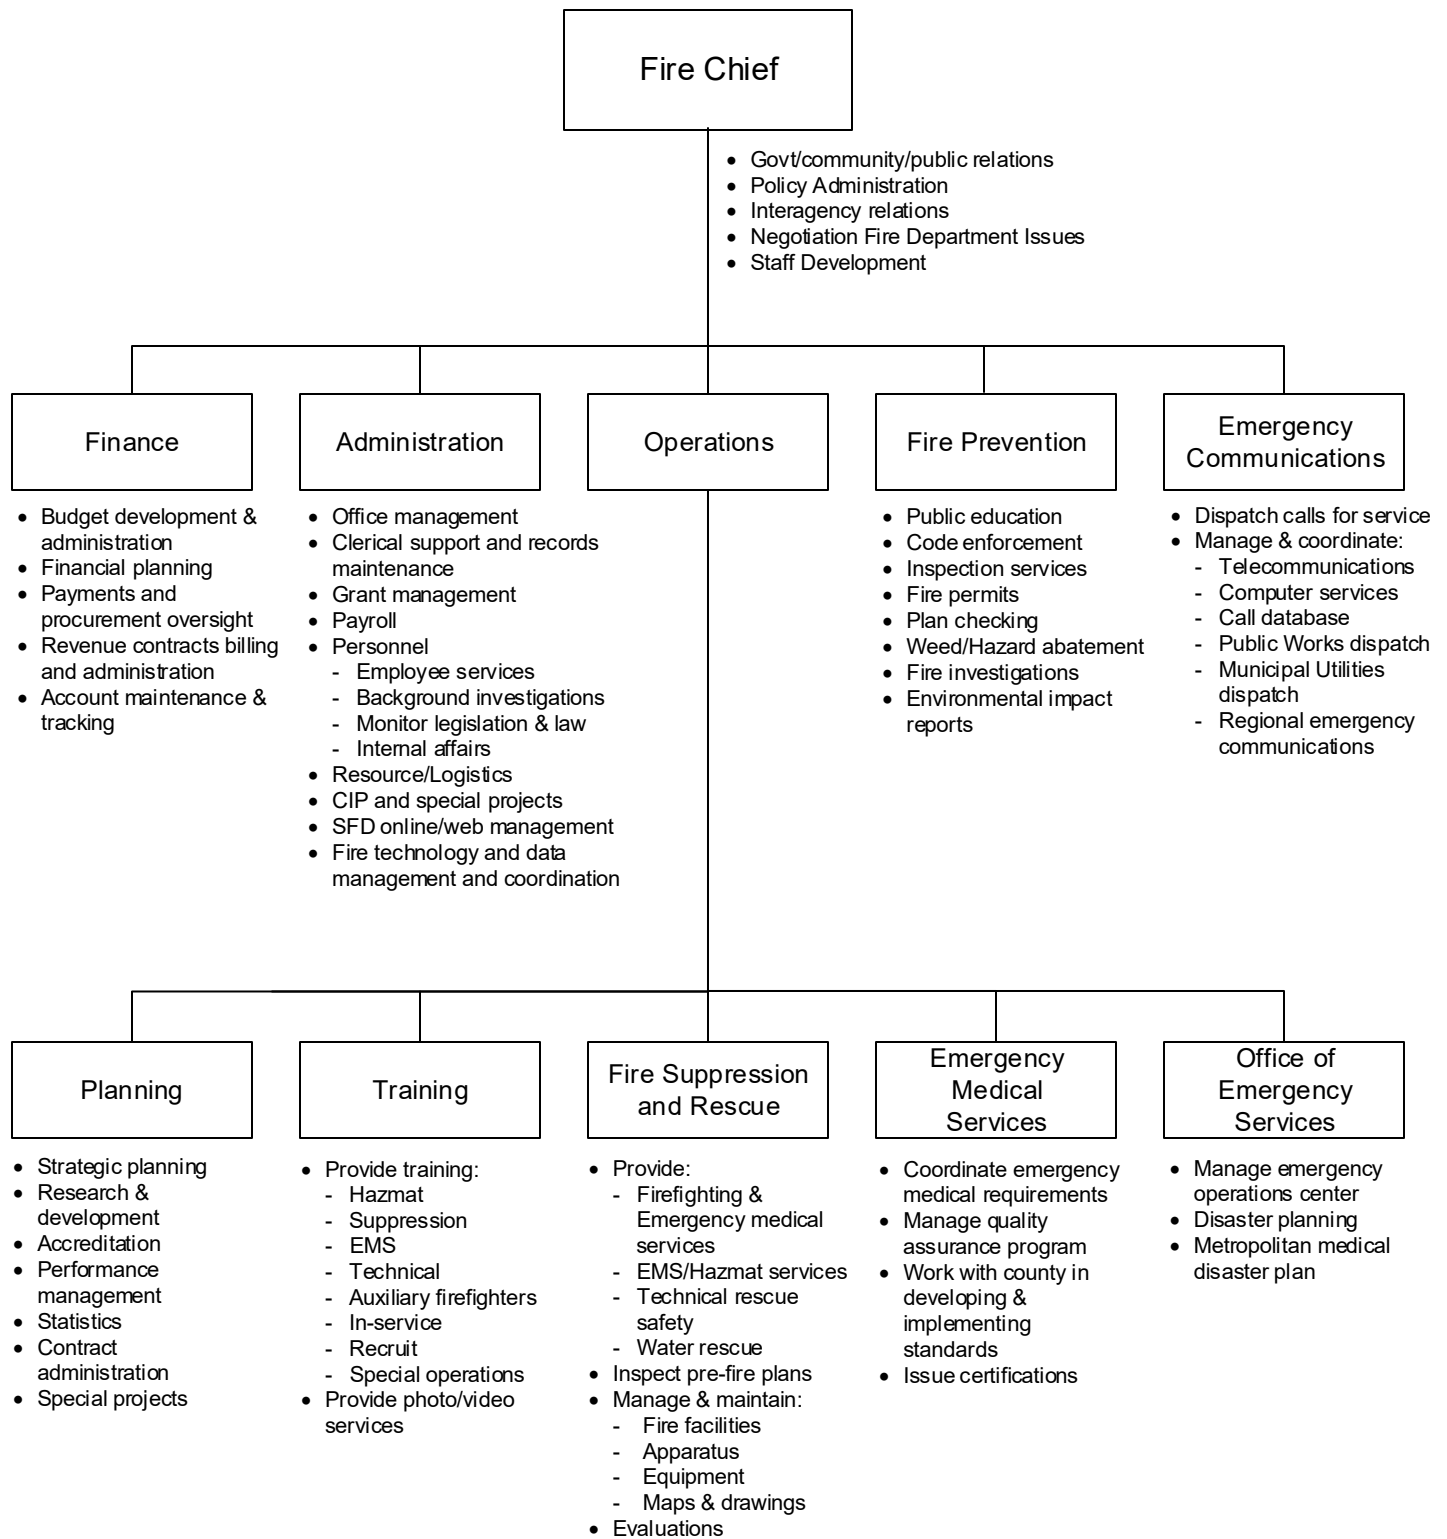

The Pet Overpopulation Fund supports Spay and Neuter Clinics. Revenues have been insufficient to cover program expenditures, and thus, program activities will remain suspended until revenues can support the associated costs.

TAB 5 FIRE

FIRE DEPARTMENT

FIRE DEPARTMENT

MISSION STATEMENT

The Stockton Fire Department is committed to providing excellent emergency and non-emergency customer service. Our dedicated members ensure a safe community through public education, prevention, and aggressive fire suppression and rescue activities.

Budget at a Glance:

Total Revenues	\$15,595,626
Total Expenditures	\$55,563,582
Total Net Cost	\$39,967,956
Total Staff	211

DEPARTMENT DESCRIPTION

The Fire Department is responsible for fire protection, and emergency medical services within Stockton city limits and under contract to four bordering fire districts. It also provides regional fire and emergency medical dispatch services to Stockton and other municipalities in the county.

The department is organized into five divisions: Administration, Operations, Fire Prevention, Training, and Emergency Communications.

- Administrative Division provides overall policy direction and management support for the department including office administration, finance, planning and logistics.
- Operations Division provides fire suppression and emergency medical and rescue services; mitigates hazardous material incidents, conducts arson investigations and assists in fire permit inspections.
- Fire Prevention Division issues fire code operational permits and performs related annual inspections, conducts fire safety education programs, provides code enforcement, and plan checking for fire code compliance.
- Training Division coordinates and monitors the professional and technical training plans and programs for over 180 sworn positions related to fire and medical service certifications and licensure; fulfills statutory mandated reporting requirements, and develops the curriculum for and oversees all fire fighter training academies.
- Emergency Communications Division dispatches fire and emergency medical calls to Stockton and other municipalities as a regional dispatch contract service provider for the San Joaquin County Regional Fire Dispatch Authority.

DEPARTMENT STRATEGIC WORK PLAN

As part of the Department's commitment to continued excellence, sustaining a thoughtful comprehensive strategic plan is critical as it will drive the organization toward a common vision while optimizing its resources.

The Department's strategic priorities are to evaluate and improve service delivery, implement advanced technologies, employ sound budget practices, develop our workforce and enhance our leadership. We will continue to strengthen our community relationships to improve our preparedness and enhance resiliency during emergency events. We will assist in revitalizing the local economy by hiring the most qualified candidates that also reflect the City's diverse population, and by attracting and supporting new business by improving our fire prevention services.

FIRE DEPARTMENT

PRIOR YEAR ACCOMPLISHMENTS

Administrative Division

Contracted for a public safety specific scheduling software that will automate the Department's complex and labor-intensive workforce scheduling process.

Completed the Station No. 4 kitchen remodel, Station No. 2 burn room, and Station No. 12 rebuild and renovation project.

Received a \$59,089 grant from the Federal Emergency Management Agency's Department of Homeland Security to replace compressed air cylinders and Photo Ionization Detectors.

Received a \$35,000 grant from the State Department of Fish and Wildlife to purchase an oil spill clean-up trailer and related equipment.

In January 2018, City Council approved an Automatic Aid Agreement with Waterloo Morada Fire Protection District for automatic emergency response needs during major events or disasters. Mutual aid arrangements with specific neighboring agencies provide timely, coordinated and efficient access to various resources for major emergencies.

Operations Division

The Department responded to more than 47,000 incidents, including 27,536 rescue and emergency medical service responses, 3,178 fires, 687 hazardous conditions, and other calls for emergency services. Using industry specific metrics, the demands in Stockton are among the highest in the country.

California experienced one of its worst and devastating fire seasons in 2017, and the Department responded to over 40 State requests for emergency wildland fire assistance. The cost of resources deployed to these incidents are fully reimbursed by the requesting agencies.

Fire Prevention Division hired an additional inspector to perform annual fire permit inspections. By completing 117 school inspections, the City remains 100% compliant with State-mandated Kindergarten to 12th grade school fire code requirements. In 2017, staff completed 10,767 fire inspections, 1,168 fire and building plan checks, 191 plan applications and project reviews, 1,187 new construction related inspections and 110 formal fire investigations. Staff provided fire safety education to 13,000 Kindergarten through second grade students and to the public through social media, conducting three firehouse open house events, and attendance at 83 public education events.

Training Division conducted a Fire Training Academy to fill seven vacancies and various development training events for regular Fire personnel including: officers conference, captain academy, active shooter situation training and defensive driving training.

Emergency Communications Division

The Department accepted \$399,900 from the State of California for the replacement of 9-1-1 equipment and call-taker workstations of the Stockton Dispatch Center. The division purchased and installed a new 911 caller data management and reporting system that will improve telecommunicator's medical assessment and reporting capabilities.

FIRE DEPARTMENT

KEY CONSIDERATIONS

The department continuously evaluates its current processes and technology to increase its operational efficiency and to enhance its services. Staff will be working on the installation and implementation of the Telestaff and Firstwatch softwares; and the replacement of the Firehouse Report Management System (RMS) software in the upcoming fiscal year. Once complete, the Telestaff software will automate and provide the tools to manage and schedule workforce efficiently and eliminate the current labor and time-intensive manual scheduling process. The FirstWatch Early Event Detection software will provide efficient communication and 9-1-1 caller data management and reporting that will be used to assess and improve the Department's operational performance. Lastly, the Firehouse RMS will be replaced with new data and performance management software that will be compatible with an upgraded Fire computer aided dispatch (CAD) system for efficient and timely completion of incident reports.

With 13 facilities, the Department is constantly challenged by the lack of deferred maintenance resources, vandalism, and aging equipment. Fire will continue to work with Public Works to address fire station repair and improvement needs to preserve and improve the department's aging infrastructure and equipment. The City expects to complete the Fire Station No. 2 Kitchen Improvements, Firehouse Security Systems and Exterior Painting projects next fiscal year. The Five Year Capital Improvement Plan includes funding for Fire Station No. 2 Window Replacement and Security Systems projects in FY 2018-19. The annual budget also includes funds for the replacement of a generator for the Morada North Communications Tower and a replacement for the self-contained breathing apparatus (SCBA) fill equipment at Fire Station No. 3.

Expanding relationships and working together with various agencies allow enhancement and advancing of overall City and County fire protection and emergency services. Discussions and planning for a regionalized response network continue between the City and neighboring agencies to identify the necessary resources for providing mutual emergency responses for major events or disaster.

With over 180 sworn positions, the department has a continuous need to fill and train new firefighters. The budget includes an appropriation to conduct a Fire Academy to meet the demand for replacement staff.

Operational levels remain unchanged in FY 2018-19 from past fiscal year. Twelve fire engines and three ladder trucks will remain in operation to provide fire protection and emergency medical service needs to the community. Staffing levels remain at three personnel for fire engines and four personnel on ladder trucks.

FIRE DEPARTMENT

EMERGENCY COMMUNICATIONS FUND (042)

PROGRAM DESCRIPTION

The San Joaquin County Regional Fire Dispatch Authority (Authority) was established on August 17, 2015. The purpose of the Authority is to provide emergency and non-emergency dispatch and related services to the general public within the service areas of the cities of Stockton, Lodi, Manteca, Tracy and the Lathrop-Manteca Fire Protection District.

On July 1, 2016, the Authority contracted with the City of Stockton to provide regional dispatch and administrative services to the Authority. The Emergency Communications Fund was created to account for the revenue and expenditures associated with the contracted dispatch and administrative services. The Authority fully reimburses the City for the costs of the services it provides.

KEY CONSIDERATIONS

The Stockton dispatch center received a daily average of 289 service calls in 2017 or a 25% increase in daily service call volume from the prior year. To meet the increasing call volume in the dispatch center, the FY 2018-19 annual budget includes two new Fire Telecommunicator positions.

Staff will be focusing on the following efforts in the upcoming fiscal year:

- Completion and implementation of the Fire computer aided dispatch system upgrade project. The new system will replace the outdated software currently used at the dispatch center for the improved receipt and management of emergency service calls from the public.
- Prepare for the 2019 National Academies of Emergency Dispatch Center of Excellence Accreditation process.
- Complete the installation and replacement of the 9-1-1 call-taker workstations using funding from the State's 9-1-1 Emergency Communications Office.
- Develop a comprehensive Communications Training Officer Program.
- Initiate the review and update to the Emergency Communications Policies & Procedures.

FIRE DEPARTMENT

DEVELOPMENT SERVICES FUND FIRE PREVENTION (048)

PROGRAM DESCRIPTION

The Fire Prevention Division safeguards the lives, welfare, and economy of the community by providing specialized services including fire and life safety education services. These specialized services include inspections of various operations, industrial and commercial buildings and multi-family dwellings for California Fire Code compliance. The division also performs technical services such as plan review of fire alarm and extinguishing systems; management and issuance of fire code operational permits; and investigation of suspicious fires and hazardous materials incidents. Fees from fire prevention inspections and technical services finance the operations of the Division.

KEY CONSIDERATIONS

State-mandated inspection workload has increased significantly, which is instrumental in maintaining the public's safety and the economic welfare of the business community. Inspections the City performs on behalf of the State include all hospitals, schools, high rises, hotels & multi-family residential housing units, and business that uses compressed gas or volatile chemicals. The department has over 1,000 state mandated inspections and a similar number of city permit inspections, and expects 270 new businesses and 500 building plans for review, all of which dictate a need for additional permit staff. To address that workload and to maintain compliance with the California Fire Code, two additional Fire Prevention Inspectors, one additional Permit Technician, and one Office Assistant are included in the FY 2018-19 budget.

Staff will also work collaboratively with other City departments and the San Joaquin County Building Department to ensure all new businesses requiring Fire Operational Permits are readily identified and properly tracked.

The Division is preparing to conduct a fee study in FY 2018-19 that will validate the permit pricing and methods used to develop fees.

FIRE DEPARTMENT

MEASURE W FUND (081)

PROGRAM DESCRIPTION

Stockton's voters approved Measure W in November 2004, which authorized a one-quarter percent Transaction and Use Tax to provide public safety services with the proceeds being split equally between the Police and Fire Departments. The program guidelines include an Economic Uncertainty fund provision to be funded at 25% of annually-budgeted revenues. This reserve is currently fully funded.

The Fire Department uses the funds primarily to pay for a portion of Fire Suppression personnel salary and benefits assigned to Fire Company No. 3 (southeast Stockton), Fire Company No. 4 (central Stockton) and Fire Company No. 13 (northeast Stockton). Proceeds have also been used for one-time purchases of fire engines, radios, and fire station equipment. For the past five years, Measure W proceeds have consistently funded the salary and benefits of 25 firefighting positions that provide fire protection and other emergency services.

KEY CONSIDERATIONS

In FY 2018-19, Measure W revenues will continue to pay for 25 firefighting positions and will also pay for one-time funding for defibrillators and remaining equipment needed to completely equip and outfit new fire apparatus. Measure W revenues are projected to increase by approximately 2% from prior year projections. The program guidelines recommend a reserve in the event revenues fall short of estimates. This reserve is now fully funded and will continue to be in the coming fiscal year.

TAB 6 PUBLIC WORKS

PUBLIC WORKS DEPARTMENT

PUBLIC WORKS DEPARTMENT

MISSION STATEMENT

Plan, design, build, and maintain public works for residents, businesses, and departments of the City of Stockton to meet their needs and expectations with pride and professionalism in a cost-effective manner.

Budget at a Glance:

Total Revenues	\$44,176,217
Total Expenditures	\$60,616,497
Total Net Cost	\$16,440,280
Total Staff	163

DEPARTMENT DESCRIPTION

Public Works is comprised of four divisions: Engineering, Solid Waste/Recycling, Operations and Maintenance, Fiscal and Administration.

Engineering oversees traffic engineering, traffic system management and delivery of the City's Capital Improvement Program (CIP) projects. The CIP is a robust compilation of transportation, infrastructure, and building upgrades or new improvements. The CIP list of improvements includes work to the City's roads, bridges, signals, lighting, as well as library, fire and police facilities.

Solid Waste and Recycling manages the City's recycling programs and oversees the City's franchise agreements. These programs include:

- 3-cart residential trash, recycling, and green/food waste collection.
- Recycling education and outreach.
- "Clean Sweep" by appointment (bulky waste pick-up).
- Construction/demolition recycling permits, multi-family and business recycling.

This division also oversees contracted street sweeping services, manages garbage, recycling and special waste services for City facilities, and coordinates collection for community cleanups and events. These activities are funded by fees collected from the franchised haulers' gross rate revenues.

Operations and Maintenance is responsible for maintaining transportation infrastructure, parks, trees, Landscape and Lighting Assessment Districts, City facilities, and the City fleet.

- State gas tax and Measure K maintenance monies support the City's transportation infrastructure and fund the maintenance, repair and replacement of:
 - 763 miles of roads.
 - Over 1,200 miles of sidewalk, pavement striping and markings.
 - More than 16,000 regulatory/warning signs.
- The Community Enhancement program removes weeds, graffiti, and approximately 450 tons of illegally dumped debris from public right-of-way.

PUBLIC WORKS DEPARTMENT

- Manages contracts for over 2.0 million square feet of median and streetscape landscape maintenance, alley maintenance, and weed spraying.
- The Landscape Maintenance Assessment District function provides maintenance services to 27 separate zones where fees are collected from benefiting properties. Services include landscaping and irrigation work for streetscapes and medians, painting and repair of walls, landscape/janitorial services at 12 parks, and street lighting repair and electricity costs.
- Maintains and pays the electrical power costs for over 19,000 street lights and 308 traffic signals.
- Fleet operations are funded by rental rates charged to user departments. Fleet services include:
 - Maintaining and replacing the City's mixed fleet of approximately 1,120 vehicles and equipment.
 - Providing preventive maintenance inspections to full engine rebuilds, specialized auto body repairs, and vehicle setups. This work is performed either by an in-house team of mechanics and specialists or by outside vendors.
 - Replacing aging vehicles and equipment including police vehicles, heavy fire equipment, and large construction units.

Fiscal and Administration provides management support for the department, which includes office administration and finance.

Public Works' budget consists mainly of restricted funding sources augmented by General Fund monies, and is used for parks, trees, facilities, and administrative expenses comprising of:

- Maintenance, minor repairs, and capital replacements for 800,000 square feet of City buildings at 60 sites, including janitorial, grounds maintenance, roof maintenance, HVAC, plumbing, carpentry, and key/alarm control services.
- Contracted maintenance services at 50 parks, including janitorial, landscape, vandalism repair, and irrigation work.
- Maintenance of approximately 98,000 trees along streets and in parks, with services limited to safety trimming and emergency response using a combination of City and contracted personnel.

Gas tax and Measure K maintenance funds support traffic engineering, traffic system management, and delivery of the various projects in the Capital Improvement Program. The budget for the capital function is separate from, and in addition to, the operating budget. Public Works staff seek out and secure various capital grants, without which, the needed capital improvements could not be completed. Measure K maintenance funds and developer fees provide important matching funds for capital projects grants.

DEPARTMENT STRATEGIC WORK PLAN

The Department is focused on infrastructure maintenance and on maintaining the level of service provided by our Fiscal, Solid Waste, Engineering, and maintenance operations. Engineering will continue to garner federal and state funding opportunities to deliver the City's capital needs with a focus on delivering portions of the Bike Master plan, Safe Routes to School plan, together with

PUBLIC WORKS DEPARTMENT

active transportation projects. The City's long term infrastructure maintenance and renewal strategy is contained in the 5-year Capital Improvement Plan which is updated annually. Operations and Maintenance will focus on enhancing asset inventory tracking, continued progress and implementation of its computerized maintenance management system, and considering efficiency improvements related to maintenance and customer service practices. Solid Waste operations will continue to work with the franchised haulers to address recycling contamination issues, and to ensure ongoing service.

PRIOR YEAR ACCOMPLISHMENTS

The department was successful in utilizing existing Measure K funding to leverage a variety of ongoing and new federal and state funding sources. These grant opportunities made it possible to bring tens of millions in additional funding to add improvements to the City's transportation, infrastructure, and building assets. In addition, completion of the Bike Facility Master plan and the Safe Route to School plan will enable the City to strongly compete for more grant funding in these program areas. Significant progress was made on major road projects such as Hammer Lane, Thornton Road, Pacific Avenue and Miner Avenue.

The operations and maintenance division continues to strive for on time maintenance of the City's transportation system comprised of 763 miles of roads, 308 traffic signals, more than 19,000 street lights and 16,000 regulatory/warning signs. Staff filled over 5,800 potholes and installed over 4,500 signs, completed conversion of over 5,300 street lights, removed over 600 tons of debris from Mormon Slough, and replaced several damaged playgrounds.

Solid Waste launched the "Think Before You Toss" pilot program to reduced contamination, visited over 11,000 customers to inspect carts and provide information on proper use, completed a Division review, and developed a hazardous waste disposal program for City departments.

KEY CONSIDERATIONS

Key considerations for Department divisions that are funded separately from the General Fund are addressed in the following sections. For General Fund functions, which are limited to Parks, Trees, and Facilities, the FY 2018-19 budget fully funds the new parks maintenance contract and increases the funds for water to allow for sufficient irrigation to keep the parks green. Tree maintenance continues to be a concern, as resources do not permit a proactive trimming, removal and replacement program. The FY 2018-19 budget includes \$50,000 for emergency tree removals. Facility considerations primarily focus on the shift of City Hall to Waterfront Office Towers and the remaining maintenance needs at unoccupied facilities.

PUBLIC WORKS DEPARTMENT

GAS TAX FUND (030)

PROGRAM DESCRIPTION

The State of California transfers Gas Tax Fund revenues to the City based on an allocation formula that distributes taxes collected on fuel sales.

The Fund supports a transportation system comprised of approximately 763 miles of roads, 308 traffic signals, 19,000 street lights, 16,000 regulatory/warning signs, together with sidewalks, bridges, ditches, graffiti abatement, and the City's street trees.

KEY CONSIDERATIONS

- The State recently approved additional transportation funding via Senate Bill 1 (SB1) the Road Repair and Accountability Act of 2017 to fix roads, freeways, and bridges in communities across California. SB1 funding is anticipated to provide a positive impact on the maintenance program moving forward. The City's SB1 funding allocation is estimated to be almost \$5.3 million. \$3.3 million of this amount is allocated to the Local Streets Resurfacing Project, and \$2 million is allocated to the Curb, Gutter, and Sidewalk Replacement Project. The continuation of this funding source is pending the outcome of the SB1 repeal initiative that is anticipated to be on the ballot in November.
- Two vacant Maintenance Repair Technician positions will be filled to support delivery of SB1 projects, and three additional positions have been approved in support of SB1 activities.
- The non-capital budget funds operational activities related to engineering, pavement, street lighting, traffic signals, and pavement markings and signs to improve the City's infrastructure.

MEASURE K MAINTENANCE FUND (082)

PROGRAM DESCRIPTION

In 1990, voters in San Joaquin County passed a ½ cent sales tax increase dedicated to transportation projects. This original sales tax increase was set to expire in 2011; however, in 2006, voters passed a 30-year extension of the sales tax increase. The Measure K program is administered by the San Joaquin Council of Governments (SJCOG).

35% of the sales tax revenue is dedicated to maintenance activities and is distributed to member jurisdictions of the SJCOG which include the San Joaquin County and cities of Stockton, Lodi, Manteca, Tracy, Ripon, Escalon, and Lathrop. Stockton receives Measure K maintenance funding on a quarterly basis and has historically used this funding for maintenance, local capital projects, and to provide matching funds to leverage state and federal grant programs.

KEY CONSIDERATIONS

- The San Joaquin Council of Governments indicates Measure K revenues are projected to increase by approximately 4% in FY 2018-19.
- The Department has utilized a portion of Measure K revenues to leverage State and Federal Grant sources such as the Active Transportation, Congestion Mitigation, Highway Bridge, and Highway Safety Programs. The Department is presently delivering approximately \$25 million in state and federally-funded projects that involve new safety improvements, bike facilities, signalization and traffic upgrades, Safe Routes to Schools improvements, and major transportation improvements to identified streets in the City. In addition, Measure K helps support critical engineering programs in the areas of Neighborhood Traffic Calming, Traffic Signal control and Modifications, Utility Undergrounding, and Bridges.
- The FY 2018-19 budget supports operational activities related to engineering, pavement, street lighting, traffic signals, and pavement markings and signs to improve the City's infrastructure.
- Delivery of the City's robust capital and maintenance programs require additional staffing. Three new engineering and administrative support positions have been approved to assist successful delivery of the programs and to avoid loss of federal and state funding.

PUBLIC WORKS DEPARTMENT

SOLID WASTE AND RECYCLING FUND (047)

PROGRAM DESCRIPTION

This fund tracks financial activities in compliance with state mandates for solid waste division and expansion of recycling programs. Revenues for this fund are from a 3.5% surcharge on waste haulers' gross rate revenues. This revenue is authorized by State Assembly Bill 939 titled The Integrated Waste Management Act (AB 939) and was created to fund compliance with the recycling and diversion programs required by AB 939. This program provides franchise oversight in addition to the various recycling and compliance initiatives. Several new state requirements (AB 341, AB 1826, and SB 1383) are now in effect which will impact this fund as implementation proceeds.

KEY CONSIDERATIONS

The primary focus for the coming year will be extension of the current franchise agreement that expires in 2019. The extension must be structured to maintain the current high service level, and to provide flexibility for modifications to address changing state requirements for diversion and organics processing. Community outreach is an important emphasis in the proposed budget and is also a compliance requirement.

LIGHTING ASSESSMENT DISTRICT FUND (071)

PROGRAM DESCRIPTION

This fund tracks financial activity relative to the Central Stockton Lighting Maintenance Assessment District formed under the Landscape and Lighting Act of 1972 and collects assessments for the “Special Lighting Benefit” received.

The current district is a reformation of the original Lighting & Maintenance Districts 74 and 75 formed under the Street Light Acts of 1927 and 1931. There were originally five zones between these two districts.

Only one of the original five zones is still active. The Oxford Manor zone contains 278 street lights.

KEY CONSIDERATIONS

- A plan for gradual replacement of the District’s ongoing infrastructure, including conversion to LED fixtures will be developed.
- Assessment rates will remain the same as in FY 2017-18.

**Public Works Department

PUBLIC WORKS DEPARTMENT

STOCKTON CONSOLIDATED LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT 96-2 FUND (072)

PROGRAM DESCRIPTION

In previous years, this fund combined Landscape Maintenance Assessment Districts and Storm Drain Maintenance Districts. This fund currently reflects only the Landscape Maintenance Districts, which are managed by Public Works.

On February 26, 1996, Council adopted Resolution No. 96-0084 that consolidated the eight Landscape Maintenance Districts that existed at the time into the new Consolidated Landscape District 96-2.

There are 34 separate zones in the Consolidated Landscape District. Assessments are levied in 27 zones. Assessments are not levied in the remaining seven zones as no improvements have been constructed and maintenance is not required.

This fund includes the aggregate fund balances for each of the 27 zones. Funds from one zone cannot be used in a different zone. The fund balances for each zone are intended to be used for replacement of infrastructure, such as irrigation systems, back up walls, street lights, and playground equipment, and for replacement of plant material. However, only certain zones were created with assessments that keep pace with inflation. The fund balance in zones without a cost of living adjustment is reserved to meet future increases in maintenance costs, and may be insufficient to replace aged infrastructure in future years.

Improvements maintained include, but are not limited to: street and median landscaping, fountains, ornamental structures, public lighting (such as street lights and traffic signals), walls, irrigation, parks, and park equipment. Maintenance typically includes mowing, edging, trash collection, irrigation system operation and repairs, and replanting of landscape.

All maintenance services are provided by contract except for some lighting work performed by City staff.

KEY CONSIDERATIONS

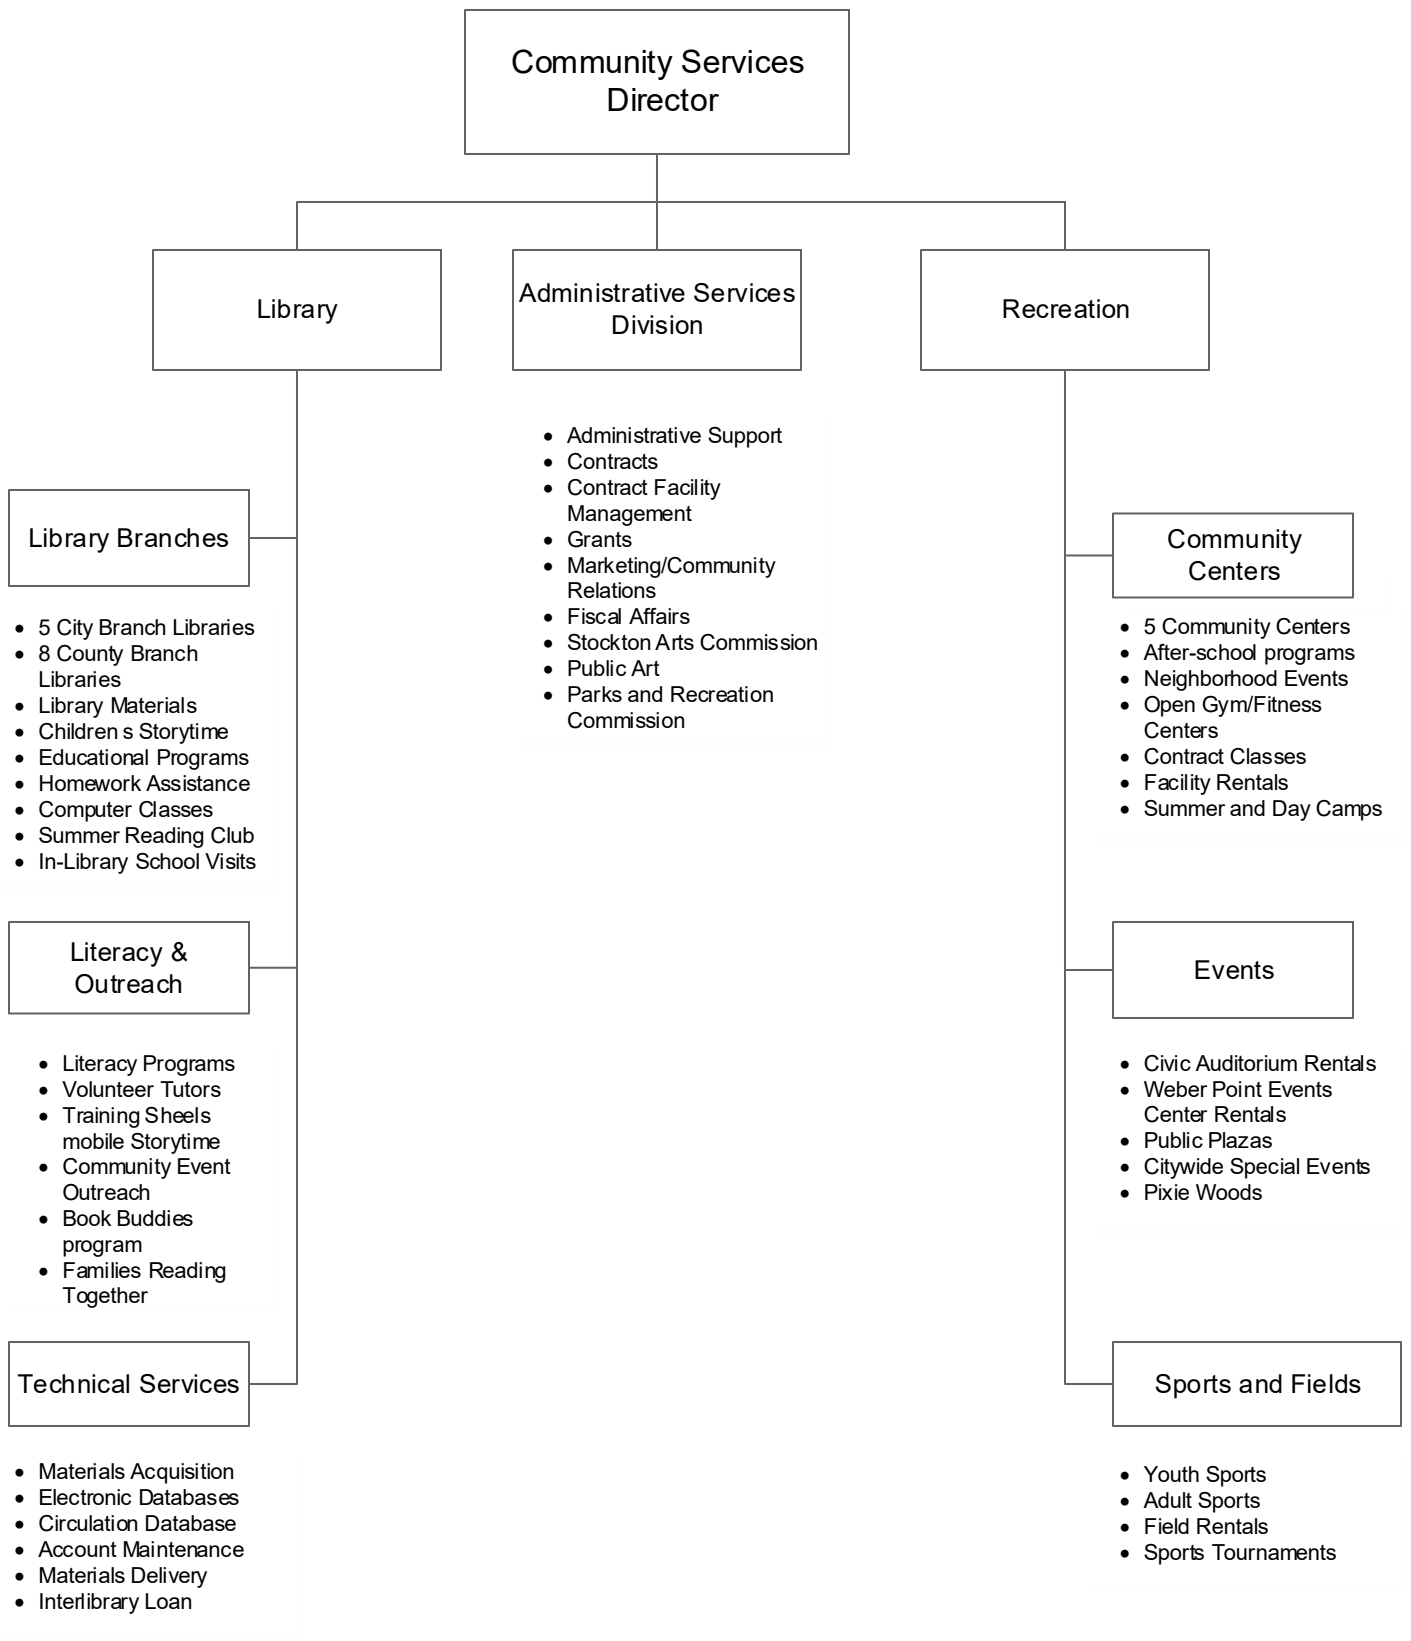

- The assessment will remain the same for FY 2018-19 for the seven zones with fixed assessments.
- For the 20 zones where the assessment formula provides for adjustment, the actual FY 2018-19 assessment will remain the same as the FY 2017-18 assessment in seven zones, and be increased in 13 zones.
- FY 2018-19 budget increase of approximately \$640,000 compared to the FY 2017-18 adopted budget of \$3.9 million is attributable to increased contracted maintenance costs, water costs, wall repair costs, and corresponding contingency budgets.

COMMUNITY SERVICES DEPARTMENT

COMMUNITY SERVICES DEPARTMENT

MISSION STATEMENT

Building resilient communities by cultivating healthy bodies and curious minds.

Budget at a Glance:

Total Revenues	\$28,223,319
Total Expenditures	\$31,086,848
Total Net Cost	\$2,863,529
Total Staff	112

DEPARTMENT DESCRIPTION

Community Services has three primary budgetary program areas: Library, Recreation, and Golf.

The Library provides experiences and resources designed to improve the lives of residents in our community. Programs such as story-time, tutoring, and summer reading focus on literacy, learning, and building strong families and communities. Library collections support this goal and include high-speed internet access, computer labs, books, music, movies, electronic research tools and digital format materials.

The Library system, known as the Stockton-San Joaquin County Public Library, is operated by the City of Stockton yet serves all of San Joaquin County through an arrangement to provide a regional, multi-branch system. The system is made up of five branches within Stockton city limits, eight branches throughout the rest of San Joaquin County, and a bookmobile. This centralized system allows all the sites to circulate materials between one another and benefit from combined administrative and management costs.

General Fund allocations from the City of Stockton and San Joaquin County have made up the majority of the funding for the library system. Operating and system-wide administration and support costs are tracked separately and assigned to the two agencies in accordance with a contract for services. Additional funding for City of Stockton libraries is provided through the Strong Communities (Measure M) special tax measure.

Recreation is comprised of programs that improve the lives of Stockton residents. Recreation programs are known to foster physical health, promote social equity, build life skills and strengthen community bonds. Through neighborhood facilities, the City offers youth and adult sports leagues, special events, meals for seniors, day camps, after-school programs, instructional classes and a variety of other leisure events and activities.

Recreation facilities include: community centers, ball field complexes, swimming pools and special event venues including the Civic Auditorium, Weber Point Events Center, and Pixie Woods children's theme park. Some facilities and programs are operated by the City directly, some are jointly used with other agencies, and others are contracted out to private and non-profit agencies for full or partial management. Operating costs for recreation programs have historically been funded by fees and an allocation of General Fund revenues. Program registration and facility rental price points were developed to maximize recreational opportunities for citizens, and have not traditionally been based on full cost recovery, but rather have been set at a level commensurate to local needs. Additional funding for City of Stockton recreation programs and services is provided through the Strong Communities (Measure M) special tax measure.

COMMUNITY SERVICES DEPARTMENT

Golf operations at the Swenson and Van Buskirk municipal courses are managed through a contract with Kemper Sports, Inc. that began in July 2011. Due to the significant number of competitor courses and a decrease in regional golf rounds, these municipal courses are unable to cover operating costs through course fees and require support from the General Fund. Although the early expectations of contract management were for the courses to be self-sustaining, it is evident the courses require a significant ongoing subsidy. Management of the courses and the subsidy must be carefully monitored and reviewed to identify measures to minimize the General Fund impact.

In addition to operational areas, the department provides oversight to the Parks and Recreation Commission, Stockton Arts Commission, and Teen Leadership Council.

DEPARTMENT STRATEGIC WORK PLAN

The Community Services Department supports the City Council's strategic work plan specifically in the areas of working with education partners to improve student outcomes, improving quality of life, and creating improved infrastructure. Activities planned for the coming year include developing a free afterschool program available at all Community Services facilities, opening at least one additional "Micro Library" within a City Community Center, and targeting programs to focus on the diverse communities in the Department's service area.

Infrastructure improvements include moving forward on planned Capital projects designated in the Strong Communities Initiative (Measure M) spending priorities and selecting architect and design services for a new Library/Community Center. The Department will also facilitate the introduction of "Small City Hall," a mobile service vehicle to bring City services closer to resident neighborhoods and implement an online customer-facing portal to the Department's new recreation management system.

PRIOR YEAR ACCOMPLISHMENTS

The Department accomplished several goals during the last budget cycle. Major accomplishments include recruiting and hiring 17 of the 23 positions approved as part of the Strong Communities (Measure M) initiative, completing the transition to high-speed bandwidth at all Library facilities and implementing RecTrac, a new online Recreation Management System.

The Department experienced service growth in several areas. The Library Summer Reading Club saw a significant increase with participation rising 56% and the number of books read by children ages 0-12 increasing by 50%. Bookings at the Civic Auditorium increased by 6% over the previous year from 163 to 174 and attendance at Pixie Woods also grew 6% with 1,000 more visitors than the prior year. The Department's Youth in Government Day almost tripled the number of student participants as the previous year and annual events such as Movies at the Point and Holiday Tree Lighting continued their strong attendance patterns from previous years.

The Department introduced new programs including Family Night activities and Holiday Workshops at Community Centers and a new initiative during Stockton Arts Week called Collide which brought disparate art forms together for the public to enjoy.

COMMUNITY SERVICES DEPARTMENT

KEY CONSIDERATIONS

Key considerations for FY 2018-19 include completing recruitments of Strong Communities (Measure M) positions, focusing staff resources on program restoration and expansion, and exploring solutions for reducing the City's increasing General Fund subsidy for golf courses.

Staff will begin work on the capital projects identified in the City Council Strong Communities spending priorities. In FY 2018-19 the Department expects to have fully restored hours at Libraries and Community Centers including evenings and weekends, adding 87 additional open hours at City Libraries and 63 additional hours at Community Centers. Staff will also conduct a review of all department afterschool offerings and redesign them to offer a comprehensive free after-school program in all City-operated Libraries and Community Centers. Library staff will also be designing new programs utilizing the high-speed bandwidth that the City implemented in FY 2017-18 at all Library sites. The Department will add a second Micro Library site in the Oak Park Senior Center, and Sports offerings will be expanded to include outdoor soccer and additional basketball programs.

Increasing General Fund expenses for City golf courses will also be studied with the goal of developing solutions to reduce or eliminate costs. Capital project considerations include completion of the design of a new Library/Community Center facility in North Stockton, completion of the design for City Aquatics facilities, and improvements to City soccer fields.

COMMUNITY SERVICES DEPARTMENT

STRONG COMMUNITIES FUND (083)

PROGRAM DESCRIPTION

- Passed in 2016, the Strong Communities initiative (Measure M) levies a ¼ cent sales transactions and use tax for Library and Recreation services.
- The initiative went into effect on April 1, 2017, will be in effect for 16 years and is estimated to generate an average of between \$9.4 and \$11.8 million per year.
- In its first year, the measure has brought in revenues in line with estimates and has been used to add staff positions for restored and expanded services as well as allow a balance for future Capital projects as outlined in the City Council Spending Priorities for the measure. The first of those projects will begin in FY 2018-19 .

KEY CONSIDERATIONS

Key considerations for the Strong Communities Fund in FY 2018-19 include moving forward with capital improvements to the City's soccer and aquatics facilities, provide resources for the construction of a new Library and Community Center facility in Northeast Stockton, and increase program space at the Troke Branch Library. Budget changes include the reclassification of a Library Supervisor position to Library Division Manager, part-time staff to support restored hours in all facilities, and broadband technology equipment to enhance Library programming.

COMMUNITY SERVICES DEPARTMENT

LIBRARY FUND (041)

PROGRAM DESCRIPTION

- This fund tracks the financial activities for the Stockton-San Joaquin Public Library.
- Under City of Stockton management, library services have been made available County-wide since 1910.
- Currently, five City and eight County facilities are open to the public between 25 and 42 hours per week.
- Resources for operations recorded in this Fund are provided from the City of Stockton General Fund, San Joaquin County General Fund, contracts for automation services, support from outlying cities, donations from individuals and charitable organizations, and fines and fee revenues.

KEY CONSIDERATIONS

The General Fund allocation to the Library Fund remains at the FY 2014-15 level in accordance with the Strong Communities measure. The ordinance states the General Fund allocation may not be at any level lower than FY 2014-15 unless there is a decrease in overall General Fund revenues, in which case the City Council may decrease support only to the level of the decrease in General Fund revenue. This maintenance of effort requirement is reviewed on an annual basis to determine if there should be any increase or decrease in General Fund support for the Library Fund.

COMMUNITY SERVICES DEPARTMENT

RECREATION FUND (044)

PROGRAM DESCRIPTION

- Recreation programs and facilities are enjoyed by thousands of Stockton residents and visitors every year.
- This fund is used to record the activities related to recreation facilities and programs that are funded by an allocation of the General Fund.
- Facility rentals and registration fees, donations, admissions, and the City's General Fund are used to support these programs.

KEY CONSIDERATIONS

The General Fund allocation to Recreation Fund remains at the FY 2014-15 level in accordance with the Strong Communities measure. The ordinance states that that General Fund allocation may not be at any level lower than FY 2014-15 unless there is a decrease in overall General Fund revenues, in which case the City Council may decrease support only to the level of the decrease in General Fund revenue. This maintenance of effort requirement is reviewed on an annual basis to determine if there should be any increase or decrease in General Fund support for the Recreation Fund.

COMMUNITY SERVICES DEPARTMENT

GOLF FUND (481)

PROGRAM DESCRIPTION

This fund tracks the financial activities related to the operation and maintenance of the Swenson and Van Buskirk municipal golf courses, which offer twenty-seven and eighteen holes of play, respectively. Kemper Sports Management, Inc. manages operations of the courses with funding from fees and a General Fund subsidy. The local golf market closely mirrors national trends which have indicated for some time that golf play is declining. Diminishing rounds and golf revenues nationwide have led to a steady stream of course closures all over the United States. Locally, this market decline has resulted in an increasing General Fund subsidy and an inability to make the necessary capital improvements to City golf courses.

KEY CONSIDERATIONS

The FY 2018-19 budget includes \$700,000 from the General Fund to support the golf program. The Department is closely studying golf course operations and utilization for solutions to reduce dependence on the General Fund and scale the golf enterprise to a sustainable level of fiscal resources and community need. Significant deferred maintenance issues continue at both courses. The most pressing of those issues are the pond and pump system at Van Buskirk, fencing replacement and tree and debris removal.

TAB 8 COMMUNITY DEVELOPMENT

COMMUNITY DEVELOPMENT DEPARTMENT

COMMUNITY DEVELOPMENT DEPARTMENT

MISSION STATEMENT

To serve the public by providing courteous, effective, efficient and accurate planning and development services to ensure a safe community that enhances the quality of life for all residents of the City of Stockton.

Budget at a Glance:

Total Revenues	\$11,984,653
Total Expenditures	\$11,689,140
Total Net Revenue	\$295,513
Total Staff	43

DEPARTMENT DESCRIPTION

The Community Development Department is comprised of the Building and Life Safety Division, Planning and Engineering Division, and the Business Operations Division. The operational center of the department is at the City Permit Center. The purpose of the department is to:

- Plan for future growth, infrastructure needs, and service demands of the City.
- Review and process permit applications for development activities.
- Provide permit and life safety inspections of buildings, storage tanks, mechanical equipment lines and other structures.
- Provide emergency operations inspection services and action plan support.
- Coordinate floodplain management efforts.
- Assist in economic development, climate action planning, design review, historic building analysis, environmental impact review, and geographic information mapping and analysis.
- Serve as the Public Facilities Fees citywide programmatic lead.

The department supports the Planning Commission, Development Oversight Commission, Climate Action Plan Advisory Committee, Cultural Heritage Board, Building and Housing Board of Appeals, and the Handicap Access Board of Appeals. Community-based planning efforts are funded by intergovernmental grants and the General Fund. Development permitting is largely funded by user fees.

DEPARTMENT STRATEGIC WORK PLAN

The operative General Plan 2035 was completed in 2007. Stockton has dramatically changed since 2007 to the extent that the baseline conditions, reasoning, and vision of that plan are no longer applicable. The City Council continues to identify a revised General Plan as a strategic priority, and the department has begun the process to update it. This process includes a comprehensive update of the General Plan and the various other complimentary documents, public policies, and programs that stem from the General Plan. Additionally, the department will review the Capital Improvement Program, Stockton Municipal and Development Code, and development impact fees within the City Fee Schedule for potential revisions. The department entered into a contract to facilitate the 2040 General Plan completion goal, and it remains a top FY 2018-19 budget priority.

COMMUNITY DEVELOPMENT DEPARTMENT

PRIOR YEAR ACCOMPLISHMENTS

The department made significant strides to improve its customer service at the permit center. Since the implementation of a cloud-based permit management system, the department has made continued adjustments over the past year to improve it. The department has also made significant efforts to develop in-house expertise on the system.

The department started to digitize permit records, plan sets, and convert microfiche/microfilms. The project is anticipated to be completed by the end of the year 2018. Electronic files are already delivered, indexed, setup and uploaded to the City's document management system for staff's ease of use.

Upgrades to plan checking staff hardware have enabled the successful soft roll-out of electronic plan checking. Several contractors and applicants have been taking advantage of this process improvement with positive feedback.

Other notable departmental actions for this year include: 1) Establish a queuing management system to improve customer service wait times in the Permit Center; 2) Advise other City departments to expand existing permitting capability to non-development functions; 3) Continue customer service and technical training of all staff.

The General Fund continues to contribute approximately \$1 million to pay for general government expenses that are not directly related to development services. The ongoing contribution from the General Fund may be adjusted as future analysis is completed and work programs are mandated or refined.

KEY CONSIDERATIONS

Department Resources have been greatly extended this fiscal year. The department has experienced an significant growth in number of permits processed. As of April, 2018, the department processed 6,077 permits with a valuation of approximately \$411 million thus far in FY 2017-18, compared to FY 2016-17 where there were 7,087 permits processed with a valuation of \$334 million. Future projections continue an estimated increase in permit activity over the next three years based on planning projects in the pipeline. The budget includes five new positions and \$1 million in professional services contract funding to fulfill those goals.

The new resources are vital to address the demands and for all of FY 2018-19 to maintain a sufficient level of service, meet customer service expectations of the department, fulfill proposed initiatives and implement the department's goals.

The schedule for revising the General Plan sets forth a 24 to 30 month effort to conduct the necessary technical analyses, environmental impact analysis and reporting, and workshop and hearing processes. Changes to the General Plan would be responsive to:

- The Economic Development Strategic Plan (February 2015).
- The 2008 Settlement Agreement with the State regarding alleged defects with General Plan 2035.

COMMUNITY DEVELOPMENT DEPARTMENT

- The SB 375 Sustainable Communities Strategy goals for the region and how that impacts the City's Circulation Element and Housing Element of the General Plan.
- The AB 32 climate action planning policies and programs and how that impacts the General Plan.
- The SB 5 floodplain management regulations and related effects on the City's planning and building codes.
- The Downtown Area Plan focused on transit-oriented and mixed-use development opportunities.
- The production of baseline conditions for the preparation of a state-mandated Municipal Services Review to include the impact of the City's annexation policies and rules.

Flood Plain Management refers to the efforts to administer and operate Stockton's community flood program of corrective and preventative measures for reducing flood damage in compliance with the 100-year (National Flood Insurance Program) and 200-year State (SB 5 Urban Level of Flood Protection) programs. The SB 5 Urban Level of Flood Protection regulations went into full effect on July 1, 2016 and requires significant attention to the consideration of new development in Stockton. In addition to working with the recently expanded San Joaquin Area Flood Control Agency, the Federal Emergency Management Agency (FEMA) and other State agencies, the department will be active in achieving an improved Community Rating System score which helps to lower all citywide homeowner flood insurance rates.

TAB 9 ECONOMIC DEVELOPMENT

ECONOMIC DEVELOPMENT DEPARTMENT

ECONOMIC DEVELOPMENT DEPARTMENT

MISSION STATEMENT

To expand and diversify the City of Stockton's economic base; to provide real property services to City staff and efficient parking facilities downtown, and to facilitate the preservation and production of affordable housing.

Budget at a Glance:

Total Revenues	\$36,296,973
Expenditures	\$41,671,557
Total Net Cost	\$5,374,584
Total Staff	19

DEPARTMENT DESCRIPTION

The Economic Development Department is comprised of four divisions: Economic Development, Housing, Parking and Venues, and Successor Agency.

The Economic Development Division engages in activities that expand and diversify the City of Stockton's economic base to attract and retain businesses, assist with the creation of quality jobs, and to promote business and developments in Downtown Stockton to establish an economically sustainable community. The division works directly with businesses to facilitate business start-up or expansion within Stockton and interacts with resource providers, such as the San Joaquin Partnership, San Joaquin County WorkNet, San Joaquin Delta College Small Business Development Center, and chambers of commerce to connect those resources to local businesses. This division also supports the Miracle Mile, Downtown Stockton Alliance, and Tourism improvement districts, and is responsible for overseeing implementation of the Economic Development Strategic Plan. The division manages several Economic Development Incentive Programs including the Commercial Facade Improvement and Micro Loan, Commercial Emergency Grant, Downtown Financial Incentive, Non-Residential Fee Deferral, Office and Industrial Sales Tax Incentive, and Downtown Infill Infrastructure Incentive programs. In addition to economic development activities, this division provides property management and real estate support services to all departments. Additionally, the Economic Development Department will continue to manage and provide oversight of the Waterfront Office Towers buildings until the space planning, design, and improvements phases begin.

The Housing Division is responsible for administering several Federal and State grant programs. The division uses these funds to preserve and produce affordable and workforce housing, fund non-profit organizations that provide public services for low-income residents of the community, rehabilitate or construct public facilities, and assist the homeless. The Federal funds are also used to fund some economic development activities. The division works with a Community Development Committee that acts as an advisory board to the City Council and assists with the preparation of the Five-Year Consolidated and One-Year Action plans. The Committee also evaluates proposals from non-profit organizations requesting federal funds. The division is responsible for ensuring all of these activities meet State and Federal guidelines.

The Parking and Venues Division manages City parking facilities, entertainment venues, and marina/boat launching facilities. The division administers third-party contracts with operators who are responsible for daily operations at the Downtown Stockton Marina, Arena, Stockton Ballpark, Bob Hope Theatre, Oak Park Ice Rink, and parking in the Downtown Stockton area. This division is also responsible for the boat launching facilities located at Louis Park and Buckley Cove, in

ECONOMIC DEVELOPMENT DEPARTMENT

addition to overseeing long term leases for Ladd's and Riverpoint Marinas, and the Stockton Sailing Club. Parking compliance and enforcement services are also provided by this division.

The Successor Agency Division is responsible for winding down the activities of the former Stockton Redevelopment Agency. The Agency financed development activities in four targeted geographic "project areas," adopted between 1961 and 2009. Activities were financed through incremental property taxes earned on property value appreciation over and above the baseline valuations at the time of project area formation. Through the passage of State Assembly Bills x1 26 and 1484, all California redevelopment agencies were dissolved and replaced with successor agencies effective February 1, 2012. The City of Stockton elected to become the Successor Agency. An Oversight Board directs and/or approves actions of the Successor Agency.

DEPARTMENT STRATEGIC WORK PLAN

The Economic Development Department has been focused on several programs and initiatives that further the City and Council's goals, which are described in more detail below:

Economic Development: The City Council approved the Economic Development Strategic Plan in 2015 which outlines specific actions to expand employment and investment in core businesses and industries, as well as strengthen quality of life and foundational conditions. In addition to the Strategic Plan, a Food & Agriculture Action Plan was completed in July 2017 to leverage the region's agricultural resources and improve communities by helping to address food insecurity. A number of programs and initiatives have been completed or underway as a result of these plans, including:

- Partnering with Visit Stockton to host the first farm-to-table event in May 2018 at the Bob Hope Theatre featuring locally sourced food.
- Creating a new program to assist convenience stores in retrofitting their facilities so that they are able to offer fresh produce.
- Coordinating with Valley Vision to begin the process of exploring an Agriculture Ordinance for the City.
- Hosted an Ag Business Workshop to connect businesses with funding, exporting, and marketing resources.
- Finalized Purchase Option Agreements for Airport Way City-owned properties.

Housing: The City Council approved the FY 2017-18 Annual Action Plan allocating a total of approximately \$7.6 million in Federal funds towards affordable housing programs and projects, emergency housing and shelters, economic development programs and other public services. Other Housing-related initiatives underway or approved include:

- A total of \$1.66 million in Federal and Low-Income Housing funds were awarded to several affordable housing development projects in February 2018, including one that would create permanent housing for the homeless. Once completed, these projects combined would create an estimated 195 affordable housing units.
- Public Facilities Fees exemptions for new affordable housing projects constructed within the Stockton city limits (and not just limited to downtown).

ECONOMIC DEVELOPMENT DEPARTMENT

- Residential Neighborhood Reinvestment program enabling new homeowners and investors to forgive City liens to renovate blighted properties.
- Adopted the Homeless Housing Mitigation Fund program

Successor Agency: The Successor Agency approved a Recognized Obligation Payment Schedule in January 2018 to utilize Redevelopment Property Tax Trust Funds (former Tax Increment) to meet the obligations of the former Redevelopment Agency. Funding for debt, administration, and City loan payments in excess of \$5 million were included in the schedule. Twenty percent (20%) of the City loan payments must be used for affordable housing.

Parking and Venues: The centralized management of parking assets, marina assets, and entertainment venues continues to improve efficiencies in planning, parking, and coordination of the events, as well as improve business and customer services. In FY 2018-19, the Parking Authority is proposing to replace on-street parking meters, garage equipment, and parking enforcement equipment with innovative, parking technology. The implementation of this new technology will provide real time data regarding the day to day operations, tighter internal controls, improved enforcement efficiency, as well as better support options for downtown businesses. Beginning in FY 2017-18 and continuing into FY 2018-19, there will be additional improvements to the parking facilities, including LED lighting, interior painting, wayfinding and signage to better serve patrons of Downtown Stockton. These implementations will further improve operational efficiency in each of the parking and venues operations, and will also help to attract new and returning venue attendees, consumers, and business partners to Downtown Stockton and the surrounding areas.

PRIOR YEAR ACCOMPLISHMENTS

Some highlights of the Departments accomplishments in FY 2017-18 include:

- Assisted 32 new or expanding business, creating more than 400 new jobs in 2017.
- Facilitated the development of more than three million square feet of industrial space, including CT Realty/NorCal Logistics, Buzz Oates, Phelan Development, and Amazon which will result in thousands of new jobs once completed.
- Adopted a Short-term Fee Deferral Program.
- Completed a Food and Agriculture Action Plan and initiated an Economic Gardening Program.

In 2017, the Successor Agency received approval to repay approximately \$1.8 million to the City for loans provided to the former Redevelopment Agency. Payments to the City's Community Development Block Grant and Capital Improvement funds totaled \$1.7 million, and approximately \$100,000 was repaid to the City's Parking and General Funds. From these payments, approximately \$360,000 was used for affordable housing projects.

The Housing Division funded several single-family and multi-family projects. During the year 176 rental units were rehabilitated or constructed and rented to low income households at four complexes. In addition, 4,578 homeless people received housing and shelter with the City's Emergency Solutions Grant funds.

ECONOMIC DEVELOPMENT DEPARTMENT

With the transition of the previous operator, the Stockton Downtown Marina experienced substantial operational clean up in FY 2017-18, including the removal of eight derelict or abandoned vessels, the issuance of a new wharfage contract, and extensive maintenance and repair on the lighting, fire monitoring system, sails, and gates.

The entertainment venues continued to see growth in number of events and attendees. A total of 220 events, and over 600,000 attendees are anticipated to visit the event venues combined by the end of FY 2017-18, which is an increase of 11% in events, and 25% in attendees as compared to FY 2016-17. Oak Park Ice Rink offered new programs including “Try Skating for Free” and “Try Hockey for Free” that allow children to try these sports at no cost. Over 257 kids participated in the program, with many moving into youth hockey and the “Learn to Skate” programs.

The City acquired the Waterfront Office Towers buildings in January 2018 to serve as the permanent City Hall.

KEY CONSIDERATIONS

Staff will continue to provide management and oversight of the Waterfront Office Towers buildings until space planning, design, and improvements phase begins. In addition, there is a need to continue review and analysis of future plans for the Historic City Hall Building.

In November 2016, the third-party operator for the Downtown Marina facility terminated their agreement to manage the Stockton Downtown Marina. In the interim, the Marina was under the direct operation of City staff, while a competitive bidding process for a new operator took place. A management contract naming SMG as the new Marina operator was approved by the City Council and executed in March 2018. The Marina operation will transition from City staff, to SMG, with full operational management by SMG beginning FY 2018-19.

ECONOMIC DEVELOPMENT DEPARTMENT

COMMUNITY DEVELOPMENT BLOCK GRANTS (052, 054, AND 062)

PROGRAM DESCRIPTION

The Community Development Block Grant (CDBG) Program is authorized under Title I of the Housing and Community Development Act of 1974, as amended. The program must primarily benefit low and moderate-income persons. The primary objective of the Act is the development of viable communities by providing decent housing, suitable living environment, and expanded economic opportunities. The City receives a formula based annual entitlement from the U.S. Department of Housing and Urban Development (HUD).

The City uses twenty percent of its annual grant entitlement and program income for administrative costs. The CDBG budget includes the following components:

- Program Delivery and Administration – costs attributed to CDBG projects including staff costs, reporting, and project costs.
- Housing Loan Pool – housing programs for low income households.
- Sub-Recipient Assistance – funds provided to local non-profit organizations for public services and projects.
- Economic Development Programs – programs to assist businesses, including the Commercial Façade and Micro-Business Loan programs.
- Debt Service – repayment of two federal Section 108 Loans used to partially fund projects such as Dean DeCarli Waterfront Square, Stockton Arena, Stockton Ballpark, and Downtown Stockton Marina.

In FY 2017-18 the CDBG entitlement decreased by 8% from the prior fiscal year. Two single family rehabilitation projects were completed or are underway and four Commercial Façade Loans were approved and are underway.

KEY CONSIDERATIONS

For FY 2018-19, the annual CDBG budget is based on the FY 2017-18 entitlement and includes estimated remaining prior years' grant entitlement funds, and estimated program income.

A key priority goal of City Council is to develop solutions that address housing infrastructure for the homeless. To help address this issue, the City awarded \$300,000 of CDBG funds for permanent housing for the homeless household's project in FY 2017-18. The FY 2018-19 budget assumes \$800,000 for homeless initiatives.

EMERGENCY SOLUTIONS GRANT (057)

PROGRAM DESCRIPTION

The City receives an annual federal entitlement of Emergency Solutions Grant (ESG) funds. ESG funds can be used for five program components: street outreach, emergency shelter, homelessness prevention, rapid re-housing assistance, and Homeless Management Information System; as well as administrative activities. The City's sub-recipients use ESG funds to operate homeless shelters and services and to provide rapid re-housing assistance. The City's ESG funding is fully committed each year to local homeless shelters, homeless service providers and a minor allocation to program administration.

The City can use up to 7.5% of its allocation for administrative activities. ESG funds are required to be matched 100% with other funding by the sub-recipient. The City has 180 days to obligate all funds, except for the amount for administrative costs. All ESG funds must be expended within 24 months after the U.S. Department of Housing and Urban Development (HUD) signs the grant agreement with the City.

In FY 2017-18, the City's annual entitlement increased 3% from the prior fiscal year. In addition, HUD awarded a one-time additional \$607,521 in Supplemental ESG funds to serve people experiencing homelessness.

KEY CONSIDERATIONS

Currently, the City's annual ESG entitlement is unknown due to delays at the federal level, so the FY 2018-19 budget is based on the FY 2017-18 entitlement. The City will continue to use ESG funds to address the needs of the homeless community.

HOME INVESTMENT PARTNERSHIP PROGRAM (HOME) FUND (058 AND 059)

PROGRAM DESCRIPTION

The federal HOME program was created by the National Housing Act of 1990, as amended. The objectives of the HOME Program are to provide decent affordable housing to lower-income households; strengthen the ability of state and local governments to provide housing; and leverage private-sector participation. The City uses HOME monies to fund a wide range of activities including building, buying, and/or rehabilitating affordable housing for rent or homeownership or providing direct rental assistance to low-income people. It is the largest Federal block grant to state and local governments designed exclusively to create affordable housing for low-income households.

The City's HOME budget includes the following components:

- Program Delivery and Administration - Includes the general costs associated with the administration and oversight of the HOME Program. Ten percent of its annual entitlement plus program income received can be used toward administrative costs.
- Community Housing Development Organization Set-Aside – HUD regulations require that 15% of the City's HOME allocation be reserved for community-based organizations that develop affordable housing.
- Housing Loan Fund – housing programs for low income households including single-family rehabilitation, down payment assistance, and multi-family residential projects.

KEY CONSIDERATIONS

For FY 2018-19, the City's amount of the annual HOME entitlement is unknown due to a delay in Federal budgeting. The budget is based on the City's FY 2017-18 entitlement and includes estimated entitlement and program income.

Based on the Council's strategic priorities, in 2017 the City issued a Notice of Funding Availability of approximately \$1.6 million of affordable housing funds to provide gap financing for new construction and rehabilitation activities that will result in the provision of housing affordable to households with incomes at or below 80 percent of the Area Median Income.

SPECIAL PURPOSE CDBG LOAN PROGRAMS FUND (053)

PROGRAM DESCRIPTION

This fund was established to manage one-time Community Development Block Grant (CDBG) special purpose grants and loans. Federal U.S. Department of Housing and Urban Development entitlements such as Economic Development Initiative, Brownfields Economic Development Initiative (BEDI) and CDBG-R have moved through this fund in previous years.

KEY CONSIDERATIONS

In FY 2015-16, the City received its final reimbursement of \$1.1 million in BEDI funds which were transferred back to the General Fund in FY 2016-17.

No additional activity is planned for this fund.

STATE OF CALIFORNIA FUNDING CAL HOME (060) / HELP (061)

PROGRAM DESCRIPTION

In prior fiscal years, the City received approximately \$1.1 million in State HELP funding, fully expended it, and the debt to the State of California was paid in full in FY 2010-11.

The City received approximately \$1.5 million in State CalHOME funding in prior fiscal years, and fully spent all grant funds. CalHOME funding may be used for single-family rehabilitation projects and down payment assistance to benefit low and moderate-income persons and families.

The City continues to recycle program income from housing loan repayments under both HELP and CalHOME back into additional low and moderate-income housing loans.

KEY CONSIDERATIONS

CalHOME program income will be used to fund down payment assistance or rehabilitation loans.

ECONOMIC DEVELOPMENT DEPARTMENT

NEIGHBORHOOD STABILIZATION GRANT (063 AND 064)

PROGRAM DESCRIPTION

The City was awarded \$16.3 million of Neighborhood Stabilization Program Grant (NSP) funding in 2009 and 2011. The City used those funds to acquire 107 foreclosed homes, rehabilitate them, and sell them to qualified low and moderate-income buyers. Five rehabilitated apartment complexes have been completed and are providing 119 units for low income households. These rental projects utilized HOME and NSP funds. 25% of NSP funding is required to be used for households with incomes below 50% of Area Median Income.

KEY CONSIDERATIONS

The City has fully committed all of its NSP funds. Remaining projects include: Dream Creek, a single-family home ownership project, and Hunter Street Apartments, a 72-unit multi-family rental project. These projects were underway in FY 2017-18.

BOAT LAUNCHING FACILITIES FUND (045)

PROGRAM DESCRIPTION

The City maintains boat launching facilities at Louis Park and Buckley Cove. A third boat launching facility, Morelli Park, can be found in the Downtown Stockton Marina Fund which is operated by a third party in unison with the Downtown Marina. This Fund receives launching fees collected from vehicles that launch boats at Buckley Cove. Expenditures from the fund provide dock and landscape maintenance at Louis Park and Buckley Cove and cover security services/fee collection personnel. When sufficiently accumulated, the fund balance will be utilized to dredge Buckley Cove, dock infrastructure improvements, traffic control devices, and parking lot maintenance and landscaping.

KEY CONSIDERATIONS

Launching fees are expected to increase slightly in FY 2018-19 due to improved control of the hyacinth in the waterways and increases in boat launching and park usage. A minimal increase to expenses is also anticipated for FY 2018-19 to support wage increases for ongoing security.

ENTERTAINMENT VENUES FUND (086)

PROGRAM DESCRIPTION

The City owns four specialty sports and entertainment venues; the 12,000 seat Stockton Arena, 5,000 seat Stockton Ballpark, 2,042 seat Bob Hope Theatre, and Oak Park Ice Rink. These venues are managed by SMG, a worldwide entertainment and convention venue management corporation, pursuant to a contract approved by Council in 2011. SMG develops an annual operating budget and capital repair and improvement plan budget as part of its Annual Report, which is submitted to the City each year. The Entertainment Venues Fund budget represents the SMG operating fund, direct City expenditures, and an allocation for maintenance repairs and improvements. The venues continue to require a subsidy from the General Fund.

KEY CONSIDERATIONS

The FY 2018-19 subsidy of approximately \$3.4 million will remain flat to the previous three year's allocation and includes planned maintenance projects. The venues' operating revenue estimate includes a projected 17% increase, based on increasing trends in event bookings and attendance at the Arena and Bob Hope Theatre. Due to growing demand for ice time and concession sales, Oak Park Ice Rink is also anticipated to experience increased revenue. The venues' operating expenditure budget is anticipated to increase overall by 9%, largely due to the state mandatory minimum wage increase, increases in ancillary services and supplies, and continuing building/systems preventative maintenance and repairs.

An estimated 400,000 people will attend 220 events at the Bob Hope Theatre and Stockton Arena in FY 2018-19. Additionally, an estimated 170,000 people will attend games or events at the Ballpark and approximately 30,000 people will visit the Ice Rink. Attendance at events will continue to provide positive exposure to the City, and direct and indirect benefits to the community through increased economic activity, hotel stays, and local tax proceeds. Finally, FY 2018-19 includes the addition of the Stockton Kings as a new tenant of the Stockton Arena. The Stockton Kings are a professional basketball team of the NBA G League, owned and operated by the Sacramento Kings. The Arena will be host to the Stockton Kings' 25 regular season home games.

ECONOMIC DEVELOPMENT DEPARTMENT

PARKING AUTHORITY FUND (418 AND 419)

PROGRAM DESCRIPTION

This fund maintains and operates the downtown parking garages, lots, and meters; and parking compliance. Prior to FY 2014-15 all downtown event parking was provided through the Central Parking Division. In FY 2013-14 the City Council established a Parking Authority to oversee the City's parking programs within the Downtown Parking District. In FY 2014-15, the Parking Authority approved an agreement with SP Plus Corporation to operate and manage the parking facilities within the District. In August 2015, the Department assumed parking enforcement responsibilities.

KEY CONSIDERATIONS

Due to ongoing parking meter theft, parking revenues experienced a drastic reduction in FY 2017-18. Over the course of a year, nearly 1,400 parking meters were stolen, resulting in an approximate \$700,000 deficit to on-street, hourly, and monthly parking revenue. Significant capital investment from this Fund is planned for early FY 2018-19, which will include the purchase and installation of new parking technology. Pay-by-plate machines are proposed to replace meters on the street, and license plate recognition technology is proposed for some of the downtown parking garages and enforcement vehicles. The implementation of this new technology will not only provide real-time data regarding the day-to-day operations, it will also allow for tighter internal controls and improved enforcement efficiency.

The Fund will see minimal changes to the parking administrative and operating budgets. FY 2018-19 revenues are budgeted to increase by 8%, primarily due to increases in special event parking revenue, and anticipated replacement of on-street payment machines. FY 2018-19 expenses for are budgeted to increase by 5%, based on the state-mandated increase in the minimum wage.

In FY 2018-19, an opportunity exists for the City to pay off debt and save approximately \$2.0 million. The Parking Authority fund could borrow from internal service fund reserves for workers compensation claims projected to be paid more than ten years in the future and use that cash to pay off existing debt with interest rates over 4%. The Parking Authority fund would then make scheduled loan payments to the Workers Compensation fund at a 2% rate, which is what the City's investments have historically yielded.

ECONOMIC DEVELOPMENT DEPARTMENT

DOWNTOWN MARINA COMPLEX FUND (460)

PROGRAM DESCRIPTION

This fund operates, maintains, and services the debt for the Downtown Stockton Marina. The Marina has been in operation for nine years providing permanent slips and short-term berthing as well as management of the Morelli Park Boat launch. The Downtown Marina continues to require a subsidy from the General Fund.

In FY 2009-10, the City approved an agreement with Westrec, a third-party operator, to manage and operate the Stockton Downtown Marina. In November 2016, Westrec terminated its operating agreement with the City, causing the Marina operation to be provided directly by City staff until the contract could be re-bid. On March 20, 2018, Council approved awarding the contract to SMG.

KEY CONSIDERATIONS

Revenues for FY 2018-19 are budgeted to increase by 61% primarily due to the presence of a dedicated Marina operator and addition of a sundry shop. SMG will be able to devote more resources and effort to event related promotions for guest docking and monthly patrons. Expenses for FY 2018-19 are budgeted to increase by 27% to support a full staff of Marina employees, including a full-time Marina Manager, as well as additional marketing and promotional efforts.

The General Fund subsidy will be increased to \$262,000 to address maintenance and safety concerns, such as increased security, electrical parts and repairs, dock access system replacement, and a new operator management fee.

TAB 10 UTILITIES

MUNICIPAL UTILITIES

MUNICIPAL UTILITIES DEPARTMENT

MISSION STATEMENT

The Municipal Utilities Department mission is to provide high-quality drinking water on demand; collect, treat, and dispose of wastewater; and collect and dispose of stormwater, all in accordance with applicable regulations and responsible business practices.

Budget at a Glance:

Total Revenues	\$131,726,232
Total Expenditures	\$136,030,719
Total Net Cost	\$4,304,487
Total Staff	217

DEPARTMENT DESCRIPTION

The Municipal Utilities Department (MUD) is comprised of the Water, Wastewater, and Stormwater Enterprises, which are regulated for the protection of public health, the environment, and supported by user fees restricted to the specific Utility. For operational efficiency, the department includes 12 divisions that operate, maintain, and support the Enterprises. Additionally, the Enterprises are managed to recognize the independent financial structure and regulatory requirements unique to each.

The Water Utility provides drinking water service to approximately 55% of the Stockton Metropolitan Area, with the California Water Service Company and San Joaquin County serving the remaining 45%. The Delta Water Supply Treatment Plant began operation in May 2012, providing up to 30 million gallons per day of treated surface water from the Sacramento/San Joaquin Delta and Mokelumne River. Stockton's other water supply is derived from a water supply agreement with the Stockton East Water District and 21 groundwater wells. The Water Utility maintains a water transmission and distribution system that includes eight reservoirs, 590 miles of pipeline, 48,000 water meters and 7,000 fire hydrants. The Water Utility also provides long term water resources planning and supports a water conservation program.

The Wastewater Utility features a collection system of approximately 900 miles of gravity sewer main, 554 miles of lower lateral pipe, 27 pump stations, and 30 miles of pressurized force main that route sewage to the Regional Wastewater Control Facility. The system collects sewage from many properties within the City, special districts outside the City, and certain areas within San Joaquin County. The Facility has a 55 million gallon per day advanced treatment capacity and is located on nearly 700 acres in the southwestern portion of the City, adjacent to the San Joaquin River. On average, the Facility treats 30 million gallons of wastewater daily and discharges into the San Joaquin River, under a National Pollutant Discharge Elimination System permit.

The Stormwater Utility consists of 74 pump stations, over 600 miles of pipeline, and 22,500 drain inlets that route stormwater from city streets into local basins and waterways. Regular system maintenance is necessary to prevent flooding from storm runoff. The Stormwater Utility is also responsible for oversight and compliance with the City's National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System permit, which requires extensive water quality monitoring and public outreach programs to promote pollution prevention in the San Joaquin Delta.

MUNICIPAL UTILITIES DEPARTMENT

DEPARTMENT STRATEGIC WORK PLAN

An important FY 2018-19 priority is the Regional Wastewater Control Facility (RWCF) Modifications Project to improve wastewater treatment processes. The RWCF upgrades and improvements were identified in the 2011 Capital Improvement and Energy Management Plan (CIEMP) and are necessary to meet treated wastewater discharge limits stipulated by the Central Valley Regional Water Quality Control Board. The project has been progressing steadily, with 25% design plans currently under review. The design incorporates upgrades to achieve treated wastewater limits by June 1, 2024. Biosolids and energy production are not part of the current RWCF Modifications Project but have been identified as future phases of the CIEMP.

Additionally, in FY 2018-19, the Wastewater Utility intends to contract for a comprehensive rate analysis to evaluate the level of revenue necessary to fully support the Utility. The City completed the last wastewater rate study in 2009, and this effort is not only timely but also meets the Council Strategic Goal for Fiscal Sustainability.

Also, in 2015, the State Water Resources Control Board (State Water Board) adopted a statewide Trash Provision Order to address the beneficial uses of our surface waters. The water quality objective established by the Trash Provisions serves as a water quality standard, federally mandated under the Clean Water Act section 303(c), and the federal regulations (33 U.S.C. § 1312, 40 C.F.R. § 131.) The City of Stockton does not currently have a funding mechanism in place to meet the Trash Provision Order. In 2017, the City of Stockton Stormwater Division conducted a Trash Amendment Compliance and Planning Level Cost Analysis, which found that significant additional funding over the next 20 years is necessary to maintain compliance with the Order. For background, the City attempted a Proposition 218 ballot measure in 2010 to approve a new Clean Water fee that would supplement the current fee. The rate study prepared for the Proposition 218 ballot determined the Utility was under-funded by approximately \$9 million a year. The ballot measure failed, and the new Clean Water fee was not implemented. The possibility of advancing another ballot measure in FY 2018-19 to provide needed funding for this Utility is currently under review. This effort too meets the Council Strategic Goal for Fiscal Sustainability. The Department is committed to ensuring the City meets water quality objectives to protect public health and the environment.

MUNICIPAL UTILITIES DEPARTMENT

PRIOR YEAR ACCOMPLISHMENTS

Engineering:

- Prepared Cogeneration Engine #1 and #4 overhaul bid documents, selected a contractor and managed the engine and generator rebuild project.
- Designed and managed the construction of biotower #4 and #5 arm replacements.
- Completed contract negotiations for the following projects:
 - Delta Water Supply Project – Intake Pump Station Repair and Improvements.
 - Storm and Sanitary Sewer Pump Stations and Force Mains Cathodic Protection Improvements.
 - Water Service Lateral Replacements.
 - Harding Way and Wilson Way Storm Sewer Pump Station Improvements.

Maintenance:

Main Plant

- Replaced the floor and rails in Primary Sedimentation Basin #1.
- Added a clutch drive system to Primary Sedimentation Basin #7.
- Completed Gaseous to Liquid Hypochlorite Disinfection System.
- Replaced Chlorine Contact Channel safety net.

Pump Stations

- Significant sanitary sewer overflow due to failed pump at 14 Mile Sanitary Pump Station avoided.
- Completed Legion Storm Pump station rebuild.
- Completed Eighth Street Storm engine rebuild.
- Completed Cumberland isolation valve replacement.
- Completed two isolation valve replacements at North Pump Station.
- Completed Quail Lakes engine rebuild.

Delta Water Treatment Plant

- Replaced valves on membrane skids.
- Rebuilt one Flocculation/Sedimentation sludge collector system.
- Replaced Ozone IGBT circuit board.
- Redesigned the river intake log boom attachment system.

MUNICIPAL UTILITIES DEPARTMENT

Stormwater Collections:

- Met the Storm Water Coalition Settlement Agreement requirement to clean and inspect 1,000 direct discharge catch basins.
- Installed a pilot “Full capture” storm water screen on Lower Sacramento Road prior to the entrance of the lift station to test effectiveness and assess the maintenance needed with a full capture device.
- Cleaned more than 50% of the Storm Water pump stations.
- Inspected 2,556 catch basins and stenciled 1,649 catch basins.
- Repaired the Buena Vista Storm Pump station 24” discharge pipe.

Stormwater:

- Completed a Trash Amendment Compliance and Planning Level Cost Analysis to comply with the Trash Amendment implementation.
- Met regulatory deadline for the full capture system equivalency selection, in compliance with the Trash Amendment.
- Complied with the Stormwater Coalition Settlement Agreement.
- Revised commercial inspection process to better align program outputs to National Pollutant Discharge Elimination System (NPDES) permit requirements.
- Revised industrial inspection process to better align program outputs to NPDES permit requirements.

Wastewater Collections:

- Conducted efficient collection system routine maintenance resulting in a nearly 50% decrease in sanitary sewer overflows over the last year. At the end of calendar year 2017, there were 66 overflows, compared to 110 in 2016.
- Corrosion and odor control projects in the industrial area of System 8 (Pock Ln.) and System 3 (Sanguinetti pump station). Staff is continuing to study dosing at Swenson Park (North pump station) to control corrosion and odors emanating from the northern portion of the City. A study and proposal to dose downstream of North pump station is complete and a Purchase Order to acquire all the equipment and chemicals is currently in progress.
- Completed the biennial internal audit of the FY 2016-2020 Sewer System Management Plan.
- Completed the first phase of a root control project and will soon have the contractor performing follow-up CCTV inspection to verify the effectiveness of their work.
- The Collection System Asset Management and Master Plan for the City’s Gravity Sanitary Sewer Collection System, executed by HDR, is nearing completion. The final report is being completed and expected to transition to the MUD Engineering Division to generate Capital Improvement Projects (CIP). The project will serve as a management tool, not only for making immediate repairs and/or replacement decisions but also for future CIP projects to rehabilitate gravity sewers.

MUNICIPAL UTILITIES DEPARTMENT

Wastewater Operations:

- Replaced several chemical storage and delivery tanks to improve dosing management and storage capacity.
- Carried out a new treatment process pilot test to remove excess sludge from the treatment ponds.
- Implemented a regulatory reporting responsibilities transition program as part of succession planning.
- Laboratory staff has been attending workshops and informational seminars on the new Unregulated Contaminant Monitoring Rule 4 compliance regulations. This training has been in advance of the new lab protocols expected from the State.

Water Resources:

- Revised the Stockton Municipal Code to be compliant with the State Water Resources Control Board order related to water conservation.
- The City has elected and joined the Sustainable Groundwater Management Act Joint Powers Authority for the Eastern San Joaquin Groundwater Sub-Basin.

KEY CONSIDERATIONS

Key considerations for the Municipal Utilities Department Enterprises are addressed in the following sections for each utility.

MUNICIPAL UTILITIES DEPARTMENT

WATER ENTERPRISE FUND (421, 423-427)

PROGRAM DESCRIPTION

The Water Enterprise Fund supports the operation and maintenance of the City's Water Utility. In addition to water user rate fees, developer impact fees fund the capital improvement program.

KEY CONSIDERATIONS

Beginning in 2016 the City implemented a water rate increase of 38.5% over a 5-year period. The first increase of 18.5% was implemented on August 1, 2016; the second, of 11%, was effective July 1, 2017 and the third, of 3%, will become effective July 1, 2018.

As part of the water rate increases, Council adopted the use and implementation of the Drought Surcharge, an additional per unit charge that may be added to consumption charge rates and activated by a declared water reduction due to conservation efforts. Updating the Drought Surcharge each time the water rates are revised maintained the sufficient revenue levels necessary to fund the operating and capital needs of the Water Utility during times of drought and reduced consumption levels.

Since the State's declaration of a drought emergency, the Water Utility had seen a 28% decline, on average, in water consumption throughout its service area, due to significant water conservation efforts. However, in FY 2017-18, water consumption grew 12% in comparison with FY 2016-17, resulting in an increase in revenue. Due to the increase in revenue in FY 2017-18 and higher consumption projections for FY 2018-19, the City is suspending the Drought Surcharge.

Properly and adequately funding capital improvement needs for renewal and replacement projects is a key component in developing the water revenue requirement. As existing infrastructure needs replacement, the Utility is making continual investments to maintain the integrity of the facilities. Although capital improvements are limited, the FY 2018-19 budget proposes to initiate the first year of funding for Delta Water Treatment Plant membrane filter replacement over a seven-year period, at which point the cycle will begin again, accounting for annual depreciation.

Continued changes in water use requirements from the State of California create uncertainty in expected customer water use and corresponding Water Enterprise revenue.

MUNICIPAL UTILITIES DEPARTMENT

WASTEWATER ENTERPRISE FUND (431, 433, 434, 435, 437, 438)

PROGRAM DESCRIPTION

The Wastewater Enterprise Funds supports the operation and maintenance of the City's Wastewater Utility. The Utility is supported by user fees, restricted to the Wastewater Utility use only.

KEY CONSIDERATIONS

A Consumer Price Index rate adjustment was not implemented in FY 2017-18, and there will be no rate increase again in FY 2018-19. The Wastewater Utility has commenced a comprehensive rate study to evaluate the level of revenue necessary to fully support the Utility. The study is expected to be completed in FY 2018-19.

The RWCF Modifications Project, being delivered under a Progressive Design-Build contract, is currently in process to improve the wastewater treatment processes. Currently, 25% of the design plans are under review. The design incorporates upgrades mandated by the Central Valley Regional Water Quality Control Board for new nitrate discharge limits. The upgrades are required to be in effect by June 1, 2024.

As mentioned in the Department Strategic Work Plan, biosolids and energy production are not part of the Progressive Design-Build contract but need to be evaluated to meet changing regulations and improved process. The FY 2018-19 budget includes funding for a consultant to compare current biosolid management and energy production and use with regulatory changes to land application; removing Fats, Oils, and Grease from the primary treatment process; and managing increased energy production with the upgraded treatment processes.

The completion of the Asset Management Plan for the City's Gravity Sanitary Sewer Collection System will serve as a management tool not only for making immediate repairs and/or replacement decisions but also for future capital improvement program projects to the City's Sanitary Sewer Collection System. Considerations for funding those improvements will be part of the comprehensive rate study.

MUNICIPAL UTILITIES DEPARTMENT

STORMWATER ENTERPRISE FUND (441, 447)

PROGRAM DESCRIPTION

The Stormwater Enterprise Funds supports the operation and maintenance of the City's Stormwater Utility. The Stormwater Utility is supported by user fees which are restricted for Stormwater Utility use only.

KEY CONSIDERATIONS

The Stormwater Utility is funded by a fee that was implemented in 1992. As a result, the Stormwater Enterprise Fund has been under-funded for a number of years. As described in the Department Strategic Work Plan, the City attempted a Proposition 218 ballot measure in 2010 to approve a new Clean Water fee that would supplement the current fee. The rate study prepared for the Proposition 218 ballot determined the Utility was under-funded by approximately \$9 million a year. The ballot measure failed, and the new user fee was not implemented. The possibility of advancing another ballot measure in FY 2018-19 to provide needed funding for this Utility is currently under review.

As stated, the current fee is insufficient to fund the operations and maintenance needs of the City's aging stormwater and flood control system. Additionally, the Central Valley Regional Water Quality Control Board issued a new Interim Municipal Separate Storm Sewer System NPDES Permit in 2015 that imposes additional requirements on the Stormwater Utility. Significant cuts in operation and maintenance activities have been implemented to stay within the available budget. Insufficient funding to maintain the City's aging infrastructure increases the potential for system failures and deterioration, such as flooding during heavy rain events, among other impacts. In FY 2018-19, significant infrastructure improvement projects continue to be on hold pending necessary funding. However, emergency infrastructure repairs and costs due to vandalism are being completed, resulting in reduced funding for operations and maintenance activities.

As mentioned in the Department Strategic Work Plan, the State Water Resources Control Board (State Water Board) adopted statewide Trash Provisions in 2015 to protect beneficial uses of our surface waters. The water quality objective established by the Trash Provisions serves as a water quality standard, federally mandated under the Clean Water Act section 303(c), and the federal regulations (33 U.S.C. § 1312, 40 C.F.R. § 131.) The City of Stockton does not currently have a funding mechanism in place to meet the Trash Provision Order. In 2017, the City of Stockton Stormwater Division conducted a Trash Amendment Compliance and Planning Level Cost Analysis, which found that significant additional funding over the next 20 years is necessary to maintain compliance with the Order. The MUD is committed to ensuring the City meets water quality objectives to protect public health and the environment.

MUNICIPAL UTILITIES DEPARTMENT

CONSOLIDATED STORM DRAIN MAINTENANCE DISTRICT AND 5 STORM DRAINAGE BASIN DISTRICTS (074)

PROGRAM DESCRIPTION

The Storm Drainage Maintenance Assessment Special Districts were formed under the Municipal Improvement Act of 1913, Division 12 of the California Streets and Highways Code, and the Stockton Improvement Procedure Code. They are managed by the Municipal Utilities Department. The Districts provide for the maintenance and operation of capital improvements that impart a special benefit to a designated area, including stormwater quality treatment and/or flood control.

The Special Districts require an annual Engineer's Report to identify the budgets, changes to boundaries and assessments for each parcel contained within each District. The budgets for each District include engineering fees for the preparation of the annual Engineer's Report and tax rolls; attorney's fees; estimated costs of maintenance work to the device(s); City administrative costs; County costs to collect the assessments on the tax rolls; replacement reserve costs; and contingency fees. City administrative costs include staff salary expenses to oversee the annual Engineer's Report and tax rolls, maintenance service contracts, coordinate device inspections and maintenance schedules, as well as District finances management. The assessments are approved by a separate public hearing process.

Prior to FY 2014-15, Special Districts were accounted for in Fund 072, along with the Landscape Maintenance Assessment Districts in the Public Works Department budget.

KEY CONSIDERATIONS

The contract for basin maintenance services for storm drainage maintenance assessment districts runs through FY 2019-20, with two possible one-year extensions.

The budgets include the individually-approved budgets for the Consolidated Storm Drain Maintenance District and each of the 5 Storm Drainage Basin Districts. Specific details of the budgets and assessments for each District can be found in the approved Engineer's Reports, which are on file with the City Clerk.

The Public Hearing and approval of the Engineer's Reports and Assessment Rolls will be presented to City Council in June 2018. There will be no increase to the assessments in FY 2018-19.

OFFICE OF THE CITY COUNCIL

MISSION STATEMENT

The mission of the City Council is to serve the community by providing innovative, courteous and responsive service; promoting economic opportunity; enhancing the quality of life for its citizens; and building a better Stockton for future generations.

Budget at a Glance:

Total Revenues	\$0
Total Expenditures	\$748,996
Total Net Cost	\$748,996
Total Staff	10

DEPARTMENT DESCRIPTION

The City Council is the policy-setting body that initiates, studies, discusses, holds public hearings on, and decides various civic issues affecting the citizens of Stockton, based on facts gathered, represented, and citizen input. The Council hires and supervises four officers: City Attorney, City Auditor, City Clerk and City Manager.

DEPARTMENT STRATEGIC WORK PLAN

A key function of the City Council as the policy-setting body for the City is to establish strategic priorities. The City Council developed a strategic work plan including Strategic Targets and Priority Goals as outlined in the budget document. The City Council receives regular reports from the City Manager related to progress toward implementation of the strategic work plan.

PRIOR YEAR ACCOMPLISHMENTS

Important citywide accomplishments in support of the City Council strategic workplan include institutionalization of good fiscal planning and use of the Long-Range Financial Plan, resulting in the growth of financial reserves for known and unknown contingencies, and leading to national recognition for the positive financial condition of the City.

The City achieved public safety hiring goals, reaching an all-time high for sworn police officers. The Neighborhood Betterment Teams and Office of Violence Prevention reached full staffing. The City cleaned up multiple blight hot spots through community clean-ups and city programs. Overall crime was the lowest it has been in 17 years and violence reduction strategies showed progress toward reducing group gun violence.

In addition, the City implemented development incentive tools including the Short-term Fee Deferral Program and Residential Neighborhood Reinvestment Program. Progress toward the elements of the Economic Development Strategic Plan also included adoption of a Food & Agriculture Plan, Economic Gardening Program, and entrepreneurship partnerships. The City attracted the development of more than three million square feet of industrial space representing more than a thousand new jobs, facilitated dramatic growth to the University Park health care hub and assisted 32 new and expanding businesses for a total of more than 400 jobs.

Furthermore, the City received more than \$14.5 million in infrastructure grants for transit and safety projects, completed multiple street repair projects, improved utility infrastructure systems, and acquired a new City Hall building. The City also began enhancing public park and library spaces in alignment with the Strong Communities funding plan. Finally, the City allocated

OFFICE OF THE CITY COUNCIL

significant resources toward infrastructure that supports the homeless population and developed partnerships to address homelessness and the impacts of homelessness.

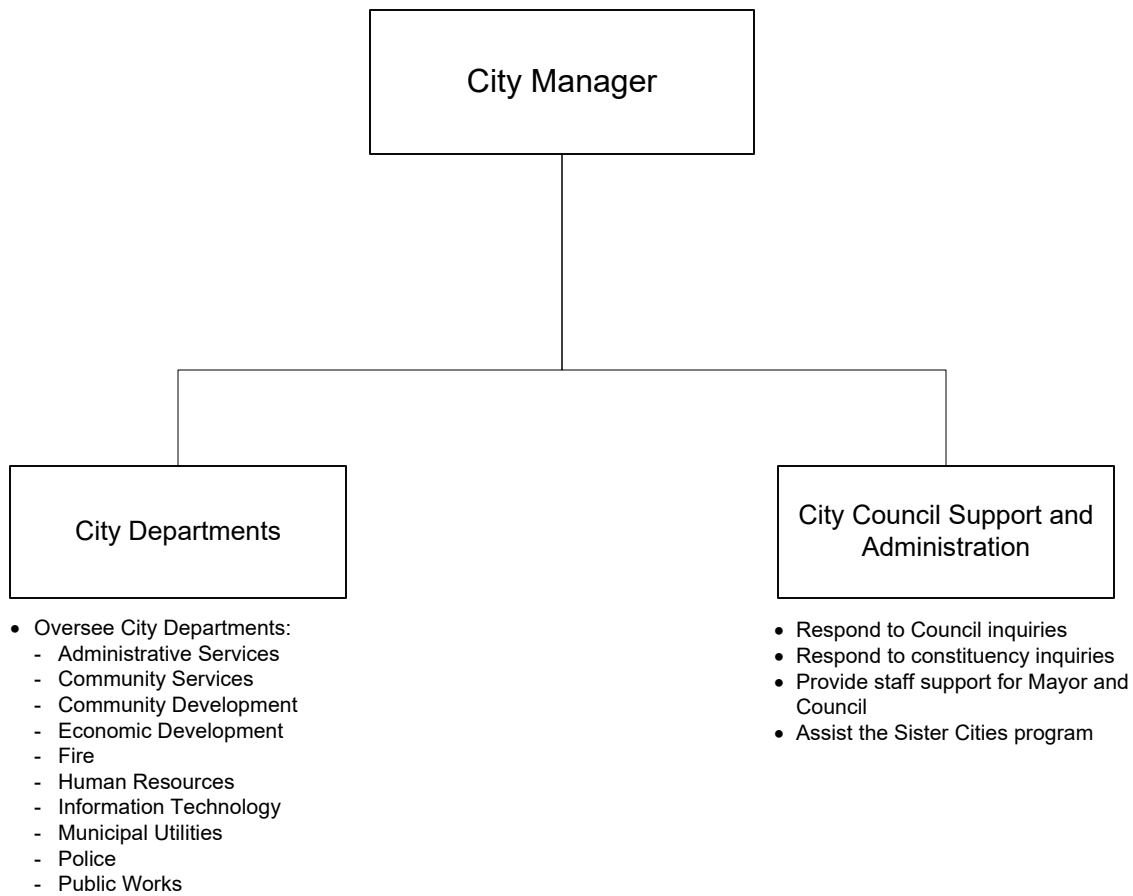

KEY CONSIDERATIONS

In recent years, the City Council has taken difficult but critical steps to restructure its finances and put in place the policies and practices which make possible a financially stable future for the City. Due to an acute imbalance between revenues and expenditures for the City, had this restructuring not occurred, the City would have had to cut services to a point that the City and community could not afford. Following several years of significant reductions in spending, the City entered the protection of Chapter 9 bankruptcy. With bankruptcy proceedings concluded, the City of Stockton has implemented the Plan of Adjustment and is committed to the Long-Range Financial Plan that will help the City sustain its restructuring efforts and chart a course for our financial future.

While the Long-Range Financial Plan does not forecast revenue increases that would allow the City to restore services to former levels, the financial restructuring effort safeguarded existing revenues to maintain the safety and well-being of our citizens. Restructuring our finances was critical to maintain fiscal sustainability and enable the City to pursue the Marshall Plan on Crime which is intended to reduce the level of crime in Stockton. A critical component of this restructuring was the passage of Measures A and B. The resources made possible by Measure A will position the City to fully implement the Marshall Plan and enable the City to implement the bankruptcy Plan of Adjustment while sustaining services. Significant progress has been made in the implementation of the Marshall Plan and expenditure of Measure A revenues. Reducing crime is essential to providing a quality of life that will encourage economic development and result in job growth and a revitalized Stockton.

In addition, the more recent passage of the Strong Communities tax measure (Measure M) provides funding specific to restoring needed library and recreation services that were severely impacted during bankruptcy. This marks a shift in growth and rebuild for City services that has not been possible in recent years.

The City Council has stayed focused throughout challenges faced in recent years and has pursued aggressive work plans to accomplish their priorities. Funds are allocated in FY 2017-18 Annual Budget targeted to these efforts. A description of these activities can be found in the departmental sections contained in the Annual Budget.

CITY MANAGER

OFFICE OF THE CITY MANAGER

MISSION STATEMENT

To provide direction and oversight of all phases of City operations, including City departments and programs, and to ensure Council goals, policy and established administrative practices are effectively carried out within the fiscal and physical abilities of the various City departments during normal operations, as well as emergency situations.

Budget at a Glance:

Total Revenues	\$0
Total Expenditures	\$1,518,264
Total Net Cost	\$1,518,264
Total Staff	12

DEPARTMENT DESCRIPTION

The Office of the City Manager provides direction and administration of City departments and general oversight of City operations under the policy direction of the City Council. Other functions within the City Manager's Office include: Office of Violence Prevention, Grants, Legislative Advocacy, Communications, Public Relations and Channel 97 Government Access Cable Channel.

DEPARTMENT STRATEGIC WORK PLAN

As a City Charter Appointed Office, the strategic work plan of the City Manager's Office is to ensure the implementation of the City Council Strategic Targets and Priority Goals as outlined earlier in the budget document. The City Manager's Office is responsible for the oversight of other City departments in developing strategic work plans in support of the City Council Priority Goals and prioritizing the work of departments based on the Council's Strategic Targets.

PRIOR YEAR ACCOMPLISHMENTS

Important citywide accomplishments in support of the City Council strategic workplan include institutionalization of good fiscal planning and use of the Long-Range Financial Plan, resulting in the growth of financial reserves for known and unknown contingencies, and leading to national recognition for the positive financial condition of the City.

The City achieved public safety hiring goals, reaching an all-time high for sworn police officers. The Neighborhood Betterment Teams and Office of Violence Prevention reached full staffing. The City cleaned up multiple blight hot spots through community clean-ups and city programs. Overall crime was the lowest it has been in 17 years and violence reduction strategies showed progress toward reducing group gun violence.

In addition, the City implemented development incentive tools including the Short-term Fee Deferral Program and Residential Neighborhood Reinvestment Program. Progress toward the elements of the Economic Development Strategic Plan also included adoption of a Food & Agriculture Plan, Economic Gardening Program, and entrepreneurship partnerships. The City attracted the development of more than three million square feet of industrial space representing more than a thousand of new jobs, facilitated dramatic growth to the University Park health care hub and assisted 32 new and expanding businesses for a total of more than 400 jobs.

Furthermore, the City received more than \$14.5 million in infrastructure grants for transit and safety projects, completed multiple street repair projects, improved utility infrastructure systems, and acquired a new City Hall. The City also began enhancing public park and library spaces in

OFFICE OF THE CITY MANAGER

alignment with the Strong Communities funding plan. Finally, the City allocated significant resources toward infrastructure that supports the homeless population and developed partnerships to address homelessness and the impacts of homelessness.

KEY CONSIDERATIONS

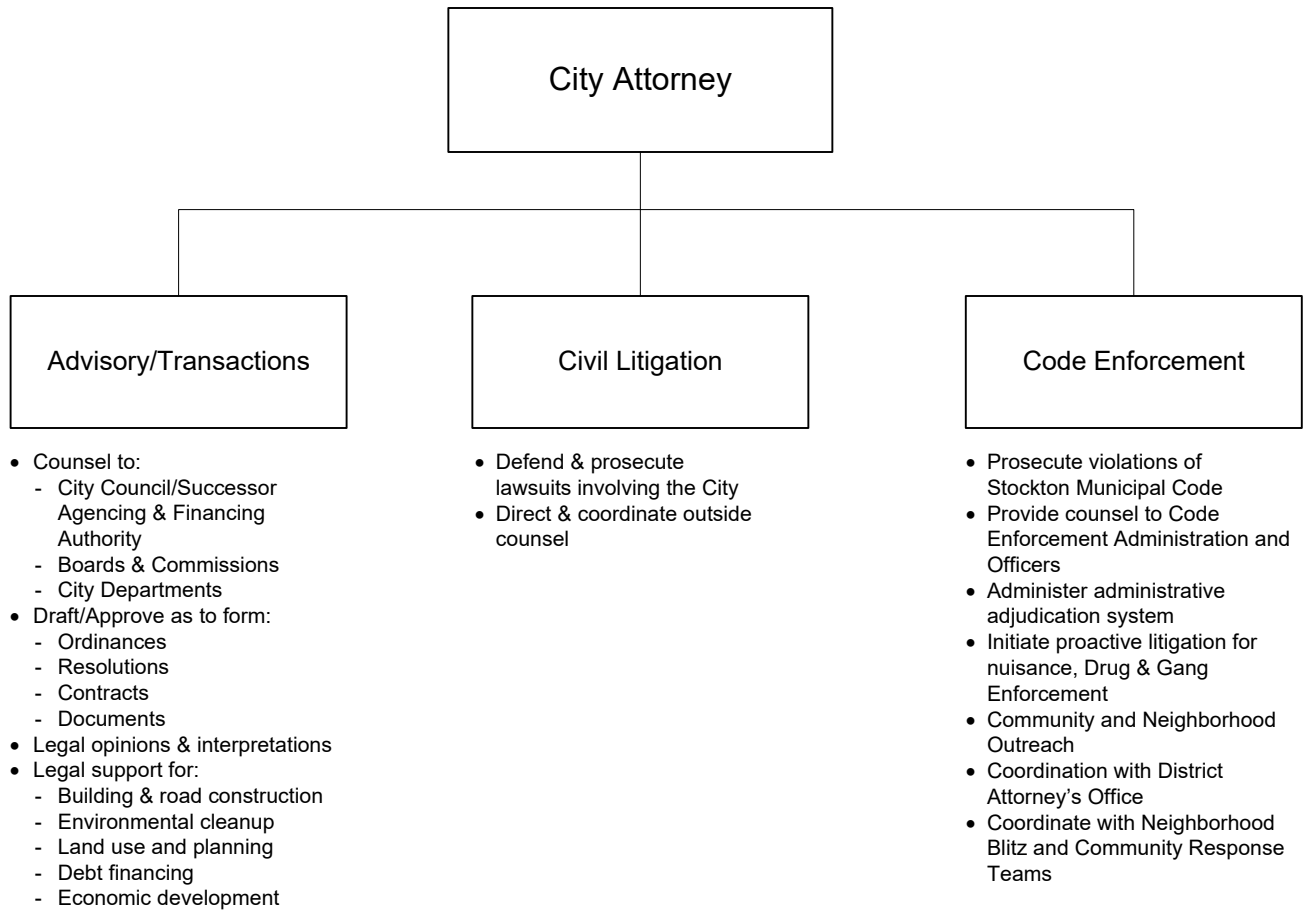

The City of Stockton has implemented the court approved Plan of Adjustment and restructured its finances by making difficult decisions for how to balance revenues and expenditures for the City. Throughout the years of declining revenues and the bankruptcy process, the City Manager's Office provided direction and oversight to City departments to address these factors and pursue the restructuring of the City's finances. With the fiscal restructuring, the City is fiscally solvent, has set aside necessary reserves and has a clear picture of our financial condition. Stockton has the unique advantage of having a 30-year economic forecast specific to the City, the Long-Range Financial Plan, which allows the City to understand the long term ramifications of fiscal decisions. The City Manager's Office will ensure that the Long-Range Financial Plan remains a financial guidepost and is institutionalized in the City organization.

These efforts have taken place at the same time that the City Manager's Office has been engaged in overseeing the regular operations of the City as well as pursuing the City Council strategic priorities. In recent years, significant progress has been made in modernizing the organization, streamlining and creating operational efficiencies, developing organizational capacity and implementing innovative solutions to the challenges of our community.

In addition, the City Manager's Office addressed a number of other priorities that have emerged through the bankruptcy process. Of particular importance is collaboration with the City Auditor in implementing the Internal Audit Plan to mitigate risk and address internal controls as well as the implementation of the Marshall Plan and creation of the Office of Violence Prevention following passage of Measure A. More recently, approval of the Strong Communities tax measure has provided funds to restore needed library and recreation services that were severely impacted during bankruptcy. The City Manager's Office will continue to make prudent financial decisions as it remains consistent in its efforts to maintain financial solvency in the future.

The City Manager's Office will continue to pursue the accomplishment of the City Council strategic priorities as well as address the numerous challenges that the City will face along the path to fiscal sustainability, reduced crime, increased economic development and improved service delivery to the community.

CITY ATTORNEY

OFFICE OF THE CITY ATTORNEY

MISSION STATEMENT

The mission of the Office of the City Attorney is to provide professional, quality legal advice and services that ultimately protect the interests of the City of Stockton, its departments, the City Council, and the citizens of the community.

Budget at a Glance:

Total Revenues	\$0
Total Expenditures	\$1,560,395
Total Net Cost	\$1,560,395
Total Staff	12

DEPARTMENT DESCRIPTION

The Office of the City Attorney provides legal services and advice to the City Council, officials, boards, commissions, and departments regarding legal and regulatory matters of concern to the City and its operations, including:

- Providing advice regarding matters relating to their official duties.
- Defending lawsuits and preparing legal opinions and documents, ordinances, and resolutions.
- Reviewing and approving contracts, bonds, deeds, and other legal documents.
- Prosecuting violations of the Stockton Municipal Code.

The City of Stockton, due to its size and complexity, suffers a significant amount of litigation filed against it annually. Managing this litigation in a cost-effective manner, without sacrificing the quality of representation, is a constant challenge that is met through the balancing of in-house and contract resources on a case-by-case basis.

The Office of the City Attorney consists of one city attorney, one assistant city attorney, six deputy city attorneys (with one position vacant), and four support staff members. This department is currently comprised of two divisions. One division is primarily focused on litigation and code enforcement. The second division is primarily focused on advisory and employment-related matters.

The department supports a significant volume of litigation and expects this activity will increase in the next fiscal year. The department has continued to increase its caseload of criminal prosecution and code enforcement matters in keeping with Council priorities and to support the City's implementation of the Marshall Plan.

DEPARTMENT STRATEGIC WORK PLAN

As a City Charter Appointed Office, the strategic work plan of the Attorney's Office is to ensure the implementation of the City Council Strategic Targets and Priority Goals as outlined earlier in the budget document. For the next fiscal year, this office will focus on competently managing its significant workload while specifically enhancing its efforts to carry forward with a more robust slate of code enforcement activities. The proposed increase in the legal services budget request reflects this priority.

Given the need for increased reliance on computer-based resources and our need to enhance training opportunities for staff, the budget proposes modest increases in several associated line items.

OFFICE OF THE CITY ATTORNEY

No increase in staff has been proposed, despite a significant increase in workload over the last fiscal year. However, the budget proposes to increase the outside counsel budget to assist in a backlog of code enforcement and other litigation cases.

PRIOR YEAR ACCOMPLISHMENTS

Code Enforcement

The City Attorney's Office, in conjunction with the Police Department, Neighborhood Services, Fire Department, Community Development, and Public Works coordinated a joint task force for attacking the City's worst problematic properties. Referred to as the STOP Team, chronic problem properties were identified, triaged and systematically addressed through a comprehensive multi-department enforcement approach. In past years, this multi-department approach resulted in the closure of the New Grand Save Market for crime and nuisance conditions and the appointment of a court receiver to ensure that the property would be rehabilitated.

During this reporting period, the STOP team took on several problematic properties, the most significant of which was the closure of the Empire Theatre Building due to dangerous conditions created by the existence of numerous and substantial fire and building code violations. This building had been the subject of code enforcement actions for many years, with very little progress. Despite signing a compliance agreement pledging to address all the serious code violation in the building, the property owner failed to meet the terms of the agreement and caused additional serious violations to occur. After the discovery of an illegal dwelling unit by the Fire Department, the Building and Fire Department determined the extreme dangerous conditions warranted immediate closure of the building to prevent a significant fire incident such as the Ghost Ship fire in Oakland. The building remains vacant despite repeated efforts by City staff to work with the property owner on repair timelines and other matters. The City Attorney's Office has pursued a nuisance abatement action against the property and continues to pursue all remedies available to bring this property into compliance with all health and safety codes.

An additional STOP case involved 322 North California, where the Fire Department and Code Enforcement found numerous people were living in a motel property without benefit of a working fire alarm system or sprinkler system. The operators of this property were the same operators of a property in Oakland that caught fire and resulted in loss of life to inhabitants due to the decrepit conditions and lack of fire warning or suppression systems. In an effort to prevent vacating the building and displacing the numerous occupants, including children, the City Attorney's Office worked with California Rural Legal Assistance representing the occupants, and the property owner's attorney to negotiate a resolution that would provide the residents with the opportunity to relocate and provide the owner with the ability to pursue eviction proceedings against the operators.

OFFICE OF THE CITY ATTORNEY

Other significant STOP cases include:

- Assisting with the demolition of a long-vacant and neglected building that plagues the Magnolia neighborhood and was the constant source of break ins and fires.
- The pursuit of a receivership action against several vacant commercial properties with an adjacent auto repair business at which it was discovered that the business tenant had illegally occupied a portion of the commercial property as a residence.
- Pursuit of a criminal prosecution against a problematic landlord who had repeatedly failed to address the code violations at the residence of an elderly couple. The violations included an extreme mold issue that exacerbated the health issues of the wife who was a cancer patient. That case is scheduled to go to trial in March of 2018.
- Beginning the initial phase of demolition of a twenty-year nuisance property on Harding Way that has been the subject of much attention. Due to the death of the owner and the uncertainty of the responsible party, and the lack of response by the bank, the City had been unable resolve this case. However, once it became a STOP case in November 2017, a consistent, focused, and systematic approach has resulted in the demolition of the most egregious portion of the structure, with the remaining structure to be demolished in the near future.

Employment Litigation

Termination Settlement Agreements. City Attorney's Office negotiated settlements beneficial to the City. Three employees resigned in lieu of termination waiving appropriate appeal rights and waiving any and all discrimination claims with the condition the employees not re-apply; one employee resigned in lieu of demotion.

Discipline Settlement Agreements. The Office negotiated suspensions of several safety and non-safety employees that will not result in an appeal.

Arbitration. Termination of an 18-year employee upheld after an arbitration hearing (employee was under the influence of alcohol); termination of safety officer upheld after a hearing (dishonesty and battery of a co-worker); termination of administrative services employee upheld in arbitration; termination of safety officer who retaliated against a member of the public (upheld).

Defense Verdict in employment discrimination trial.

Discrimination Litigation. The Office negotiated a settlement with an employee claiming disability discrimination without monetary consideration resulting in employee dismissing lawsuit in state court.

Workplace Violence Restraining Order. The Office pursued the City's first employment restraining order and were successful. This resulted in the employee being terminated through the arbitration process.

The City Attorney's Office recently tried a code enforcement matter and received a successful verdict convicting a local slumlord of four misdemeanor criminal counts. On April 16, 2018, a restitution hearing will be held to determine restitution owed to the tenant who occupied the dilapidated property. Additionally, at the same hearing, the judge will sentence Defendant Jacob Winding and impose fines.

OFFICE OF THE CITY ATTORNEY

CA Office worked with Municipal Utilities Department (MUD) in implementing the settlement agreement regarding the *Coalition for a Sustainable Delta v. City of Stockton/County San Joaquin* and continuing injunctive measures that the City must engage in.

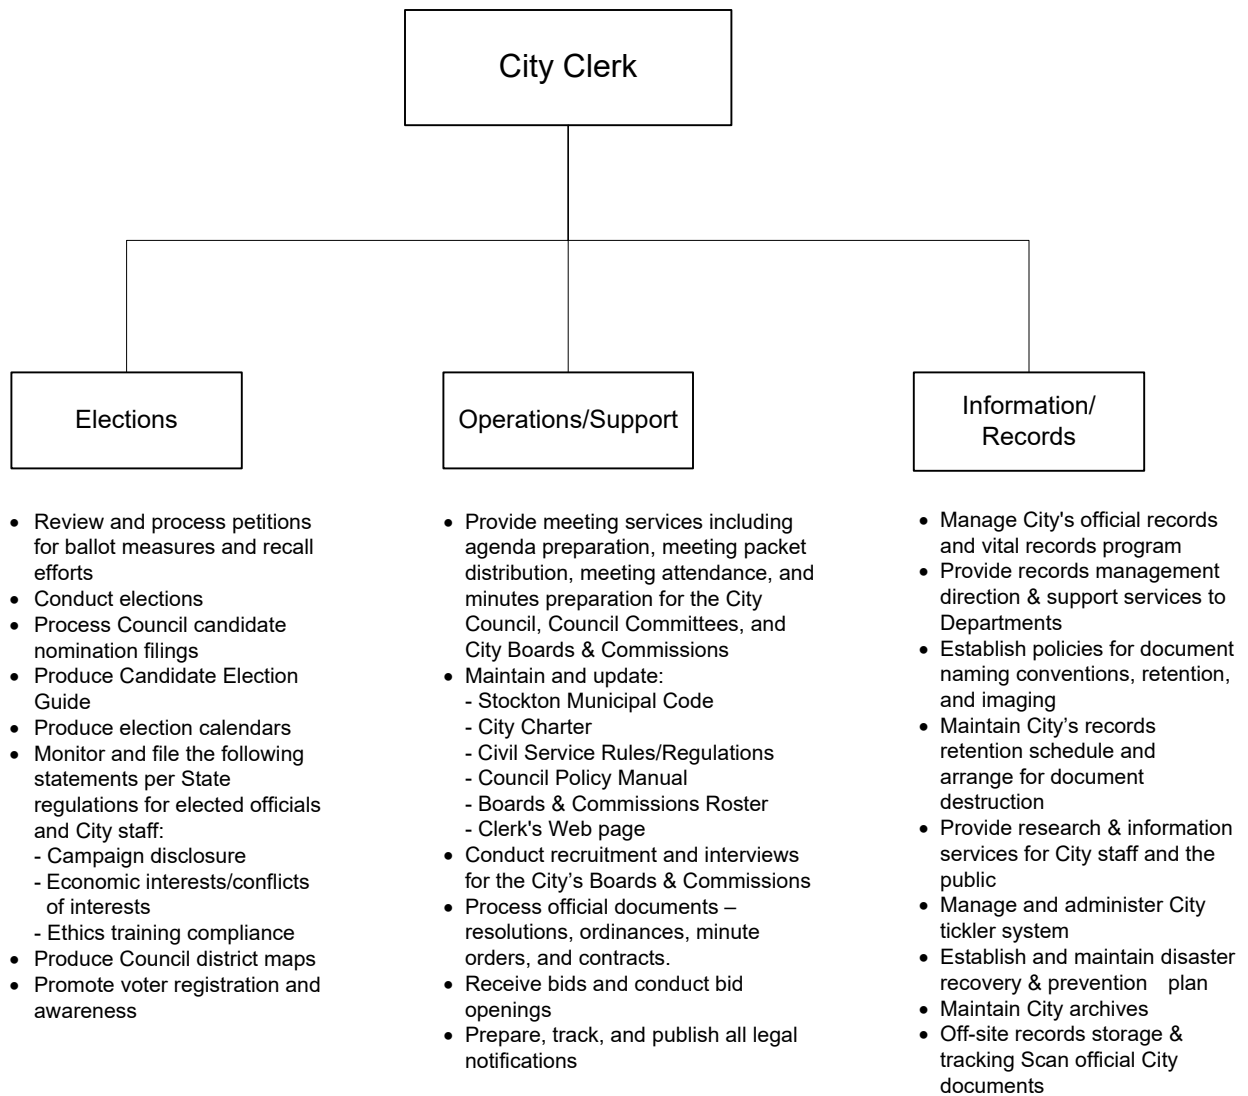

Assisted MUD to obtain Council approval for applying to the State Water Resources Control Board Clean Water State Revolving Fund program.

KEY CONSIDERATIONS

The primary focus of the work of the City Attorney's Office remains the effectuation of Council goals through support of the various activities undertaken by all City departments. However, there are areas in which there is the need to enhance our efforts:

- Code Enforcement-related litigation – There is an ongoing backlog of Code Enforcement matters that has developed as the Police Department has enhanced its Code Enforcement related staff and activities following the passage of Measure A. These efforts generate the need for additional specialized legal work that should be funded at a higher level than the previous fiscal year.
- Due to our increased reliance on electronic systems and processes, the need for additional specialized IT support and resources devoted to increasing subscription costs is essential.
- The City has undertaken significant new efforts over the last three fiscal years, while the staffing in the City Attorney's office devoted to advisory activities has remained static. Given this situation, there is an additional need for robust training and cross-training of staff to ensure that services can continue to be provided in a timely and effective manner.

CITY CLERK

OFFICE OF THE CITY CLERK

MISSION STATEMENT

To support the City Council's stated goals and objectives to build trust and confidence in the community by promoting transparency and civic engagement, guaranteeing fair and impartial elections, while ensuring open access to information and the legislative process.

Budget at a Glance:

Total Revenues	\$8,540
Total Expenditures	\$943,406
Total Net Cost	\$934,866
Total Staff	7

DEPARTMENT DESCRIPTION

The Office of the City Clerk administers municipal elections, promotes voter registration and participation; monitors compliance with campaign filing requirements; updates Conflict of Interest Code and receives annual filings; ensures adherence to the Open Meetings Act; administers the City's Records Management program, preserving and protecting the official public record; attends all City Council meetings and assigned City meetings to record actions taken by these bodies; receives and conducts bid openings; manages the City's Board and Commission recruitment process.

DEPARTMENT STRATEGIC WORK PLAN

As a City Charter Appointed Office, the strategic work plan of the City Clerk's Office is to ensure the implementation of the City Council Strategic Targets and Priority Goals as outlined earlier in the budget document. Specific to the City Clerk's Office, the City Clerk works to ensure transparency to the public in the following areas:

Operations: Enhance preservation and access to City records in a cost-effective and environmentally smart manner while complying with legal record retention requirements. Develop Records Management Manual Training as an essential part of managing City records to maintain consistency in process, improve customer service and efficiency in supporting all aspects of city government.

Civic Engagement: Participate in activities that promote civic engagement through the electoral process by establishing the City Clerk's Office as a Voter Resource Center providing voter information and materials. Increase outreach with local agencies, schools, and community organizations to expand Board and Commission recruitment participation.

PRIOR YEAR ACCOMPLISHMENTS

Records Management

- Indexed and shipped 75 boxes for off-site storage.
- Implemented a new contract history database that provides electronic notice to departments for upcoming contract expirations.
- Engaged records management consultant to interview departments over a 2-day period, updating the City's records retention schedules and Records Management Manual.
- Researched software applications to replace failing off-site records management database.

OFFICE OF THE CITY CLERK

- Provided training and guidance to departments for the destruction of records.
- Staff spent well over 500 hours completing research for both internal and external information requests.
- Processed 207 publications for legal notices, and 85 Bids/RFPs.

Boards and Commissions

- Conducted recruitments that produced 98 individual applications.
- Scheduled and conducted 38 applicant interviews, filling 56 vacancies.

Staff Development

- Clerk staff attended approximately 300 hours of City provided and off-site training for staff development.
- Two staff members completed the City's Supervisor Certificate program.
- Two staff members graduated from the Technical Training for Clerk's program.
- One staff member received her Certified Municipal Clerk designation.
- Four staff members graduated from the Certified Tourism Ambassador program.

KEY CONSIDERATIONS

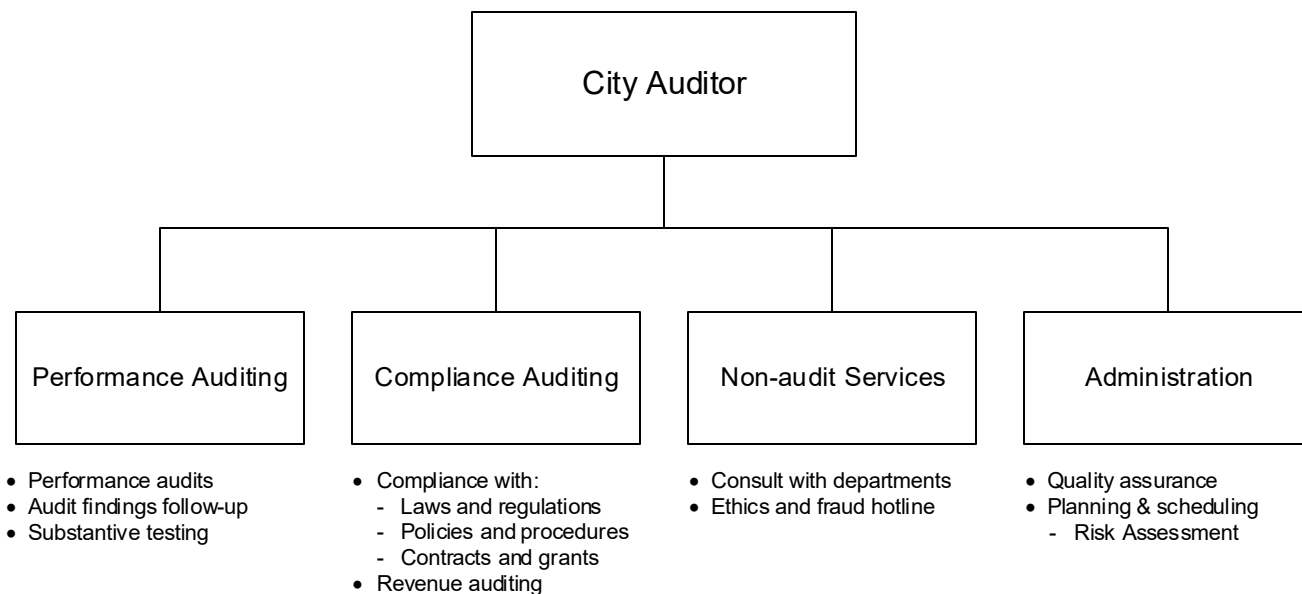

As the City implements new technology, such as the new ERP solution, records management will continue to be a priority for maintaining the City's archival integrity. The City Clerk's Office will play a significant role in developing the policies and procedures that will preserve the City's vital records.

There is an urgent need for citywide staff training in records management. The City Clerk's Office will develop a citywide training program to ensure staff is equipped to adhere to the Records Management guidelines set forth in the policy, gain an understand of information request procedures, statements of economic filings, and the relationship between staff work and City Council goals.

Another area of concern continues to be the lack of legal compliance with the State of California Trustworthy Electronic Records Act. With the City working to implement the new ERP solution, Clerk staff is working to prioritize the implementation of a solution that will help the City achieve mandated compliance for our electronic records.

Of great concern is the need to replace the City's off-site records storage tracking software, which is no longer being updated or supported by the vendor. Further complicating the continued use of this software is the need for the application to be running on a stand-alone machine outside of the City's secure network.

CITY AUDITOR

CITY AUDITOR

MISSION STATEMENT

The Office of the City Auditor independently promotes ethical, efficient, and effective governance for the citizens of Stockton.

Budget at a Glance:

Total Revenues	\$0
Total Expenditures	\$613,787
Total Net Cost	\$613,787
Total Staff	-

DEPARTMENT DESCRIPTION

The Office of the City Auditor provides the City Council, management, and employees with objective analyses, appraisals, and recommendations for improvements to the City systems and activities. The primary activity of the department is to conduct performance internal audits. These audits may focus on internal controls, compliance with laws and policies, accomplishment of goals and objectives, or a combination of these areas. The City Auditor in collaboration with the Chief Financial Officer also provides oversight for the external audit of the City's financial reports.

This department is funded primarily through the General Fund with appropriate cost allocations made to other funds. The Office of the City Auditor conducts regular organizational risk assessments and prepares a proposed annual internal audit plan listing potential projects. The City Council, through the Council Audit Committee, selects those audit projects to be included in the final annual audit plan.

DEPARTMENT STRATEGIC WORK PLAN

As a City Charter Appointed Office, the strategic work plan of the City Auditor is to ensure the implementation of the City Council Strategic Targets and Priority Goals as outlined earlier in the budget document. The City Auditor accomplishes this goal by completing annual risk assessments to determine the areas where the City has the greatest opportunities for strategic growth and areas where the City is exposed to risk. The City Auditor develops an annual Internal Audit Plan to test internal controls, develop necessary city policy and procedures and carry out special projects that will facilitate accomplishment of the City Council Priority Goals.

PRIOR YEAR ACCOMPLISHMENTS

The FY 2017-18 Internal Audit Plan maintained focus on improvements to citywide policies, processes and controls. A rewrite of all Administrative Directives was completed, and the new internal policy framework was adopted citywide. In addition, the City's first citywide Performance Dashboard was adopted and made public. This Internal Audit Plan also included projects to support the enterprise resource planning software project, a Procurement Diversity Study and a Travel Expense Internal Control Audit. Furthermore, the City Auditor continued to conduct ongoing internal controls testing, audit findings validation, and Ethics Hotline administration.

KEY CONSIDERATIONS

In 2012, the City Council authorized a contract to provide the services of the City Auditor. The contracted City Auditor was tasked with completing a comprehensive risk assessment and internal control review of the City. The intent of this agreement was to implement an Internal Audit Plan that would address the significant findings and issues noted through the bankruptcy and

CITY AUDITOR

restructuring process of the City. The contract was authorized over an initial pilot phase and a subsequent 5-year term. Several Internal Audit Plans have been completed during this term, making a significant impact to City operations and addressing areas of greatest risk in our controls, policies and procedures.

The current contract expires in October 2018. The City has anticipated issuing a Request for Proposals (RFP) at the end of the term. Each fiscal year the City Auditor presents an annual Internal Audit Plan. Rather than execute a change in internal auditor in the middle of a year, staff recommends Council extend the existing contract through the end of FY 2018-19.

ADMINISTRATIVE SERVICES DEPARTMENT

ADMINISTRATIVE SERVICES DEPARTMENT

MISSION STATEMENT

To provide financial, administrative and technical support to residents, business partners, decision-makers and other City departments; and to safeguard and facilitate the optimal use of City resources for strategic financial planning.

Budget at a Glance:

Total Revenues	\$484,137
Total Expenditures	\$5,839,175
Total Net Cost	\$5,355,038
Total Staff	82

DEPARTMENT DESCRIPTION

The Administrative Services Department (ASD) provides vital systems and services administered through five divisions: Administration, Budget, Financial and Accounting Operations, Debt and Treasury, and Revenue Services.

The Administration Division provides support to the various areas within the Administrative Services Department and directs its overall activities. This unit also provides support to various citizens advisory committees.

The Budget Office is responsible for developing and monitoring the City's annual budget, coordinating financial planning and management, comparing budgeted with actual outcomes, and tracking financial progress relative to budget during the year. This division provides long term fiscal forecasts for the City through the City's fiscal forecasting tool (Long-Range Financial Plan) and throughout the fiscal year assists City management and departments by analyzing and evaluating financial performance and projections as it relates to budget.

The Financial and Accounting Operations Division is responsible for the following citywide operations:

- Finance is responsible for the recording and reporting of financial transactions; reporting financial positions in accordance with generally accepted accounting principles, and the preparation of the Comprehensive Annual Financial Report and other financial reports.
- Accounting includes payroll processing for over 1,700 employees, payroll tax compliance, benefit reporting, accounts payable, cash activity and all central accounting recording and monitoring.
- Procurement is responsible for the procurement of all supplies and services necessary for the operation of City departments. Purchasing also provides centralized printing and high-volume reprographic and mail services to departments.

The Debt and Treasury Division manages the City's \$475 million pooled investment portfolio and debt issues which total approximately \$522 million. Its services include oversight of the cash and investment portfolio, investor relations, market disclosures, and financing/refinancing programs. The Division regularly reviews the City's debt portfolio for potential savings and closely monitors its cash flow and investments to ensure the City is managing its assets efficiently and responsibly and complies with California investment regulations.

The Revenue Services Division is responsible for the following citywide services:

ADMINISTRATIVE SERVICES DEPARTMENT

- The Customer Services Unit serves 115,000 utility customers who receive water, sewer, storm water or solid waste services, and 17,000 business license tax accounts.
- The Revenue Operations Unit manages accounts receivable for non-utility customers, centralized cash/vault services, and business licenses. It is responsible for the collection and audit of taxes, assessments, and other fees and charges owed to the City, as well as the accurate recording, reconciliation, receipting, control, and deposit of all monies received by City departments.
- The Collection, Compliance, and Revenue Reporting Unit is responsible for the recovery of City revenues from delinquent accounts. It promotes compliance through audits of the business license tax and transient occupancy tax. The unit also sends uncollectible accounts to the City's outside collection agency and provides revenue reporting functions such as cash collections and deposits, quarterly receivables and write-offs.

DEPARTMENT STRATEGIC WORK PLAN

The Administrative Services Department continues to focus on the City Council strategic goal of fiscal sustainability. Toward that goal, the department is engaged in several initiatives to improve and guide citywide fiscal practices and systems.

- Administrative Services is a key partner in the City's efforts to select and implement an Enterprise Resource Planning (ERP) system to replace the current outdated financial system. Current expert resources are being utilized and will continue throughout the next few years to accomplish this goal.
- In the years prior to and during the bankruptcy, the City received many audit findings from internal and external auditors. In collaboration with the City Manager's Office, Administrative Services has led consistent progress towards the resolution of audit findings and resulting recommendations and implementation of improvements.
- The Budget Office maintains the City's Long-Range Financial Plan model and its underlying assumptions. The L-RFP provides a long term view of the City's General Fund and demonstrates the City's ability to afford its current service levels. The Budget Office also anticipates creating Long-Range Financial Plans for the Water, Wastewater and Stormwater enterprise funds.
- With a focus on best practices in government operations, the ASD participates in the City's efforts to review and revise policies and procedures.

PRIOR YEAR ACCOMPLISHMENTS

During FY 2017-18, ASD focused on numerous initiatives in support of the goal of fiscal sustainability including:

- Became a participant and funded a Section Pension 115 trust to set aside and effectively invest funds specifically designated for pension costs.
- Cash purchase of the Waterfront Towers office complex to serve as the future City Hall.
- Transition to new banking, utility lockbox, and investment management vendors that will save the City over \$850,000 in fees over the terms of the contracts and will optimize the City's investment returns.

ADMINISTRATIVE SERVICES DEPARTMENT

- Improvements and updates to the Long-Range Financial Plan and its underlying assumptions.
- Improvements and updates to numerous policies and procedures in finance, accounting, procurement and travel.
- Obtained authority from Council to collect property owner utility delinquencies via the property tax roll and to lien said properties.

KEY CONSIDERATIONS

The Administrative Services Department continues to focus on the City Council strategic goal of fiscal sustainability. The Long-Range Financial Plan is one of those efforts that enables the City to understand the long term fiscal effects of its decisions and to plan for future challenges like CalPERS cost increases and recessions.

As development in the City picks up, particularly in the residential sector, Administrative Services is working with Community Development and other City departments to ensure the City grows in a fiscally sustainable and responsible manner. As part of its discussions with developers, the City is now requiring new residential development to address the permanent City service costs associated with that development.

Administrative Services enforces and monitors the General Fund Reserve and Fund Balance Policy that reflects best practices and prudently protects the fiscal solvency of the City. At the close of last fiscal year, the working capital reserve (2 months of expenditures) was fully funded in addition to setting aside funds for known contingencies (CalPERS costs, financial system replacement, etc.) and risk-based reserves (catastrophic infrastructure failure, recession, etc.).

Timeliness, accuracy, and transparency in financial reporting is an important City goal. The Finance and Accounting Operations Division continues to provide timely delivery of the Comprehensive Annual Financial Report, in which the independent auditor issued a clean opinion for last year. Administrative Services continues to promptly deliver budget, financial and investment updates to the City Council, various Committees and Commissions, and the public.

Extensive efforts continue to be made to address audits and resolve prior audit findings which require collaboration with all departments and timely accounting reporting. Significant City time and resources will continue to be required to work with auditors as they complete their fieldwork and to address prior audit findings.

ASD continues to proactively address delinquent accounts through its audit and collections efforts to maximize City collections and cash flow. The City Council recently granted the authority to collect property owner utility delinquencies via the property tax roll and to lien said properties.

In collaboration with other City departments, Administrative Services continues to plan for the eventual replacement of its 27-year old financial system with a new, modern Enterprise Resource Planning system. A new system will enable the City to serve the public and its internal customers more efficiently and effectively. City staff will be able to better access data and enable the City to make better, more informed decisions.

HUMAN RESOURCES DEPARTMENT

HUMAN RESOURCES DEPARTMENT

MISSION STATEMENT

Human Resources is a cohesive, collaborative team of professionals dedicated to attracting, hiring and developing a qualified diverse workforce. Human Resources provides quality and innovative customer-driven services and programs to support organizational goals and objectives, and to create a healthy and positive work environment for City employees to deliver high quality service to the citizens of Stockton.

Budget at a Glance:

Total Revenues	\$109,530,365
Total Expenditures	
General Fund	\$2,344,398
Benefits Program	\$125,333,779
Total Net Cost	\$18,147,812
Total Staff	30

DEPARTMENT DESCRIPTION

The Human Resources Department consists of four divisions: Workforce Planning and Training, Employee/Labor Relations, Risk Management Services, and Benefits Administration.

The Workforce Planning and Training Division Assists City departments with refining organizational structures to maximize efficiency and provide equal employment opportunities by hiring, retaining and developing a skilled, diverse and efficient workforce for the City. The City strives to retain employees by providing training tools and skills needed to be successful in their current jobs and assists with growth and development for upward mobility within the City.

The Employee/Labor Relations Division develops, negotiates, implements, and administers policies, procedures and labor agreements that support and promote workplace diversity, fairness and equality for City employees. This division provides counseling and advisement on employee and labor relations matters, provides assistance in the timely resolution of grievances, complaints and other personnel-related matters.

The Risk Management Services Division protects the City's resources by proactively working to limit liability exposures and by providing cost-effective risk management programs, such as employee safety, workers' compensation, contract review, and insurance monitoring. The division also purchases insurance to protect City property and liability, and works to recover General Fund monies from third parties for damages.

The Benefits Administration Division assists in providing and coordinating all aspects of employee benefit compensation packages. This includes, but is not limited to: health insurance, retirement services, leave entitlements, employee assistance program, flexible spending accounts, life insurance, and long term disability. In addition to assisting current employees, this division provides services to retirees and dependents.

DEPARTMENT STRATEGIC WORK PLAN

To meet the City Council strategic targets, the Human Resources Department is focusing on the following areas:

Public Safety: Through our Risk Management Division, Human Resources will continue to provide information to departments regarding claims that may impact public safety.

HUMAN RESOURCES DEPARTMENT

Economic Development: The Workforce Planning Division will continue to assist City departments in organizational restructuring and strategic staffing placements to support organizational and departmental missions including positions funded through Measure A. Workforce Planning will continue its efforts to diversify the workforce. Police Officer hiring is a top priority as Human Resources and the Police Department work toward the goal of filling 485 sworn positions. A focused Firefighter Trainee recruitment within the local community is aimed at attracting and hiring Stockton area talent.

Fiscal Sustainability: The City's health plans are designed to attract and retain a quality workforce, protect and promote healthy living, and fall within financially sustainable parameters. In FY 2018-19, the City's health plan rates are modestly increasing due to plan utilization and increased plan costs.

PRIOR YEAR ACCOMPLISHMENTS

Human Resources staff are proud to share some of our accomplishments for 2017 that align with the City Council strategic targets and other accomplishments that support other departments within the City:

Workforce Planning

Filled 145 positions city-wide, including 76 Police and 8 Fire.

Risk Services

- Initiated a city-wide defensive driver training program. All new non-safety employees are now enrolled in an online driving module at new hire orientation.
- Decreased workers' compensation claim reserves by \$1.1 million through aggressive claims management during the first 6 months of 2017 and collected \$403,786 in subrogation, revenue recovery, and insurance reimbursements claim.

Labor/Employee Relations

- Processed 21 grievances.
- Processed 17 formal complaints and investigations.

Benefits

- Conducted a health benefit open enrollment for approximately 1,500 employees.
- Administered the full portfolio of employee benefits, including four medical plans, two dental plans, two vision plans, long term disability insurance, life insurance, pension, deferred compensation, voluntary supplemental insurance, and Section 125 plans.
- Conducted 3 deferred compensation liaison review meetings with bargaining unit representatives.

HUMAN RESOURCES DEPARTMENT

KEY CONSIDERATIONS

Human Resources is challenged with meeting the demands of recruiting a significant number of public safety and other city-wide employees each year, managing and closing insurance claims to limit loss exposure, and selecting health care providers who meet employee needs. Upgrading the City's financial and human resources system will positively impact the Department when the personnel and position control modules are installed and come on line. Human Resources staff are part of the ERP team and are currently working toward selecting a vendor. Transition, implementation and training will take approximately three years and a significant amount of Human Resources staff time.

DEPARTMENT DESCRIPTION

The Information Technology (IT) Director oversees operations and is responsible for providing:

- leadership and vision for integrating City Council, City Manager, and departmental goals into a citywide information technology strategy;
- flexible, cost-effective enterprise business systems for the City;
- reliable and secure data center services and support for citywide technology systems;
- network design and support, including network monitoring and security;
- support for internet and intranet services as well as desktop support services;
- support for citywide telecommunications;
- partnering with departments to develop technology solutions and provide project management process and tools.

Finance and Administration Office directs and maintains efficient administrative systems and control mechanisms to ensure economical operations and compliance with administrative, human resources, procurement and financial rules and procedures.

Data Center provides reliable and secure enterprise computing and telecommunications infrastructure. Directs the delivery of computer purchases, repairs, replacements and services to departments and provides support for computer hardware, software, and technology solutions as well as providing computer-related training for City staff. Evaluates and plans for the upgrade, consolidation and/or the replacement of IT infrastructure. Explores new technologies such as cloud computing and determines how to apply the new technologies to the current infrastructure.

Enterprise Applications supports custom and third-party applications, including the geographic information system, enterprise resource planning, public safety dispatch, records management system and analytics systems. This service area also supports testing and web applications and develops in-house solutions. Supports Enterprise Architecture and the overall strategy to provide enterprise business systems. Optimizes and transforms business processes, information application systems and technologies into an efficient and integrated environment. This service area provides system interface management, integrations, and replacement planning.

Enterprise Portfolio Management Office (EPMO) facilitates all phases of the IT governance process; partners with departments to develop technology solutions based upon business needs, facilitates all phases of the information technology governance process, and provides guidance and oversight of project management processes; tools; project consultation and training; documentation and archiving.

INFORMATION TECHNOLOGY DEPARTMENT

Enterprise Information Security Office provides oversight for security policies for the Data Center and the City's lines of business to ensure alignment and optimization of business strategy and IT security. Develops and maintains the City's security architecture and technology recovery plans. Enforces security policies and performs audits of systems for security compliance. This service area also performs eDiscovery data collection requests.

Enterprise Resource Planning (ERP) provides oversight for planning, organization, and control of business and technical operations for the City's ERP project while ensuring its alignment with City business objectives. The goal is to ensure project success, which entails on-time and within budget evaluation, selection, and delivery of a new ERP system that meets business users' current and emerging needs. This is a multi-year project that will satisfy multiple Council strategic priorities and resolve outstanding audit findings.

DEPARTMENT STRATEGIC WORK PLAN

The IT Strategic Plan objectives are tied to the City Council's targets and goals for Public Safety with a focus on providing technology solutions and support to improve public safety services and response times. Fiscal Sustainability is another area of focus, implementing solutions that provide financial transparency to the community.

Security – Security Operations and Response is a part of the City's Security immune system. It consists of solutions that deliver core functionality to prevent, detect and respond to attacks, including security analytics, threat hunting, incident response and threat intelligence with network and endpoint protection.

Cloud Services – With the rise of mobility across the enterprise - research has shown that cloud migration and integration services are the largest priority for IT today. Migration provides many benefits for the City - both in mobilizing the workforce and delivering things faster and better to end-users.

Consolidation / Optimization – Ongoing consolidation and optimization have laid a foundation for success. IT and the departments will continue their work on the following three priorities: (1) creating high-quality citizen and business experiences with City programs; (2) supporting City employees with common and efficient enterprise solutions; and (3) providing secure and reliable information technology solutions.

Broadband / Wireless Connection – Establishing guidelines for wireless network deployment and service expansion of high-speed internet and data service is essential for critical public services. In collaboration with city departments, IT seeks to identify the wireless-related business and operational requirements for the City and the public, providing a process the City can follow to evaluate areas of potential build-out and leverage existing infrastructure to expand services.

Budget and Cost Control – Knowing the initiatives business units will propose enables a head start on forecasting IT costs. Forecasting operating costs requires an accurate view of historical costs and an understanding of how business changes will affect IT costs. With the implementation of the EPMD, ongoing portfolio management and governance led project prioritizations will enable the City to provide better forecasts. Cost reductions will be tied to service reductions and deferred projects.

INFORMATION TECHNOLOGY DEPARTMENT

Talent Management (People/Culture) – Creating a culture that embraces organizational excellence – right people, defined career path, and education – promotes ownership and accountability.

Mobility / Information / Social – Mobile is evolving quickly. The City must decide which mobile strategy will let them keep up in a mobile world. Solution set, onsite workshop and guided implementation is the blueprint for leveraging the powerful potential of mobile to generate enterprise growth.

Technology Recovery Plan (TRP) / Business Continuity – A TRP for recovery of applications that are critical to business operations is a key component of the business strategy.

Customer Centric – Empowering city departments with data, tools and enabling autonomy to function efficiently in the best interest of the City and the public. Achieved through understanding departmental goals and business needs and finding ways to work together to meet those needs.

Aging Infrastructure – Technology infrastructure is critical to the operations of the City. IT equipment has an expected lifecycle and needs to be replaced at the end of its useful life. The business benefits of maintaining technology currency are many, better performance, greater efficiency, reduced cost, reduced outages attributed to failures of old equipment, new capabilities, and modernized services.

PRIOR YEAR ACCOMPLISHMENTS

- Enterprise Resource Plan (ERP) – This multi-year project is underway with Council approval of 11 new positions for the core project team and a consultant contract to assist the City with the vendor selection process. In FY 2017-18, the system needs assessment and gap analysis was completed, project staff and consultants were selected, and the request for proposals was released.
- Superion Version Management – Upgraded the financial and human capital system to latest version.
- SharePoint Architect and Training – Initiated citywide migration off network drives toward using SharePoint. Provided 16 SharePoint Admin, Site Owner, Essentials and Open Q&A classes for enhanced usability and improved Team sites and Project sites for end users.
- City Website Redesign – Redesigned the City's landing page and Police Department (PD) homepage on a SharePoint platform.
- Security Assessment – Performed a technology hosting assessment that reviewed the technology environment (networks, servers, IT practices). Interviewed all City departments, identifying technologies with significant impact, and established a uniform technical design process.
- Telephone Equipment Upgrades/Replacements – Completed the planned move to a cloud-based VoIP system.
- Public Safety Radio Infrastructure – Finalized Radio Infrastructure Strategy and developed plans for upgrades.
- Completed 3-year replacement cycle for portable and mobile radios approved by City Council.

INFORMATION TECHNOLOGY DEPARTMENT

- PD CAD Upgrade – Upgraded Police Dispatch 911 Software
- Improve Connectivity to Remote Locations – Increased bandwidth for all Library locations to 1GB connection.
- Data Center Management Plan – Refreshment of the data center technology infrastructure equipment and end-user devices included a refresh of the network infrastructure for library branches, delivery of 324 desktop computers, 86 laptops, 51 surface pros, and 52 iPad tablets. Replaced 150 outdated public library computers.
- Student Internship Program – Established an internship program and partnership with the University of Pacific that provides on-the-job training and career readiness for students. Expanded the program to include other local colleges and universities such as Delta College and Sacramento State.
- Enterprise Portfolio Management Office (EPMO) – Published a Citywide EPMO SharePoint site to share objectives, mission, and project management best practices to the organization and managed all Stockton Technology Oversight Committee (STOC) meetings, IT Project Master List, Project Roadmaps, and Project Prioritization process.

KEY CONSIDERATIONS

- Enterprise Resource Plan (ERP) – In FY 2018-19, completing the vendor selection and starting the implementation work focused on core Finance and HR processes starting in late 2018 and continuing through 2019. This will involve significant staff hours spent on this project, including an onsite vendor implementation team.
- Replace Fire CAD system – Consolidation of Fire and Police computer-aided dispatch (CAD) into one system.
- Superior Hardware Replacement – Identification of server equipment supporting the ERP system that will have a functional lifespan to support the duration of the migration of the ERP program.
- Network Security – Improve the network security platform that will address the detection of virus, malware, and attempts to compromise the City's network infrastructure.
- Network Redesign – Address single points of failure in the City's internal networking environment. Priority will be given to locations with the largest concentrations of City employees. This effort will include use of new technologies such as 5G cellular and software-defined networks.
- Delta Water Supply Network Upgrade – Increase the bandwidth for Delta Water Supply by providing the City's standard fiber network solution.
- Student Internship Program.
- SharePoint – Initiate migration of intranet functions to SharePoint.
- City Website Redesign – Continue to Phase 2 of redesigning the City website in the new format. Hire a dedicated Systems Analyst for the website.
- Initiate Public Safety Radio Infrastructure – Initiate a public safety radio infrastructure plan that will address core, console and microwave equipment needed to provide stability of the radio communication system.

NON-DEPARTMENTAL

MISSION STATEMENT

To provide for citywide General Fund expenses not solely related to one department. Functions include: reporting, securing and providing technical assistance for grant funding from state, local and federal agencies; and prevention and intervention; providing timely, accurate, and complete information that is readily accessible to the public, via print, web-based and broadcast mediums, about City services, events, issues and actions; responding to public inquiries and requests for public information; and reaching out to the community to encourage public participation in local government.

Budget at a Glance:

Total Revenues	\$1,523,908
Total Expenditures	\$26,595,419
Total Net Cost	\$25,071,511
Total Staff	17

DEPARTMENT DESCRIPTION

Non-Departmental is a funding source category for functions within the City Manager's Office that have citywide impact and are not directly attributable to any single department. The programs funded, in whole or part, through Non-Departmental, include: Channel 97, Office of Violence Prevention, Labor Litigation, Communications and Public Relations. Non-Departmental funds are also used to pay for expenses and costs related to receipt of tax revenues from other agencies, general elections costs, advertising and outreach for the City of Stockton, contracts for legislative advocacy, and dues to the California League of Cities. Also contained in the Non-Departmental section are three other categories of funding that are citywide in nature. These are:

- Debt service payments, which under the Plan of Adjustment are limited to payments on the Stuart Eberhardt Building, the Civic Auditorium HVAC lease, Assured Guaranty Settlement Agreement, and a small amount of staff time.
- Transfers for Program Support for Other Funds (e.g. Capital Improvement Fund, Development Services, Golf, Entertainment Venues, Library, Recreation, etc.)
- Contingency Reserve of \$2 million to cover unexpected expenditures or emergencies

DEPARTMENT STRATEGIC WORK PLAN

Because the Non-Departmental budget is the funding source for functions within the City Manager's Office that have a citywide impact, the strategic work plan of these functions is to support the implementation of the City Council Strategic Targets and Priority Goals as outlined earlier in the budget document. Specific initiatives for FY 2019-20 include negotiation with the City's labor partners pending conclusion of the current 3-year term agreements, increased presence and advocacy with the Federal government, and preparations to deliver Channel 97 services at the Waterfront Towers and other satellite locations. In addition, key strategic initiatives of the Office of Violence Prevention include acquisition of a client database to provide better analytics and reporting for Operation Ceasefire efforts, developing more robust life-skills curriculum for successful Operation Ceasefire clients, leveraging City funds to expand Operation Ceasefire client services, and building additional partnerships in support of Operation Ceasefire and violence prevention efforts.

NON-DEPARTMENTAL

PRIOR YEAR ACCOMPLISHMENTS

Important citywide accomplishments in support of the City Council strategic workplan include institutionalization of good fiscal planning and use of the Long-Range Financial Plan, resulting in the growth of financial reserves for known and unknown contingencies, and leading to national recognition for the positive financial condition of the City.

The City achieved public safety hiring goals, reaching an all-time high for sworn police officers. The Neighborhood Betterment Teams and Office of Violence Prevention reached full staffing. The City cleaned up multiple blight hot spots through community clean-ups and city programs. Overall crime was the lowest it has been in 17 years and violence reduction strategies showed progress toward reducing group gun violence.

In addition, the City implemented development incentive tools including the Short-term Fee Deferral Program and Residential Neighborhood Reinvestment Program. Progress toward the elements of the Economic Development Strategic Plan also included adoption of a Food and Agriculture Plan, Economic Gardening Program, and entrepreneurship partnerships. The City attracted the development of more than three million square feet of industrial space representing more than a thousand of new jobs, facilitated dramatic growth to the University Park health care hub and assisted 32 new and expanding businesses for a total of more than 400 jobs.

Furthermore, the City received more than \$14.5 million in infrastructure grants for transit and safety projects, completed multiple street repair projects, improved utility infrastructure systems, and acquired a new City Hall building. The City also began enhancing public park and library spaces in alignment with the Strong Communities funding plan. Finally, the City allocated significant resources toward infrastructure that supports the homeless population and developed partnerships to address homelessness and the impacts of homelessness.

In addition, it is worth noting that funding from the Non-Departmental budget specifically supported development of the City Council strategic work plan, City Council discretionary funding projects, full staffing and client services expansion for the Office of Violence prevention and one-time funding projects that included Mobile City Hall, addressing impacts of homelessness, youth summer employment, and additional funding to community organizations serving our at-risk populations.

KEY CONSIDERATIONS

Despite improved conditions in the overall economy in recent years, funding from outside sources such as foundations and granting agencies remains limited, resulting in a continued need for the functions provided by Non-Departmental funding. Grant funding opportunities are scarce and available grants have more stringent requirements and qualifications, requiring additional time and resources for grant research and application processing.

Fortunately, the Office of Violence Prevention was successfully awarded a two-year grant to assist in the implementation of Operation Ceasefire, however it is important to note that a majority of grant funds have been distributed to local community-based organizations to support the Ceasefire effort. The Office of Violence Prevention is at full staffing and is fully implementing Operation Ceasefire. Vacancy savings that were experienced in prior fiscal years as the Office was established will no longer occur. The Office of Violence Prevention budget is anticipated to be fully expended implementing Operation Ceasefire and other violence reduction efforts. As the

NON-DEPARTMENTAL

Office of Violence Prevention continues to enhance violence reduction strategies, funds for data tracking analysis and reporting will be important. In addition, as strategies are implemented, funding for client services delivered by the City or community partners will be critical to success.

In broader consideration of the Non-Departmental budget, as the City moves forward post-bankruptcy, legislative advocacy, community outreach and strategic media relations will play a pivotal role in moving forward with our recovery. The City needs to work with government delegations, employees, citizens, visitors, and ultimately employers that may wish to locate their businesses here to continue the progress that this organization and community have made. The City is poised to build on the many outstanding accomplishments and recognition that Stockton is receiving and leverage these successes to enhance Stockton's public image.

TAB 12 DEBT

DEBT

CITY DEBT SERVICE FUNDS

Debt Service Funds are used to administer the City's General Government and Assessment District debt obligations.

Budget at a Glance:

Total Revenues	\$22,430,257
City Debt Service Fund	\$14,761,183
CFD & Assessment Districts	\$7,290,562
Administration	\$377,991
Total Expenditures	\$22,429,736
Total Net Revenue	\$521

GENERAL FUND DEBT OBLIGATIONS

The City's General Fund secures a number of bonds and other debt obligations that are administered in the City's Debt Service Fund.

Lease Revenue Bonds 2006 Series A – Parking and Stewart-Eberhardt Building (see pages L-8 and I-37)

The 2006 Lease Revenue Refunding Bonds Series A were issued in the amount of \$13,965,000 in March 2006. The Bonds were issued to finance the acquisition and construction of the parking facility adjacent to the Essential Services Building (the Stewart-Eberhardt Building). The source for repayment is from the Parking Authority Fund revenues. The City plans to refinance the bonds using interfund borrowing pending Council approval in FY 2018-19. The annual debt service payment of the bond, the payoff amount and the annual payment toward the interfund loan is budgeted at \$9,762,066.

Capital Lease – Civic Auditorium HVAC System

On December 15, 2009, the City Council approved the execution of a Lease Purchase Agreement with Wells Fargo Securities, LLC to provide financing for the replacement of the Heating, Ventilation and Air Conditioning (HVAC) system for the Stockton Memorial Civic Auditorium. The lease is in the amount of \$1,930,000, and the sources for repayment are savings from reductions in utility costs to operate the HVAC system and from the City's General Fund. The debt service payment for the lease is budgeted at \$479,307. This amount includes an extra payment to pay off this lease early in FY 2018-19.

Assured Guaranty Settlement Repayment

Upon exit from bankruptcy in FY 2014-15, the City started paying on an agreement with the insurer that replaced payments formerly required on the following bonds:

- Pension Obligation Bonds 2007 Series A and B

The 2007 Taxable Pension Obligation Bonds, Series A and B were issued in the amount of \$125,310,000 in March 2007. The bonds were issued to refinance a portion of the City's unfunded actuarial liability with respect to retirement benefits accruing to its members of the California Public Employees' Retirement System.

DEBT

- Lease Revenue Bonds 2007 Series A and B – City Administration Building

The 2007 bonds were issued in two series: Series A (Tax-Exempt) in the amount of \$36,500,000 and Series B (Taxable) in the amount of \$4,270,000 in September 2007. The bonds were issued to finance the acquisition of property at 400 E. Main Street which the City planned to use as City Hall. The bonds were cancelled through the Plan of Adjustment and its accompanying settlement agreement, and the City surrendered the property to the insurer. The City entered into a separate lease to use portions of the building.

The City's settlement agreement covers both bond series and was confirmed by the bankruptcy court effective February 25, 2015. The City Plan of Adjustment contains the details of the modified agreement. The City's settlement agreement includes three series of payments to be made to the trustee. Beginning in FY 2018-19 the second series of payments begins. These payments are applied to the remaining bondholder debt service payments with the balance paid by the insurer. The City's settlement payment and fees under the modified reimbursement agreement with the insurer is budgeted at \$2,851,556.

This agreement also contains provisions that require the City to make "contingent revenue" payments to Assured Guaranty if core General Fund revenues (as defined in the settlement agreement) increase above those projected in the settlement agreement. The contingent payment due to be paid June 1, 2019, is to be determined May 2, 2019, and is budgeted at \$1,803,073.

INTERNAL SERVICE FUNDS DEBT SERVICE (*NOT INCLUDED IN BUDGET AT A GLANCE)

Capital Lease – Fire Vehicles (see page N-9)

On April 17, 2007, the City Council approved the execution of a Master Equipment/Lease Agreement with Banc of America Leasing and Capital, LLC to provide a tax-exempt financing mechanism and established the underlying financing tool for designated capital projects. The City authorized the purchase of an aerial fire truck and water rescue vehicle for the Fire Department amounting to \$1,000,000. The City plans to refinance the lease using interfund borrowing pending Council approval in FY 2018-19. The annual debt service payment of the lease, the payoff amount and the annual payment toward the interfund loan is budgeted at \$409,554 in the Fleet Internal Service Fund. This refunding is estimated to have over \$3,800 annual savings through FY 2022-23.

Capital Lease - Fire Vehicles (see page N-9)

On January 24, 2012, the City Council approved a tax-exempt lease purchase agreement with Oshkosh Capital for the acquisition of four Pierce Fire Pumper vehicles. Subsequently, the City filed for Chapter 9 bankruptcy protection. On January 30, 2013, the U.S. Bankruptcy Court approved an amended agreement with a cost of \$1,871,404 and delivery of the trucks occurred in the spring of 2013. The annual debt service payment for the lease is budgeted at \$213,311 in the Fleet Internal Service Fund.

Capital Lease – Fire Vehicles (see page N-9)

On May 19, 2015, the City Council authorized the purchase of three Fire Engines and one Ladder Truck partially financed by entering a purchase lease agreement with Western Alliance Bank. The City finalized the lease agreement in August 2015. The City plans to refinance the lease

DEBT

using interfund borrowing pending Council approval in FY 2018-19. The annual debt service payment of the lease, the payoff amount and the annual payment toward the interfund loan is budgeted at \$1,788,794 in the Fleet Internal Service Fund. This refunding is estimated to have over \$15,000 annual savings through FY 2025-26.

Capital Lease – Fire Vehicles (see page N-9)

On February 7, 2017, the City Council authorized the purchase of two Fire Engines and one Ladder Truck partially financed by entering a purchase lease agreement with Western Alliance Bank. The lease agreement was finalized in April 2017. The City plans to refinance the lease using interfund borrowing pending Council approval in FY 2018-19. The annual debt service payment of the lease, the payoff amount and the annual payment toward the interfund loan is budgeted at \$1,832,180 in the Fleet Internal Service Fund. This refunding is estimated to have over \$19,000 annual savings through FY 2026-27.

OTHER DEBT SERVICE BACKED BY GENERAL FUND (*NOT INCLUDED IN BUDGET AT A GLANCE)

Lease Revenue Bonds Series 2004 – Parking and Capital Projects (see page I-37)

The 2004 Revenue Bonds were issued in June 2004 in the amount of \$32,785,000 to finance the construction of two parking garages. Repayment of the bonds is financed by payments made from the City's Parking Authority. Pursuant to the City's bankruptcy, the Trustee (Wells Fargo Corporate Trust) took possessory interest of the two parking garages and a third the City pledged as collateral. Until the effective date of the bankruptcy agreement, the garages were operated for the benefit of the bond insurer and debt service payments were made by the bond insurer. Under the terms of the settlement agreement confirmed by the bankruptcy court effective February 25, 2015, the City transferred certain parking assets to the newly-formed Stockton Parking Authority. Annual settlement payment and fees under the settlement agreement are budgeted at \$1,592,148 in the Parking Authority Fund.

COMMUNITY FACILITIES DISTRICTS AND ASSESSMENT DISTRICTS

Approximately 15 special districts have been formed throughout the City to finance improvements through the issuance of bonds. The types of improvements the districts have financed include subdivision improvements, street lights, and parks. Assessments are levied and added to the tax rolls on properties within the various districts. These assessments provide the source of payment on the bonds. The annual debt service payment is budgeted at \$6,850,073 plus associated administrative costs of \$440,489 for a total budget of \$7,290,562.

DEBT

SUCCESSOR AGENCY AND UTILITIES DEBT

Other City debt obligations secured by the Successor Agency and utility funds are listed in the following pages for informational purposes only. Debt service payments are included within the Successor Agency and Municipal Utilities fund budgets.

SUCCESSOR AGENCY

Successor Agency - 2016 Tax Allocation Refunding Bonds - Series A and B (see page L-10)

The Series A Bonds were issued in the amount of \$73,310,000 and the Taxable Series B Bonds were issued in the amount of \$30,010,000 in November 2016. The Bonds were issued to refund and defease the following obligations: 2003 Series A and B Certificates of Participation (Redevelopment Housing Projects); 2004 Revenue Bonds (Stockton Events Center-Arena Project); and the 2006 Series A and C (Housing and Redevelopment Projects). The source for repayment is Successor Agency property tax revenue that are pledged toward repayment of the bonds. The annual debt service payment and fees for the bonds is budgeted at \$7,472,510.

MUNICIPAL UTILITIES DEBT

California Statewide Community Development Authority Revenue Bonds Series 2002A (See page L-11)

The 2002 Series A Bonds were part of a pooled issuance totaling \$34,335,000 issued by the California Statewide Community Development Authority in April 2002. The City's portion of the overall issuance was \$14,280,000, which allowed the City to refund and defease the 1993 Certificates of Participation used to finance water system improvements. Net revenues of the Water Utility Fund are pledged towards repayment of the 2002A Bonds. The annual debt service payment and fees for the bonds is budgeted at \$1,116,790.

Stockton Public Financing Authority Revenue Bonds Series 2005A (See page L-11)

The 2005 Series A Bonds were issued in the amount of \$24,230,000 in November 2005. The bonds were issued to finance various water system capital improvement projects. Net revenue for the Water Utility Fund are pledged towards repayment of the 2005A Bonds. The annual debt service payment and fees for the bonds is budgeted at \$1,035,919.

Stockton Public Financing Authority Revenue Bonds Series 2009B (See page L-11)

The 2009 Water Revenue Bonds, Series B (Taxable Build America Bonds, Delta Water Supply Project) were issued in the amount of \$154,550,000 in August 2009. The 2009B Bonds were issued to finance the design and construction of the first phase of the Delta Water Supply Project. The bonds are subordinate to the other bonds paid from the Water Utility Fund, meaning that net revenues remaining after semi-annual debt service payments on those other bonds are pledged towards repayment of the 2009B Bonds. The annual debt service payment and fees for the bonds is budgeted at \$15,560,557. This payment is offset by the Build America Bonds subsidy of \$3,781,434.

Stockton Public Financing Authority Revenue Bonds Series 2010A (See page L-11)

The 2010 Water Revenue Bonds, Series A were issued in the amount of \$55,000,000 in October 2010. The 2010A Bonds were issued for the design and construction of the final phase

DEBT

of the Delta Water Supply Project. The repayment of the 2010A Bonds is from a pledge of net revenues of the Water Utility Fund. The annual debt service payment and fees for the bonds is budgeted at \$3,444,038.

Stockton Public Financing Authority Wastewater Revenue Refunding Bonds Series 2014 (See page L-12)

The 2014 Wastewater Revenue Bonds were issued in the amount of \$69,440,000 in November 2014 to refund and defease Certificates of Participation issued by the Utility in 1998 and 2003. These earlier debt issues financed various projects throughout the wastewater system. The repayment of the 2014 Bonds is from a pledge of net revenues of the Wastewater Fund. The annual debt service payment and fees for the bonds is budgeted at \$6,497,200.

OTHER DEBT SERVICE

Section 108 Loans (See page I-13)

The City has entered into four Section 108 loan guarantee agreements with the U.S. Department of Housing and Urban Development (HUD) to complete redevelopment projects. Repayment of the loans will be financed from Community Development Block Grant entitlement funds. The annual debt service payment for the loans is \$1,941,928.

TAB 13 CAPITAL

CAPITAL IMPROVEMENT PROGRAM

MISSION STATEMENT

The Capital Improvement Program is a five-year plan of the public projects necessary to maintain and improve the public works of the City and the orderly implementation of the Stockton General Plan. The public works include buildings, parks, golf courses, utilities, and transportation system.

Budget at a Glance:

Total Revenues	\$33,163,312
Total Expenditures	\$41,594,435
Total Net Cost	\$8,431,123

PROGRAM DESCRIPTION

The projects listed in the accompanying five-year Capital Improvement Program have a minimum estimated individual cost of \$50,000 and provide long term assets that maintain and improve our community. Budgeted funds for each project cover costs for design, construction, equipment and land purchases, project administration, and contingencies. The Capital Improvement Program includes buildings, parks, golf courses, utilities, and the transportation system. The costs identified in the first year of the program are appropriated as a part of the operating and capital budget process. Each year, the five-year plan is reviewed considering the City's needs, priorities, and available funds, and revised as necessary.

PRIOR YEAR ACCOMPLISHMENTS

Federal and State Grant Awards in the amount of \$6.2 million from Highway Safety Improvement Program Cycle 8, \$5.1 million from Active Transportation Program Cycle 3, \$15.9 million from Congestion Mitigation Air Quality for a total of \$27.2 million.

Measure K Competitive Bike and Pedestrian, Safe Routes to School and Smart Growth Program funding awarded in the amount \$11.4 million and \$1.4 million of non-competitive Bike and Pedestrian funding. It is also expected the City will deliver the \$2 million project awarded to the San Joaquin Regional Rail Commission for construction of the Chanel Street Complete Street project.

Major project completions:

- Police Department Administrative Offices; SEB 4th Floor
- San Joaquin Trail Improvements
- Bicycle Master Plan Update
- Safe Routes to School Plan
- Police Department Under Freeway Park Lot
- Tam O'Shanter/Castle Oaks Roundabout
- Fire Station projects - kitchen remodel at No. 4, burn room at No. 2, and renovation of No. 12
- FY 2015-16 Street Resurfacing

Key projects completed design and starting construction:

- Calaveras River Bike Path

CAPITAL IMPROVEMENT PROGRAM

- Fremont Square Sidewalk Improvements
- Greater Downtown Active Transportation Plan Hunter Street Road Diet

KEY CONSIDERATIONS

The CIP includes a list of projects with a total value of \$1.1 billion, including Municipal Utility projects of \$327 million, transportation projects of \$328 million, and other Citywide projects of \$468 million. The first four years of the CIP are financially constrained and reflect projects where the City has identified funding. The fifth year of the CIP reflects the unfunded facility and transportation needs throughout the City in addition to projects with identified funding. In accordance with the Long-Range Financial Plan, the CIP assumes \$1.1 million General Fund in each of its five fiscal years. This amount is insufficient to fund the capital improvement General Fund needs over the same five-year period, which are estimated at \$393 million. In the Transportation area, there is an additional \$193 million in unfunded needs listed in the fifth year (FY 2022-23). There are some projects the City expects to begin within the five years of this document but the full project cost is not shown because the projects will not be completely funded until future years.

Staff recommends \$70.3 million in capital projects be funded for FY 2018-19. This year is the only year of the plan with available funding appropriated. General government projects total \$10.2 million. Of this amount, \$1.3 million or 2% is from unrestricted General Fund sources, excluding Parking, Fleet, Library, Public Facilities Fees and one-time special reimbursements. Proposed funding for utility projects is \$20.6 million from utility fees. Library and Recreation projects funded by Strong Communities tax revenues total \$5.3 million.

The transportation projects assumed in the CIP require a FY 2018-19 allocation of \$39.6 million with \$12.7 million coming from State and Federal grants, \$5.4 million from Gas Tax Road Maintenance Rehabilitation Account (RMRA) and \$7.5 million from Measure K. Additional funding sources include Transportation Development Act, Public Facility Fees (PFF) paid by the development community for specific infrastructure improvements and other reimbursements.

The CIP groups projects into three categories: General Government, Transportation, and Utilities. The following chart summarizes the FY 2018-19 capital projects by type.

CAPITAL IMPROVEMENT PROGRAM

General Government

This category includes improvements associated with City-owned facilities including police, fire, parks, golf courses, libraries, community centers, and city buildings. The CIP assumes these improvements are funded from the General Fund, as well as dedicated funding sources such as Public Facilities Fees, Measure M – Strong Communities and other reimbursements.

The recommended General Fund allocation for capital projects in FY 2018-19 is \$1.3 million which has been allocated to several projects that address Council's strategic priorities relative to infrastructure. These projects are:

- Roof Replacement and Construction
- Fire Station Security Systems
- Fire Station Window Replacement
- Weber Event Center Fountain Filtration

The other significant projects under General Government in FY 2018-19 total \$8.9 million and are funded with various reimbursements, Strong Communities tax revenues and Landscape Maintenance District funds. These projects include:

- Aquatic Facilities Renovation and Replacement

CAPITAL IMPROVEMENT PROGRAM

- McNair Soccer Complex
- Stockton Soccer Complex
- Park Improvements and Equipment Replacement
- Troke Program Room Remodel
- Emergency Backup Generators
- Government Access Channel Infrastructure

Transportation

The City funds improvements to its transportation system from non-General Fund sources that are restricted to transportation uses. These sources include State and Federal grants, Transportation Development Act, Gas Tax, PFF, Measure K and other reimbursements.

The transportation projects included in the CIP represent the City's continuing effort to improve traffic flow, safety and personal mobility; reduce air pollution; accommodate growth; foster economic development; promote the use of alternate transportation modes, and preserve the transportation infrastructure. The City draws projects from many sources, including the Stockton Street Improvement Plan, Circulation Element of the General Plan, Bicycle Master Plan, Safe Routes to School Plan, Complete Streets Plan and various planning documents from San Joaquin Council of Governments.

The City has been successful in obtaining significant amounts of grant funds for transportation projects. Additionally the City has been awarded \$12.8 million from Measure K which is reflecting in two fiscal years, \$5.1 million in FY 2018-19 and \$7.7 million in FY2019-20. Based on past performance, the CIP includes an aggressive list of transportation for which grant funds will be sought, to facilitate design and construction of the needed improvements.

In general, the larger transportation projects included for funding in FY 2018-19 include:

- Miner Avenue Complete Streets Improvements Phase III
- Bridge Rehabilitation and Replacement
- Local Street Resurfacing
- Sidewalks, Curbs, Gutter Repair Program
- Curb, Gutter and Sidewalk Infill Program
- French Camp Road and McDougald Boulevard Traffic Signal
- Raised Medians on Pacific Avenue
- Install Guardrails
- Install Pedestrian Crossings at 9 Intersections
- Neighborhood Traffic Calming Program

CAPITAL IMPROVEMENT PROGRAM

Utilities

The City funds capital improvements to its Water, Wastewater, and Stormwater utility systems from non-General Fund sources that are dedicated to utility operations, maintenance, and improvements. These sources include utility user fees, connection fees, and PFFs.

The Municipal Utilities Department continues to budget new project funds in the Water Enterprise for improvements and repairs at the Intake Pumping Facility for the Delta Water Treatment Plant, the Feather River/Fourteen Mile Slough Reservoir, and water service laterals at various locations. Abandonment of Water Well No. 9 and 11 are included in the FY 2018-19 budget.

The 2011 Capital Improvement and Energy Management Plan (CIEMP) outlined a multiyear \$150 million project to repair, replace and upgrade the treatment process units at the Regional Wastewater Control Facility (RWCF). A large part of the RWCF infrastructure is over 60 years old and past its effective operating life. The funding approved in FY 2015-16 advanced the first phase of the progressive design-build that will provide the design of the overall RWCF Facilities Modification Project. Funding for FY 2018-19 will be used for the beginning of the second phase (construction) of the project. The project will incorporate many of the CIEMP improvements as well as new facilities to meet new wastewater discharge permit requirements. The Wastewater Enterprise is also proposing to fund other improvements at the RWCF outside of the CIEMP such as rehabilitation of the Primary Treatment Process and cleaning of Pond Oxidation No.1 to restore its treatment capacity.

The Stormwater Enterprise fee has been unchanged since 1992, and the utility's revenues have not kept pace with the costs for needed capital improvements. Therefore, the CIP moves a large number of capital improvement projects to later years. For FY 2018-19, available funding will be used to address a small fraction of needed pipeline and pump station deficiencies.

TAB 14 INTERNAL SERVICE FUNDS

INTERNAL SERVICE FUNDS

MISSION STATEMENT

Internal Service Funds are used to report the centralized financing of goods and services provided by one department on a cost reimbursement basis. The City of Stockton uses internal service funds for the central administration of insurance, equipment replacement, and technology services.

Budget at a Glance:

Total Revenues	\$142,809,012
Total Expenditures	\$160,311,238
Total Net Cost	\$17,502,226

PROGRAM DESCRIPTION

The City has Internal Service Funds (ISF) for equipment, risk management, and employee benefits funding. City departments contribute to these funds as part of their annual budgets. The funds are used to provide services and equipment to departments and pay for overall city-wide programs. Approximately 75% of ISF expenditures are related to the City's insurance and other benefits costs, while the remainder are related to equipment services. The City's ISFs are as follows:

Equipment:

- Fleet
- Technology
- Radio
- Office Equipment

Insurance/Benefits:

- General Liability
- Workers Compensation
- Health
- Unemployment
- Long Term Disability, Life and Accidental Death and Dismemberment
- Retirement
- Compensated Absences

DEPARTMENT STRATEGIC WORK PLAN

In general, an Internal Service Fund is used as a governmental financial mechanism to provide goods and services to multiple departments on a cost reimbursement basis in a systemized manner. Stockton's specific overall ISF goals go beyond the general objective and include developing rates that are stable over time and cover the cost of current use that might involve cash payouts in future periods. Consequently, Stockton's ISFs manage a relatively stable inflow of resources to pay for equipment and services that do not necessarily have a consistent or recurring nature.

Internal Service Funds therefore, play a significant role in the City Council Strategic Target of fiscal sustainability and indirectly in several other targets because if money is not available, other targets cannot be met. Developing a funding level requires experience and analysis while setting aside money for future periods requires discipline and restraint. The City's ISF rate methodologies have proven fairly successful in the years following bankruptcy, as several risk funds have recovered sufficient balances to pay for expected claim payouts, and the short-term funding of needs is available. But the fleet, radio and technology requirements expected in the next five years and the retirement demands of CalPERS scheduled for the next 10 years are not covered by stabilized, consistent rates at this time. The long term plan for ISFs is to develop

INTERNAL SERVICE FUNDS

accurate forecasts of the likeliest needs and related payout scenarios while remaining true to the overall fund goals and rate stabilization goals.

KEY CONSIDERATIONS

The expectations laid out for the ISFs were overall favorable as appropriations for claims and equipment were sufficient to pay for what was incurred or required, and rates did not create a shortfall that would require any significant change for the following year. Most significantly, City Council approved becoming a member in an IRC Section 115 Pension Trust and set \$21 million aside in the irrevocable trust which, while restricted solely for pension costs, affords the City greater flexibility than remitting to CalPERS, greater earnings potential than the City investment pool, and is expected to pay four to five of the fifteen balloon payments scheduled by CalPERS between now and 2036.

To provide value, the long term ISF rates should be identifiable, relative to how expenditures will be incurred and cover the operating needs of the departments. With the ISFs accounting for 18% of overall City spending, sound management of these funds is vital to the City's fiscal sustainability. Continuous analysis of the spending trends, forecasts and rate methodologies, and updates to the City's Long-Range Financial Plan will be key components to managing the resources and demands in these funds. Further detail on the equipment and benefit ISFs is included in the following pages.

INTERNAL SERVICE FUNDS

FLEET SERVICES FUND (501)

PROGRAM DESCRIPTION

Public Works manages the Fleet Internal Service Fund and is responsible for maintaining and replacing the City's fleet of approximately 1,120 vehicles and major equipment. Departments are charged monthly rental rates to finance operations and vehicle replacements. Maintenance activities performed either by City staff or outside vendors include preventative maintenance inspections, complete mechanical repairs, and specialized auto body work. A replacement reserve is needed to save for future replacement of vehicles at the end of their useful life. The replacement reserve amount has ranged from \$1.0 million to \$5.0 million over the past ten years.

KEY CONSIDERATIONS

- Implementation and review of the new fueling management system installed in FY 2017-18.
- Replacement of fuel terminals at all 12 fire stations.
- Replacement and setup of 75 vehicles to maintain current replacement schedules.
- Continue ongoing effort to review and improve fleet operations through space utilization in the shops and procurement services for acquiring fleet parts.
- FY 2018-19 budget includes \$3.0 million for vehicle replacements and funding to repair or replace emergency generators in key locations providing first responder services and other emergency services to the citizens of Stockton.
- In FY 2018-19, an opportunity exists for the City to pay off debt and save approximately \$2.0 million, some of which will benefit the fleet operations. The Fleet Services Fund will borrow from internal service fund reserves and use that cash to pay off existing debt with interest rates over 4%, resulting in a savings of approximately \$300,000. The Fleet Services fund would then make scheduled loan payments to the Workers' Compensation fund at a 2% rate, which is what the City's investments have historically yielded.

INTERNAL SERVICE FUNDS

COMPUTER EQUIPMENT FUND (502)

PROGRAM DESCRIPTION

The Computer Equipment Fund is managed by the Information Technology (IT) Department. City departments pay into this fund as part of their annual budgets for IT programmatic services and equipment for computers, telephones, multi-functional copiers, application systems, network connectivity, and IT consulting services. This fund also supports the City's IT Governance efforts and the implementation of the Information Technology Capital Plan.

The City continues to make significant progress towards replacing critical data center infrastructure equipment and end-user devices such as network storage equipment, desktop computers, laptops, and tablets. The City also set aside an additional \$6.6 million in FY 2018-19 toward the replacement of its 25-year old financial system.

KEY CONSIDERATIONS

IT projects support the City Council's strategic targets of Public Safety and Fiscal Sustainability, with a focus on providing technology solutions and support to improve public safety services and implementing solutions that provide financial transparency to the community. The major FY 2018-19 projects funded by the Computer Equipment Fund are as follows:

- Enterprise Resource Plan (ERP) – The City continues its efforts to replace its antiquated financial system, and anticipates bringing the replacement contract award to Council in Summer 2018.
- Microsoft Enterprise Agreement – Expand to include Azure for citywide use in preparation for the relocation to Waterfront Towers.
- Data Center Hardware Infrastructure – Sustain the primary data center and prepare for the relocation to Waterfront Towers.
- SEB Assessment – Evaluate the PD Data Center for expansion and implement findings.
- Network Redesign – Address single points of failure in the City's internal networking environment. Priority given to locations with the largest concentrations of City employees and include use of new technologies such as 5G cellular and software-defined networks.
- Superion Hardware Replacement – Replace server equipment that will support the current ERP system until the City can fully migrate to the new ERP system.
- Expand SharePoint – Initiate Phase 2 of the migration plan for the City's intranet.
- City Website Redesign – Continue to Phase 2 of redesigning the City public website in the new standard format.
- Network Security Incident Response – Execute a third-party attack and penetration test. Remediate the findings from the test via a professional services engagement. Establish a professional services agreement for incident response, and provide security operations as a service.

RADIO EQUIPMENT FUND (503)

PROGRAM DESCRIPTION

The Radio Equipment Fund supports mission-critical programmatic services and equipment replacements for public safety radios, dispatch consoles and radio support infrastructure. Fire, Municipal Utilities, Public Works and Police pay into the fund as part of their annual budgets.

The City continues to make significant progress towards replacing mission-critical radio equipment, and completed the implementation of a three-year plan to replace aged radios in FY 2017-18. The radio support infrastructure and backbone of the system is the City's next priority.

KEY CONSIDERATIONS

Replacement schedule:

- Initiate Public Safety Radio Infrastructure – Initiate a public safety radio infrastructure plan that will address core, console and microwave equipment needed to provide stability of the radio communication system.

OFFICE EQUIPMENT FUND (505) DUPLICATING, PRINTING & MAILING

PROGRAM DESCRIPTION

Administrative Services Reprographics division is responsible for maintaining and managing the City's duplicating/printing equipment in reprographics as well as mailroom services. Program departments are charged monthly usage rates to offset citywide reprographics services, operations and replacement costs.

KEY CONSIDERATIONS

- The reprographic staff joined Postal Customer Council (PCC) in Sacramento. PCC provides Postal Service business customers, such as the City of Stockton, with information about postal products, services and tools to help grow our business, as well as improve mail quality.
- Evaluated and upgraded reprographics equipment to replace the outdated equipment.
- In FY 2017-18, the division began development of strategic plan, which includes parcel service enhancements for mail service areas.

RISK SERVICES – GENERAL LIABILITY FUND (541) AND WORKERS' COMPENSATION FUND (551)

PROGRAM DESCRIPTION

The City established the General Liability and Workers' Compensation funds to create greater financial stability by self-insuring the City's liability (third-party) and workers compensation claims rather than purchasing full insurance policies. The Human Resources Department manages these programs and develops methods to reduce claim expenses by promoting safe work environments for both our employees and for the people of Stockton. City departments pay into the funds as part of their annual budget. The Department uses the funds to pay third-party claims, workers compensation claims, third-party claims' administrators, excess insurance, legal settlements, and the cost to administer programs designed to reduce risk.

KEY CONSIDERATIONS

Key considerations for the future of each program stem from costs being directly tied to accidents, illness and injuries, which are unknown events that, by definition, are difficult to project. The Human Resources Department will assist other departments with targeted training or the development of procedures to minimize these risks and reduce the overall cost of these programs.

The City will continue to use actuaries to assist in analyzing claim data and projecting claim costs and reserve targets. Consistent with the City Council strategic target of fiscal sustainability, reserve levels in the funds will continue to be in line with the associated claims of the organization. In 2013, the Workers' Compensation fund had unfunded liabilities of \$43.5 million. Efforts to reduce the unfunded liability have been successful with a projected ending balance of \$6.4 million in unfunded liabilities. General Liability claims cost continue to be at higher than normal levels in FY 2018-19 as larger litigation cases approach court dates or claims are settled. The primary funding source for both funds, calculated rates charged to City departments, will remain unchanged in both the Workers Compensation and General Liability Internal Service funds in FY 2018-19.

In FY 2018-19, an opportunity exists for the City to pay off debt and save approximately \$2.0 million. The Fleet Services and Parking Authority funds could borrow from internal service fund reserves for workers compensation claims projected to be paid more than ten years in the future and use that cash to pay off existing debt with interest rates over 4%. The Fleet Services and Parking Authority funds would then make scheduled loan payments to the Workers Compensation fund at a 2% rate, which is what the City's investments have historically yielded.

INTERNAL SERVICE FUNDS

HEALTH BENEFITS FUND (552)

PROGRAM DESCRIPTION

The City established the Health Benefits Fund to purchase and administer the health, dental and vision benefit plans for eligible employees and their eligible dependents. The Human Resources Benefits Division administers the employee health benefits program. The City and its employees share in the cost of the plans, and the City's share of cost is determined during the collective bargaining process.

City departments pay into the Health Benefit fund based on the number of active full-time employees. These proceeds are used to pay the City share of premiums and administrative costs of employee health benefits. The City offers employees a self-funded health plan (Anthem), two Kaiser plans and a Sutter plan. Additionally, some employees may select a health plan option through their labor union. The City has no post-employment medical liability as contributions to retiree medical were eliminated in 2012.

KEY CONSIDERATIONS

While the City continues to see a favorable active employee medical plan claims experience, the premiums for FY 2018-19 will increase slightly. Key considerations in the health benefit program include being able to offer options that continue to be attractive to employees while maintaining long term affordability. Increasing the number of employees and their dependents in the City's Health Benefit program will allow the City to negotiate more favorable terms and pricing with its health providers. Negotiations between the City and its labor unions will commence in FY 2018-19 and will include provisions for benefit programs.

INTERNAL SERVICE FUNDS

UNEMPLOYMENT FUND (556)

PROGRAM DESCRIPTION

The Unemployment Fund is used for the payout of unemployment claims. Benefits are paid to former employees by the State of California and the City reimburses the State upon request. City departments pay into the Unemployment Fund based on total wages.

KEY CONSIDERATIONS

The Department closely monitors unemployment claims for eligibility and challenges potential non-eligible claims as appropriate. Rates for unemployment coverage have been minimal in the past five years and will be suspended in FY 2018-19 as the fund balance is sufficient to cover expected claims.

INTERNAL SERVICE FUNDS

LONG TERM DISABILITY, LIFE INSURANCE & ACCIDENTAL DEATH AND DISMEMBERMENT FUND (557)

PROGRAM DESCRIPTION

The City provides Long Term Disability and Life Insurance benefits to its employees as part of the total compensation package. The Human Resources Department administers these plans for eligible employees and their eligible dependents. Some employees are covered by collective bargaining plans and do not participate in the City plans. Departments are assessed a rate per dollar of payroll which is transferred into the plan and is used to pay premiums and administrative expenses.

KEY CONSIDERATIONS

Rates will increase slightly in this fund for FY 2018-19, based on premium increases. The cost of these benefits are based upon market pricing and claims. Human Resources will continue to monitor the marketplace for these products to maintain an adequate benefit at an affordable cost.

INTERNAL SERVICE FUNDS

RETIREMENT FUND (561)

PROGRAM DESCRIPTION

The Retirement Fund is used to make contributions to the California Public Employees' Retirement System (CalPERS) for the City's defined benefit programs. Employee benefits are determined by the CalPERS plan and tier in which they are enrolled. Both employee and employer contributions to the CalPERS retirement plans are represented in the Retirement Fund. The City also has a supplemental retirement plan for a select group of employees outside of CalPERS. City departments pay into the Retirement Fund based on payroll and the rates that are set by CalPERS.

KEY CONSIDERATIONS

Payments charged by CalPERS will increase in FY 2018-19 and are expected to continue to increase until 2031. The current funding plan approved by CalPERS requires a stream of additional payments over the course of the next decade to properly fund the retirement obligation for current and retired City employees. Under this plan, the assumed rate of return on investments will decrease to 7.375% in FY 2018-19 and will eventually be reduced to 7.0%. The associated City contribution increases have been incorporated into the Long-Range Financial Plan and the implications are monitored by management on a regular basis. Any further increases in contributions to CalPERS would be significant and would likely be difficult to absorb without adversely impacting other programs or service levels.

In a proactive move to address rising retirement costs, the City Council approved a contribution of City funds to a Section 115 Irrevocable Trust that will be used to set aside resources for future CalPERS costs and maximize earnings potential of the reserves. The Trust will be monitored by the Administrative Services Department (ASD) and Human Resources Department.

INTERNAL SERVICE FUNDS

COMPENSATED ABSENCE FUND (562)

PROGRAM DESCRIPTION

The Compensated Absence Fund is used to pay accumulated compensation upon employee separation, pursuant to collective bargaining agreements and City policy. City departments pay into the fund as part of their annual budget.

KEY CONSIDERATIONS

The rate charged to departments for separation and vacation sell back will remain unchanged in FY 2018-19. Rate methodology for this fund is contingent on results of labor negotiations that will be conducted during the fiscal year. No significant changes in rate or rate setting methodology are expected. The FY 2018-19 budget also includes funding for vacation cash outs for certain eligible employees per the labor agreements approved in 2016.

FY 2018-19 Annual Budget

Municipal Utilities Department

- MD01 Move one Secretary position to Wastewater Administration from Water Administration
- MD02 Reclassify one Plant Operations Supervisor to a Sr Hydrant Worker
- MD03 Reclassify 2 Water Systems Operators to Water Field Technicians
- MD04 Move one Assistant MUD Director from the Engineering Division to the Wastewater Administration Division

Information Technology Department

- IT01 Reclassify a Systems Analyst to an Administrative Analyst
- IT02 Reclassify a Technology Support Specialist to a Technology Training Coordinator

PERSONNEL LISTING - END NOTES
FY 2018-19 Adopted Budget

- (A) Grant funded positions are authorized to be added as grant funding is received. Positions may be eliminated when grant funding ends. Positions correspond to the grant period, and do not necessarily correspond to the City's fiscal year.
- (B) The City Manager is authorized to establish additional Library positions if mid-year funding is provided by San Joaquin County.
- (C) When separations are imminent, but have not yet occurred, the City Manager is authorized to fill unfunded positions, as necessary, subject to availability, for the effective conduct of training and transition, and to avoid excessive overtime.
- (D) The City Manager is authorized to fill Police Officers as Police Officer Trainees or Police Officers, and with recommendation of the Human Resources Director, can reclassify Police Officer Trainees as Police Officers.
- (E) Persons employed by the City who are later defined by the State of California PERS, the Internal Revenue Service, the City Attorney, or other rulings, to be City employees performing on-going City activities may be converted to City positions and added to the City's position list during the fiscal year.
- (F) Fire Captains and Firefighters in Fire Prevention may be designated as Deputy Fire Marshals.
- (G) Groupings on the Personnel Listing of various classification titles does not indicate a "deep classification" or other form of alternative staffing.

BUDGET AND FISCAL POLICIES

BUDGET AND FINANCIAL POLICIES

Basis of Accounting

The term “basis of accounting” is used to describe the timing of recognition, that is when the effects of transactions or events should be recognized. The basis of accounting used for purposes of financial reporting in accordance with generally accepted accounting principles (GAAP) is not necessarily the same basis used in preparing the budget document. The City uses the modified accrual basis of accounting for governmental funds (general, special revenue, debt service, and capital projects) and agency funds. The City recognizes revenues for these funds when they become measurable and available, and recognizes expenditures when the liability is incurred, except for principal and interest on long-term debt, which is recognized when due.

The City uses the full accrual basis of accounting for proprietary and permanent funds. Under the full accrual basis of accounting, the City recognizes revenues when earned, and expenses are recognized when incurred.

The City's *Comprehensive Annual Financial Report* can be found at:

<http://www.stocktongov.com/government/departments/adminServices/finRep.html>

Basis of Budgeting

The City's operating budget is prepared using the *current financial resources measurement* focus and the *modified accrual basis* of accounting for all funds, which recognizes revenues when they become available and measurable and recognizes expenditures when liabilities are incurred. Some exceptions to this recognition of expenditures include those related to debt service, compensated absences, and claims and judgments which are recorded only when due. With respect to real and personal property tax revenue and other local taxes, the term “available” is limited to collection within 60 days of the fiscal year-end. The City records Federal and State reimbursement-type grants as revenue when it incurs related eligible expenditures.

Fund Structure

The City organizes its accounts into funds. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The operation of each fund is maintained with a self-balancing set of accounts that comprise its assets, liabilities, fund balance or net position, revenues, and expenditures or expenses. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped into generic fund types and broad fund categories as follows:

Governmental funds

- General Fund: The General Fund is the City's general operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.
- Special Revenue Funds: Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specified purposes.
- Debt Service Funds: Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

BUDGET AND FINANCIAL POLICIES

- **Capital Projects Funds:** The Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds and Trust / Agency Funds).

Proprietary funds

- **Enterprise funds:** Enterprise Funds are used to account for operations:
 - (a) That are financed and operated like private business enterprises where the governing body intends the full costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.
 - (b) Where the governing body has decided periodic determination of revenues earned, expenses incurred, and net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.
- **Internal Service Funds:** Internal service funds account for the financing of goods and services provided by one department in the City to other departments in the City on a cost reimbursement basis as a basis for allocation.
- **Fiduciary funds:** Fiduciary funds are used to account for assets held by the City in a trustee or agent capacity for individuals, private organizations, other governments, and other funds.

Financial Policies

Balanced Budget

Section 1905 of the City Charter states: "The total proposed expenditures shall not exceed the total of estimated income, estimated unencumbered balances of funds to be carried over from the preceding year and unencumbered available reserves." If the City meets these criteria, the budget is considered balanced. The budget is considered balanced when the total amount of revenues, including transfers in from other funds and the use of fund balance, equals the total amount of expenditures. The budget is also considered balanced, however, when total expenditures are less than total revenues, which is technically a surplus. Instances also arise when the City plans to spend fund balances from previous years on one-time or non-routine expenditures. The City also considers the budget to be balanced in this case, provided the funding from previous years is available, and a plan is in place to create on-going expenditures with one-time funding.

Long-Range Financial Plan

The City Council's Strategic Work Plan includes Fiscal Sustainability as a Strategic Target and has a Tier 1 Priority Goal to "Adopt a budget and allocate resources consistent with the Long-Range Financial Plan; implement solutions that provide financial transparency to the community."

To ensure long-term sustainability, the City utilizes the Long-Range Financial Plan (L-RFP) as part of budget development. The City created L-RFP as part of the bankruptcy process to demonstrate the financial viability of the Plan of Adjustment over a 30-year period. This window is significantly longer than most long-term forecasts but was necessary to adequately present significant changes such as debt restructuring, pension costs, and equipment replacement. The City continues to update and refine the L-RFP and is proving to be a useful framework to make budget decisions. By incorporating the L-RFP into its decision-making process, the City Council has an effective tool to forecast the future effects of its decisions. Because so many facets of

BUDGET AND FINANCIAL POLICIES

City services include long-term commitments such as labor, infrastructure improvements and sufficient reserves, it is imperative for the City to take a long-term view.

Reserve Policies

The City Council has adopted policies establishing minimum target levels of unreserved fund balance to be maintained in various funds. These target reserves protect the City's financial exposure to severe unforeseen emergencies and economic uncertainties and are an important component of the City's long-term financial management. The following are examples of reserve policies for different funds:

- General Fund: Priority I targets for a Working Capital Reserve and Known Contingencies, and Priority II targets for risk-based contingencies;
- Measure W: 25% of anticipated annual revenue; and
- Municipal Utilities: Six months of operating expenditures.

In March 2016, the City Council adopted a reserve policy for the General Fund that describes various reserve types, funding priorities, and calculation guidelines. The Working Capital Reserve target is based on a percentage of total budgeted General Fund expenditures, and the current Known Contingencies Reserve target is a list of known future expenses, contingent on as of yet unknown facts or circumstances that require significant resources. The Risk-Based Reserves are based on potential costs related to infrastructure replacement, extreme events/disasters, legal claims, and severe economic or revenue volatility. The reserve targets are reviewed annually in accordance with the Council's General Fund – Fund Balance and Reserve Policy.

The reserve policies were adopted with the goal to accumulate the targeted reserves over the course of future years. The following links for City reserve policies are:

Municipal Utilities Funds Policy -
http://qcode.us/codes/stockton-cpm/view.php?topic=700-700_5&frames=on

Investment Policy

The City adopts an investment policy annually that is intended to provide guidelines for the prudent investment of the City's cash balances and outlines the policies to assist in maximizing the efficiency of the City's cash management system while meeting the daily cash flow demands of the City. The City's investment policy can be found at:

<http://www.stocktonca.gov/government/departments/adminServices/debt.html>

Debt Policies

Policies *Capital Financing and Debt Management Policy* and the *Policies and Procedures for Land-Secured Financing* can be found at:

<http://www.stocktonca.gov/government/departments/adminServices/debt.html>

BUDGET AND FINANCIAL POLICIES

Budget Amendments

It may be necessary to amend the budget for unforeseen circumstances that arise during the year. The City Manager may amend the budget up to the limit of his authority, and by resolution with the concurrence of at least four members of the City Council for items above the City Manager's authority.

The City Manager may approve transfers of appropriations between departments within a fund.

All transfers of appropriation from Priority II Risk Based Reserves require City Council approval by a super majority (6 out of 7).

Budget Process

The City annually adopts and executes a budget for such funds as may be required by law or by sound financial practices and generally accepted accounting principles. The budget controls the expenditure of money for all City purposes during the ensuing fiscal year. City departments receive guidance and training from the Budget Office to assist in preparing budget requests and narratives. Departments are provided current salary projections and staffing allocations for their review and revision for the budget year. All fees for service are reviewed and updated by departments and a multi-departmental fee review team. Likewise, departments submit capital project requests for review by the Public Works Department and the City Manager. Departments submit budget plans and new requests to the Budget Office that incorporate updates to resource allocations, service delivery, programs, and staffing.

The City's L-RFP greatly restricts growth in General Fund expenditures. The Budget Office provides each department that relies on General Fund support a baseline budget amount, and the Budget Office and City Manager review any proposed expenditure growth above that baseline for approval. Budget staff review all submitted budgets for reasonableness and compliance with the guidelines and budget priority direction provided by the Council and City Manager. Following the City Manager review, each department presents its budget recommendations to the City Council during a budget study session. During this session, the Council also reviews General Fund revenues, Special Revenues, the Capital Improvement Program, and fee changes as proposed by the City Manager. The Council asks each department questions about their budget proposals and makes policy decisions and suggestions for changes to the City Manager.

A combined Council public hearing on the Capital Improvement Program, Operating Budgets, Successor Agency Budget and Fee Schedule is held in June each year. The Council adopts the budget before the beginning of the fiscal year. The budget resolution defines the level of budgetary control which determines if the budget can be amended administratively or if Council approval is required.

BUDGET AND FINANCIAL POLICIES

Budget Process Calendar

October	Departments work with Public Works Department to identify capital needs.
Nov. - Dec.	Salary projections, fee review and internal service fund analysis begins.
January	Mid-year review of City funds and fee adjustments due.
February	Budget instruction memo sent to City departments. Capital project requests submitted to Budget Office.
March	Departments submit operating budget requests to Budget Office.
April	City Manager reviews department budgets. Capital Improvement Plan to Planning Commission.
May 1	Budget Update provided to City Council
May 15	City Manager submits Proposed Budget, Capital Improvement Plan, and Fee Scheduel to Mayor and City Council.
May 23	Council holds a budget study session to review the Proposed Budget.
May 29 – June 1	Review of Proposed Budget at Citizen Advisory Committee meetings.
June 5	Council holds a Public Hearing to adopt the City's Operating, Capital, and other agency budgets along with the Fee Schedule for the fiscal year.

Under State law, the City has a legal debt limitation not to exceed 15% of the total assessed valuation of taxable property within the City boundaries, adjusted for subsequent legislative actions. In accordance with California Government Code Section 43605, only the City's general obligation bonds are subject to the legal limit. The City of Stockton does carry bonded debt secured by special assessments and other revenue sources, but at this time, doesn't have any outstanding general obligation bonds. The City is not at risk of exceeding its legal debt limit.

GLOSSARY

GLOSSARY

Account: Basic component of a formal accounting system. Individual record of increases and decreases in a specific asset, liability, revenue, expenditure or expense.

Accrual basis of accounting: Revenue and expenses are recorded in the period in which they are earned or incurred, regardless of whether cash is received or disbursed in that period. The enterprise and internal service funds use the accrual basis of accounting for external reporting purposes.

Actual: Actual level of revenues or expenditures in the fiscal year noted.

Ad Valorem: In proportion to the value. Basis of property taxes, both real and personal, imposed by the City.

Appropriation: Authorization by a governing body to incur obligations for specific purposes. Appropriations are limited to amount, purpose, and time. All appropriations of the City Council lapse on June 30th, unless provided for by the City Council in a direct action.

Adopted budget: Version of the operating budget approved by the City Council through a formal process.

Agency Funds: Funds to account for resources held by a government in a custodial capacity.

Approved budget: Adopted budget plus Council approved and administrative budget amendments.

Assess: Place a value on property for tax purposes.

Assessed valuation of assessment: Dollar value placed upon real estate or personal property as a basis for levying taxes of the governing body.

Assessment: Tax revenue related to the assessed value of real or personal property.

Assets: Resources owned by the City that have a monetary value.

Audit: Examination of records or financial accounts to form an opinion whether they are prepared in conformity with a specific standard.

Authorized positions: Number and classification of the full-time staffing levels approved by the City Council funded in a budget cycle.

Available balance: The uncommitted, undesignated portion of liquid assets less liabilities available for operations. Fund balance represents the working capital portion of a fund's equity, which excludes capital assets, debt, obligations incurred but not yet paid, and other non-current items.

Bad debt expense: Incurred when a buyer fails to pay for goods or services acquired from the City.

Balanced budget: Within a fund, the total revenues, including transfers in from other funds and use of fund balance equals the total amount of expenditures, including transfers out to other funds and contributions to fund balance.

Bankruptcy: Bankruptcy for Municipalities is covered under Chapter 9 of the United States Bankruptcy Code to provide a financially-distressed municipality protection from its creditors while it develops and negotiates a plan for adjusting its debts.

GLOSSARY

Baseline: An estimate of spending, revenue, related the deficit or surplus expected during a fiscal year under current laws, labor agreements, and policy. The baseline is a starting point for measuring the budgetary effects of proposed changes in revenues and spending.

Basis of accounting: Timing of recognition for financial reporting purposes. The basis of accounting determines when revenues, expenses, assets and liabilities are recognized and reported. Cash, accrual and modified accrual are the three accounting methods used by local governments. Modified accrual, with a focus on current financial resources, is used for budgetary purposes.

Beginning/ending fund balance: Resources available in a fund after payment of prior/current year expenses.

Benchmarking: Ongoing search for best practices and processes that produce superior performance when adopted and implemented in an organization.

Block grant: Awarded primarily to general-purpose governments, block grants are distributed according to formulas established in the law and can be used for any locally determined activities that fall within the functional purpose of the grant.

Bond: A type of debt security sold to finance capital improvements, projects or purchases.

Brown Act: Governs the conduct of public meetings in the State of California under Government Code Sec. 54953.

Budget: A financial plan for a specified period of time that matches all planned revenues and expenditures with various municipal services. The City uses a fiscal year for the budgetary period of time. The budget is the primary tool by which most of the financing, acquisition, spending, and service delivery activities of a government are planned and controlled. The approved budget is authorized by City Council action and thus specifies the legal spending limits for the fiscal year.

Budget adoption: Formal process through which a governing body approves a budget. The City adopts its budget by a resolution following a public hearing.

Budget hearing: A public meeting to allow citizens to comment of a proposed budget.

Budget resolution: Method used by the City to move spending authority already budgeted and appropriated from one fund to another, from contingencies, or from budgetary fund balances.

Budgeted positions: The number of full-time positions funded in a fiscal year.

CalPERS: California Public Employees' Retirement System is an agency the City contracts with to administer the defined benefit pension plan for its eligible employees.

Caltrans: California Department of Transportation

Capital budget: Appropriations for the acquisition or construction of fixed assets or tangible property subject to capitalization under City policy. Current City capitalization threshold is \$5,000.

Capital Improvement Program (CIP): A list of capital project needs and related funding sources for a five-year period plan of single and multiple year capital expenditures which is updated annually.

GLOSSARY

Capital outlay: Expenditures for tangible property of relatively permanent nature

Capital project: Major construction, acquisition or renovation which result in added value to a government's physical assets or significantly increase their useful life. In order to be a capital project, a project must have a cost greater than \$50,000.

Capital purchase: Expenditures for tangible property of relatively permanent nature

CDBG: Community Development Block Grant - Funded from the Federal Department of Housing and Urban Development provides programs for general community development to eliminate blight and provide to low and moderate income persons.

CEQA: California Environmental Quality Act

Contingency: A budgetary reserve set aside for emergencies or unforeseen expenditures that are possible, but cannot be predicted with certainty.

COPs: Certificates of Participation – This financing technique provides long-term financing through a lease installment sale agreement or loan agreement. Certificates of Participation (COPs) allow the public to purchase participation relating to the acquisition or construction of specific equipment, land, or facilities.

CPI: Consumer Price Index, measure of inflation in area of consumer products.

CTSP: Citywide Technology Strategic Plan

CWEA: California Water Environment Association

Debt service: Payment of interest and principal on an obligation resulting from the issuance of bonds and notes.

Debt service fund: Account groups in the financial system to record the payment of principal and interest on debt.

Deficit: A description of the state whereby more money is spent than is received. Used to describe the excess of liabilities over assets or of expenditures over revenue during a single budget year.

Defined benefit plan: Employer sponsored retirement plan based on paying a specific amount for each year of retirement.

Defined contribution plan: Employer sponsored retirement plan based on paying a specific amount into the plan during the term of employment.

Department: A major organizational unit of the City that has management responsibility for related operations.

District fund: A fund used to account for the resources, revenues and expenditures of separate special districts formed to provide certain public services.

Division: A sub-unit of a department which encompasses more specific functions of that department and may consist of several activities.

GLOSSARY

DOJ: Department of Justice

EIR: Environmental Impact Report - A detailed document describing and analyzing the significant environmental effects of a project and ways to mitigate or avoid the effects.

EMS: Emergency Medical Services

Encumbrance: Obligation against budgeted appropriations in the form of a purchase order or contract. Encumbrances cease when obligations are paid or otherwise terminated.

Enterprise fund: A classification of proprietary fund type whereby a set of accounts within the financial system used to record specific activities wherein fees and charges are sufficient to cover the cost of providing goods and services.

EPA: Environmental Protection Agency

Expenditure: A term used to describe the cost of goods or services in a governmental fund recorded on the modified accrual basis of accounting.

Fiduciary funds: Account groups in the financial system used when a governmental unit acts in a trustee or agent capacity.

Financial policy: City's policy with respect to taxes, spending, debt and reserve management as related to the provision of City services, programs and capital investment.

Fixed asset: Individual assets used in operations of the City that have a value greater than or equal to \$5,000 and a useful life of greater than one year, e.g., buildings, vehicles, furniture, etc.

FEMA: Federal Emergency Management Agency

Fiscal year: The 12-month period designated as the budget year from July 1 through June 30.

FLSA: Fair Labor Standards Act

Fund: A fiscal and accounting entity with a self-balancing set of accounts recording assets, liabilities, fund balance or net assets, revenues and expenditures or expenses.

Fund category: Financial activities for state and local governments fall into three groups or categories. Categories can be broken down further into fund types. The three fund categories used in governmental accounting are governmental, proprietary and fiduciary.

Fund balance: A term to describe assets less liabilities of governmental fund types. In the context of the City's budget discussions, fund balance generally refers to the undesignated spendable fund balance that has not been appropriated nor designated for reserves or other uses.

Fund type: Fund categories can be further broken down into fund types. General, special revenue, capital projects, debt service and non-expendable trust are governmental category fund types. Enterprise and internal service funds are proprietary category fund types. Trust and agency funds are fiduciary fund types.

GLOSSARY

GAAP: Generally Accepted Accounting Principles - The guidelines established for financial accounting and reporting which govern the form and content of the financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define accepted accounting practice at a particular time.

GASB: Governmental Accounting Standards Board

General fund: Set of accounts for all financial transactions not required to be accounted for in any other fund. The General Fund accounts for the normal recurring activities of the City departments such as public safety, public works, recreation, library, and other governmental departments. These activities are funded by revenue sources such as general property taxes, permits, fees, licenses, and charges for services.

General liability insurance: Protection against risk of financial loss due to a civil wrong that results in property damage or bodily injury. Included in the general liability insurance internal service fund are the costs to administer and litigate claims, in addition to any damages or premiums.

General obligation bond: A debt instrument backed by the full faith and credit of the issuing government. In California, local governments can only issue such bonds with voter approval subject to a legal debt limit.

Governmental funds: Funds used to record activities that are financed through taxes, grants, licenses and similar general government revenues. The measurement focus of governmental funds recognizes events when they affect current financial resources. Reductions are called expenditures. These funds operate on a modified accrual basis.

GRANTS: Award given by a government to a public agency in a lower level of government or a special recipient for a specified purpose.

HOME: Home Investment Partnership Program

HUD: Housing and Urban Development - The Federal department which provides various housing and community direct loans, guarantees, and grants.

Indirect costs: Elements of cost necessary in the production of a good or service that are not directly traceable to the product or service. These are sometimes referred to as overhead costs.

Investment proceeds: Income or loss earned on the investment of available cash.

Internal service fund: A set of accounts created to provide a mechanism to allocate shared costs to promote efficiency or effectiveness of a shared activity.

Legal debt margin: Excess of the amount of debt legally authorized over the amount of debt outstanding. California code defines the amount of general obligation debt the City is legally authorized to issue as not to exceed 15% of the total assessed valuation of taxable property within the City boundaries, adjusted for subsequent legislative actions.

Lien: A document recorded with the County Recorder placing a debt against a parcel of land.

LOCC: League of California Cities

GLOSSARY

Long-term debt: Debt with a maturity of more than one year after the date of issuance.

LTD: Long Term Disability insurance

Marshall plan: A City of Stockton Strategic Initiative adopted by the Council to reduce crime and increase public safety. Funding for these efforts are appropriated from Measure A sales tax revenues. Specific elements of the Marshall Plan are present in the Measure B Implementation Plan (see Council meetings June 25, 2013 and February 25, 2014)

MBE: Minority Business Enterprise

MDC: Mobile Data Computers

Measure A: A general transaction and use tax measure approved by the citizens of Stockton on November 5, 2013 for $\frac{3}{4}$ cent sales tax effective April 1, 2014. Revenue from Measure A sales tax is reported in the General Fund to pay for law enforcement services, to emerge from bankruptcy and restore other City services.

Measure B: A non-binding advisory measure approved by the citizens of Stockton on November 5, 2013 related to the Measure A $\frac{3}{4}$ cent general sales tax effective April 1, 2014, 65% of which is to be used for law enforcement and crime prevention services in the City.

Measure K: A San Joaquin County special transaction and use tax measure approved in 1990 for $\frac{1}{2}$ cent sales tax dedicated to transportation projects. This original sales tax increase was to expire in 2011; however, in 2006, voters passed a 30-year extension. The program is administered by the San Joaquin Council of Governments.

Measure W: A special transaction and use tax measure approved by the citizens of Stockton in November 2004 for $\frac{1}{4}$ cent sales tax dedicated to public safety services. Proceeds from the measure are allocated 50% to Fire Department and 50% to Police Department.

MFF: Mobile Field Force

MOE: Maintenance of Effort

Municipal code: Codification of ordinances (laws) of a municipality.

Non-departmental: Program costs that do not relate to any one department, but represent costs of a general citywide nature.

NPDES: National Pollutant Discharge Elimination System

Operating budget: Annual appropriation of funds for on-going program costs, including personnel, operations, capital outlay, and debt service.

Operating transfers: Transfers from a fund receiving revenue to a fund which will expend the resources.

Ordinance: A formal legislative enactment by the City Council. It has the full force and effect of law within the City boundaries unless it conflicts with any higher form of law such as a State statute or constitutional provision. An ordinance has higher legal standing than a resolution.

GLOSSARY

OSHA: Occupational Safety and Health Administration

OVP: Office of Violence Prevention

Permanent fund: A governmental fund type to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for government programs.

PERS: Public Employees Retirement System

Personnel costs: The cost of a City department, including wage/salary, direct and indirect benefits such as health insurance, retirement contribution, workers' compensation, unemployment insurance, etc.

Plan of adjustment: A long term financial plan, approved by the bankruptcy court, which comprehensively restructures financial commitments through creditor settlement agreements to demonstrate solvency.

POST: Police Officers Standards and Training

Proclamation: An official announcement or public declaration.

RDA: Redevelopment Agency – An entity created by a legislative body in accordance with state statutes which has elected to exercise the powers granted to it for planning, development, replanning, redesign, clearance, reconstruction, or rehabilitation of an area.

Reserve: Amount of fund balance designated for a specific purpose.

Resolution: A document confirming City Council administrative action.

Resources: Total amounts available for appropriation during the fiscal year, including revenues, fund transfers, and beginning fund balances.

Revenue: Money received from taxes, fees, permits, licenses, interest, inter-governmental sources, and other sources.

RFP: Request for Proposal

RWQCB: Regional Water Quality Control Board - Issues the wastewater treatment plant discharge permit and regulates its programs.

Section 108: Section 108 is the loan guarantee provision of the Community Development Block Grant (CDBG) program. Section 108 provides communities with a source of financing for economic development, housing rehabilitation, public facilities, and large-scale physical development projects.

Section 115 Trust: An Internal Revenue Code Section 115 Trust enables public agency employers to fund post-retirement benefits for employees. The City participates as a member in a Sec. 115 trust to pre-fund future retirement related payments. Once assets are placed in the trust, they may only be used for the purpose of pension costs.

SMC: Stockton Municipal Code

GLOSSARY

Special assessments: Compulsory charges levied by a government to finance current or permanent public services or facilities to a particular group or persons or property.

Special revenue fund: A governmental fund type to account for and report proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. which collects revenues that are restricted by the City, State, or Federal Government as to the purpose of spending.

SRDA: Stockton Redevelopment Agency

SRF: State Revolving Fund

Strategic planning: Continuous and systematic process whereby guiding members of the City make decisions about the future, develop the necessary procedures and operations to achieve the future, and determine how success will be measured.

Successor agency: An agency that replaces a redevelopment agency as dissolved by Assembly Bill x1 26 (AB1 26 or Dissolution Act) which was signed into law by Governor Brown on June 28, 2011 which was later amended by Assembly Bill 1484 in June 2012. The Successor Agency became operative February 1, 2012, and is responsible for unwinding the affairs of the former Stockton Redevelopment Agency and ensuring recognized obligations are met.

Surplus: The result of taking in more than is spent. Either the excess of fund assets over liabilities or the excess of revenue over expenditures or expenses during a single budget year.

SWAT: Special Weapons and Tactics Team

SWRCB: State Water Resources Control Board

Taxes: Compulsory charges levied by a government to finance services performed.

TFCA: Transportation Fund for Clean Air

UAAL: Unfunded Accrued Actuarial Liability - The excess of the Actuarial Accrued Liability over the Actuarial Value of Assets.

UBC: Uniform Building Code

User fee: Charges for services provided only to those benefiting from the service.

VIPS: Volunteers in Police Service

VLF: Vehicle License Fees
